

NORTH AMERICA
Idaho Municipality Turns to Xylem for UV Wastewater Treatment

Xylem brought its Wedeco ultraviolet (UV) disinfection technology to American Falls, Idaho to purify municipal drinking water and wastewater. Compared to traditional disinfection with chlorine, UV disinfection is an environmentally friendly alternative that produces no by products.

EUROPE
Xylem Pumps For Europe's Largest Wastewater Treatment Plant

Europe's largest wastewater treatment plant treats about 1.5 million cubic metres of wastewater in the Paris region every day. In the frame of the modernization of the plant, Paris municipal authority chose Xylem for the supply of more than 90 Flygt pumps, thanks to Xylem expertise and energy efficient technologies.

ASIA
SMART Tunnel in Kuala Lumpur, Malaysia

Xylem designs pumping solutions for unique dual-function tunnel in Kuala Lumpur. The award winning 'Storm Water Management and Road Tunnel' (SMART) tunnel in the Malaysian capital Kuala Lumpur, that has been successfully diverting flash floods in the city, uses Xylem Flygt brand pumps for transport and dewatering.

MIDDLE EAST
Xylem Participates in World's Largest Water Reuse Installation

Technology from Xylem's Flygt, Sanitaire and Lowara brands is powering the world's largest water reclamation and reuse center in Kuwait, a desert country where about 75 percent of potable water must be distilled or imported.

LATIN AMERICA
Honduras City No Longer High and Dry

Through a remarkable engineering feat powered by Goulds Water Technology brand pumps, Xylem helped bring precious water resources to a drought-stricken city in Honduras six miles up a mountain.

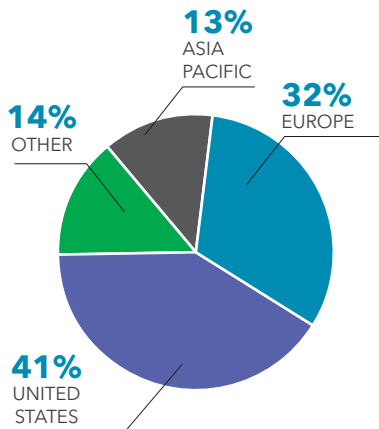

AFRICA
Xylem's Presence in Africa Flows Strong

Xylem South Africa provides technical design, engineering and aftermarket support and boasts the largest submersible pump rental fleet on the continent with 600 units across Sub-Saharan Africa.

AUSTRALIA
Using Stormwater at Sydney Airport

Sydney Airport recently underwent a major infrastructure development project focused on making it more efficient and environmentally friendly. The contractor turned to Xylem and its Flygt, Sanitaire, Wedeco and Lowara brands to provide a new stormwater recycling program intended to save approximately 350 million liters of fresh water per year.
