-	MRO XI	From Monday to Friday there is no congestion in the port. However, during holidays and weekends, long lines going to the port are experienced. This is due to the small size of the port and heavy influx of people from Davao City and nearby localities/municipalities who go to Island Garden City of Samal for tourism activities. Congestion from the Samal side occurs when people who went there return home usually on a Sunday. This is true for Wessjay Port and Kudos Port. Distance between Kudos Port and Davao Wessjay Port is 1.63 kms while distance between Babak Port and Samal Wessjay Port is 1.81 kms.
-	MRO XI	This is a new proposed route. However, talks with the municipality would reveal that they are eyeing not Samal Island to Lupon, Davao Oriental BUT rather Sta. Ana Pier, Davao City to Lupon, Davao Oriental and w. This

-	MRO XI	was previously served but because of the port condition then of Lupon (makeshift port), the operation was not sustained. With the new port of Lupon built by PPA, they are inviting operators to operate,
