

Logitech® Wireless Desktop MK320

Comfortable keyboard and carry-around mouse

With its enhanced wireless connection, roomy full-size keyboard and travel-ready mouse, this affordable notebook set lets you go cordless without compromises.

FEATURE AT A GLANCE

Long-range 2.4 GHz wireless

Powerful long-range wireless gives you reliable connection from up to 10 meters away.

Full-size keyboard

Low-profile keys and integrated number pad help you type more comfortably.

Hot-key shortcuts

One touch gets you to your music, videos and applications like email program.

Long-lasting battery life

Go for months without changing batteries — up to 15 months for keyboard* and five for the mouse.**

Sculpted mouse with snap-on receiver

Comfortable mouse with accurate cursor control. Plus wireless receiver snaps onto mouse for easy transport.

Plug-and-play setup

No software to install — just plug the USB mini receiver into your computer and start using the keyboard and mouse.

* Battery life based on a calculation of an estimated 2 million keystrokes per year in an office environment. User experience may vary.
** Battery life may vary based on user and computing conditions.
