## Kentucky Self-Serve

Ⓔ This hot display case is revolutionary in design. Equipped with a heating element mounted above a water tray and aided by axial fans, the cabinet maintains a constant temperature on all shelves and maintains a perfect level of humidity in the air – keeping food fresher for longer.

- Temperature controlled by mechanical thermostat located on the rear of the unit to maintain 30–90 degrees.
- Each shelf is illuminated by fluorescent lighting.
- Lift up doors to the front make for easy customer self serve options.
- Illuminated graphic panels for customised graphics on the front of the unit and shelf strips for pricing and promoting of product.
- Available in 2 tier and 3 tier products.
