- André, E. Note. Entries under André, E. include the works of two brothers, André, E. (1838-1914) and André, J.E.E. (1844-1891). Both had the name Ernest, and both used this name (or its initial) extensively in their publications, rendering correct authorship confusing in several cases. To obviate this they are catalogued here artificially, as if a single person.
