

THERAPEUTIC PAIN RELIEF GEL

Relieve Soreness • Soothe Muscles & Joints

Our unique, natural Therapeutic Pain Relief Gel is formulated specifically for expectant mothers, and works to detoxify and provide clean, fast, odorless relief.

When our natural Therapeutic Pain Relief Gel is massaged into the skin, the aloe vera, menthol, and eucalyptus are quickly absorbed into the muscles and joints to provide a natural anti-inflammatory action, and fast-acting relief for sore muscle and joints.

The gel goes on cool but quickly warms the area by helping the body's natural healing fluid to flow freely and encourage pain-free movement.

4 OZ. Bottle
