P R E F A C E

The Census of Population, Households and Dwellings was carried out from the 1st to the 15th of November 2002. The data in the Census forms have been written according to the situation on the 31st October 2002 at 24:00 hrs, namely at midnight between 31st of October and 1st of November 2002.

The Census was carried out according to the Law on Census of Population, Households and Dwellings in the Republic of Macedonia, 2001 ("Official Gazette of the Republic of Macedonia" No 16/2001 and changes and supplements to this Law published in the "Official Gazette of the Republic of Macedonia" No 37/2001, 70/2001 and 43/2002).

The methodology, definitions and classifications for this Census are completely harmonized with the Law on Census and the Recommendations for Censuses on Population Households and Dwellings prepared by the United Nations and the Statistical Service of the European Union - EUROSTAT. This ensures the international comparison of the Census data.

The State Statistical Office has announced the first final results of the Census on Population, Households and Dwellings 2002, on 1st of December 2003. According to the Census Law, the State Statistical Office is obligated till the end of June 2004, to publish all 12 planned publications for the Census 2002.

This is the tenth publication (Book X, Census 2002) which contains 4 tables with data for the total population, households and dwellings in the Republic of Macedonia, as well as the data of the total population according to the ethnic characteristics - ethnic affiliation, mother tongue and religion. The data in the tables are shown on the level of settlements, according to the existing territorial distribution of the Republic of Macedonia.

We expect that, the data contained in this publication and in the following publications will satisfy the most of the users needs of our data. Certainly, for each user who will need another data from the Census, that are not included in the designed publications, the State Statistical Office will make all necessary data processing to satisfy these requests.

METHODOLOGICAL EXPLANATIONS

1. Time of the Census

The data in the Census forms have been recorded with the situation on the 31st of October 2002 at 24:00 hrs, namely on midnight between 31st of October and 1st of November 2002. This date is Census reference date - "Critical moment of the Census".

2. Method of enumeration

The Census was carried out by an interview from trained authorized persons (enumerators) with recording the data in the printed forms.

- Enumeration form (P-1 form)

for each enumerated person - unit of the Census

- Questionnaire for household and dwelling (P-2 form)

for each enumerated household and dwelling - unit of the Census

3. Units covered by the Census

The Census of Population, Households and Dwellings, 2002 covered the following units:

- Persons (individuals)

1. Persons who have place of usual residence in the Republic of Macedonia, regardless whether at the time of the Census they are present, at their place of usual residence or elsewhere in the Republic of Macedonia;

2. Foreigners who have a residence permit in the Republic of Macedonia and they are temporarily present in the Republic of Macedonia at least 12 months (one year), but who have a place of usual residence outside of the Republic of Macedonia;

3. Persons who have place of usual residence in the Republic of Macedonia, and at the time of the Census, but for a maximum of 12 months (one year) prior to its conduction, are working abroad, as well as the members of their households;

4. Persons who have place of usual residence in the Republic of Macedonia, and during the time of the Census are working abroad at the diplomatic and consular representative offices of the Republic of

6. Foreigners with acknowledged status of refugees who at the time of the Census are present in the Republic of Macedonia;

7. Foreigners with acknowledged status of a temporal humanitarian protection that at the time of the Census are present in the Republic of Macedonia;

PERSONS COVERED WITH THE ABOVEMENTIONED EIGHT CATEGORIES CONSIST THE ENUMERATED POPULATION IN THE REPUBLIC OF MACEDONIA.

PERSONS COVERED WITH THE ABOVEMENTIONED CATEGORIES FROM ONE TO FIVE CONSIST THE TOTAL POPULATION OF THE REPUBLIC OF MACEDONIA.

- **Households** (households of the persons being Census units) and
- **Dwellings** (dwellings in a narrow sense of word, inhabited business premises, improvised living quarters and collective living quarters)

4. Place of enumeration

The place of enumeration is the place of usual residence of the persons - Census units. As a rule, the persons with a place of usual residence in the Republic of Macedonia who at the Census period are absent abroad up to one year, are enumerated abroad, at the diplomatic and consular representative offices. The Census abroad was carried out by the Ministry of Foreign Affairs with co-operation with the diplomatic and consular representatives.

Due to harmonization and adjustment of the Census as statistical operation towards the standards of European and World Statistics, in the Census 2002 are made certain changes that are in relation of defining of the Census units and calculation of the category total population. The enumeration of the Census units was conducted by **place of usual residence**, and persons with a place of usual residence in the Republic of Macedonia working abroad more than 12 months, as well as the members of their households, were not Census units.

These changes do not allow a complete compatibility of the data from this Census with the data from the previous censuses.

5. Place of usual residence

Place of usual residence is the geographic place where the enumerated person usually resides. This may be the same as, or different from the place where the person actually was at the time of the Census, or it may be his/her legal residence (according to the personal document). A person's place of usual residence understands the place where he/she spends most of his/her daily or night rest.

In this publication the data from the Census 2002 are presented in four tables:

1. Total Population, households and dwellings in the Republic of Macedonia
2. Total Population, of the Republic of Macedonia according to declaration by ethnic affiliation, by sex
3. Total Population, of the Republic of Macedonia according to mother tongue, by sex

A household is also considered to be **any person who lives alone ("single person household")**, and who has no other household elsewhere.

A household is also considered the so-called **collective (institutional) household**, i.e. a household consisting of persons who live in institutions for permanent care of children and adults, in monasteries-convents and hospitals for incurable persons.

For this purpose in the Census questionnaire an empty line was foreseen for the question of ethnic affiliation. For children under 15 years of age, a response to this question was given by one of the parents, the adoptive parent or the tutor. For children younger than 15 years of age, the answer of this question should be given by one of the parents, the adoptive parents or the tutor. For the deaf, the mute, the deaf-mute and other disabled persons not being able to speak any spoken language, the language that was mostly spoken in the home in their early childhood was recorded.

TABLE 4. Total population of the Republic of Macedonia according to declaration by religion, by sex

For this purpose in the Census questionnaire an empty line was foreseen for the question of religion. For children under 15 years of age, a response to this question was given by one of the parents, the adoptive parent or the tutor. Neither the enumerator nor anybody else could not in any way influence the enumerated person to state his religion declaration against his own will. In accordance with the Census Law, a person could, for private reasons, refrain from declaring his/her religion declaration.
