

THE LOUNGE CO

FAMILY FRIENDLY FABRICS

At The Lounge Co. we understand that a lot of life happens on your sofa. It's the centre of the home, a hub for the family. Whether you're binge-watching your favourite TV series, having a well-deserved takeaway, inviting a few friends round for drinks and nibbles or simply having some snuggle time with your loved ones, your sofa puts up with a lot! **That's why we offer a range of Family Friendly Fabrics which use clever stain, odour and moisture resisting technology, making it easy to clean everyday dirt and spills.** Unlike treatments such as Scotchgard, the technology used in our Family Friendly Fabrics is applied at a molecular level and won't wear off or change the feel of the fabric.

FAMILY FRIENDLY PREMIUM RANGE

Our ranges of Family Friendly Premium Velvet and Family Friendly premium Velvet Touch use Crypton Home technology, whose stain repellence and soil release make cleaning up after mishaps easy and painless.

Protection is sealed into every fibre for the life of the fabric, meaning not only are the fabrics durable, but they're also super soft and tactile. The fabrics release both oil and water-based stains and resist the growth of odour causing microbes.

1. Wipe away excess mess with a clean, dry towel.

2. Mix a simple soap and water solution. We recommend mixing 1 teaspoon of enzyme laundry detergent with 2 cups of warm water.

3. Apply using a spray bottle and agitate with a soft-bristle brush.

4. Blot with a clean towel.

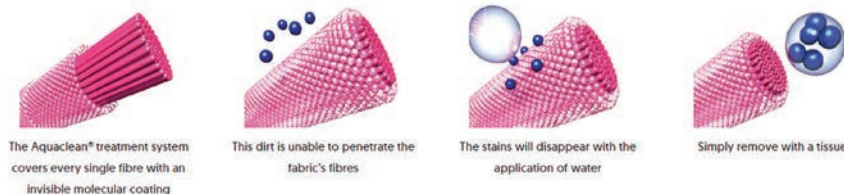

5. Rinse thoroughly and repeat if necessary.

FAMILY FRIENDLY STANDARD RANGE

Our range of 'standard' Family Friendly fabrics, which include FF Plush Chenille, FF Soft Velvet, FF Cotton Touch, FF Kaleidoscope Weave, FF Basket Weave, FF Casual Knit, harness the power of Aquaclean Technology.

WHAT IS AQUACLEAN® TECHNOLOGY?

Unlike protection that gets sprayed on after the sofa is made, the Aquaclean® treatment system covers every single fibre with an invisible molecular coating meaning that dirt is unable to penetrate the fabric's fibres and will disappear when water is applied.

This innovative technology means that you can get on with your life and not worry about your sofa. If you accidentally spill a glass of red wine or a that chocolate ice cream misses your mouth, fear not! Simply follow these three easy steps:

1. Remove any excess residue on the upholstery.

2. Apply water over the stain, either directly or using a damp cloth. then wait a few seconds.

3. Press down over the stain with a damp cloth and rub gently over the fabric in circular movements.

If the stain does not come off completely, repeat the process as required.
