Black E-Z Grip knob 1/4-20 thread

Pro-Werks SILVER JACKET Cables are the perfect selection for positive load transfer with minimal lost motion. Requiring very little effort, these cables are ideal for any cable operated application that calls for either pushing or pulling. Positive, smooth operating SILVER JACKET Cables are fitted with efficient dynamic seals, making them well suited for all extreme use environments. A full circle of reinforcement wires protect and support the inner liner, resulting in minimal deflection during cable operation.

1931 N 24th Avenue, Mears, MI 49436
