Toyo Tires

Toyo has a wide range of tyres to suit all 4x4's. If it is a tyre for all terrains, one specifically for off-roading, or you are looking for a sporty tyre that doesn't venture too far from the road, Toyo have a product to suit.

Proxes S/T

A sporty option for high speed vehicles in dry and wet conditions

High Speed 4x4 Mercedes ML

[Page 4](#)

Open Country H/T

Designed for 4x4's and SUV's which are used on road for the majority of the time

Road based LR Freelander

[Page 5](#)

Open Country A/T

Offers superior traction in off road conditions and offers a safe, comfortable journey on road

4x4 Cars that do some off-road

[Page 7](#)

Open Country W/T

Offers superior traction in cold weather conditions

4x4 used on British roads during the winter for example: Land Rover

[Page 9](#)

Open Country M/T

Offers exceptional stability and grip in off road conditions

Serious off-road vehicles

[Page 10](#)

Tranpath M/T

Offers exceptional stability and grip in off road conditions

Serious off-road vehicles

[Page 10](#)

Tranpath A11

General road conditions

Designed for Lexus RX300

[Page 11](#)

Tranpath TAA14/11

All-Round Performer

Designed for Toyota RAV4

[Page 11](#)

Open Country A20A

Offers excellent braking performance even in the snow.

Designed for Nissan X-Trail

[Page 11](#)

4x4 road

The problem with most off-road vehicles is they're not driven by off road enthusiasts! That's why Toyo brought out a 4x4 tyre which solves the problem. The S/T range had been specifically designed for the replacement alloy wheel market. They also look great on the school run. The superb V-rated performance in wet or dry means that if you do go off-road, Toyo S/T's will keep you off the beaten track.

PROXES S/T

In recognition of the fact that not all off-roaders venture off the beaten track, the high speed rated Proxes S/T is designed specifically for large 4x4s on optional alloy wheels. The S/T looks sporty and delivers on this visual promise. It's secure and stable on dry or wet roads and blends fine dynamics with low noise levels and a comfortable ride quality. The sporting Proxes S/T is designed with the increasingly popular aftermarket alloys very much in mind.

4x4 on & off road patterns

If most of your mileage is on the road but sometimes you need the extra mobility of a true off-roader, Open Country A/T is the tyre for you. It has a rugged pattern for superior off road traction when you need it, but this all terrain tyre shines on road too.

With excellent wet braking and traction, high ride comfort and outstanding tyre life, the Open Country A/T is the off road tyre that thinks it's a road tyre. Unbelievable is how this tyre's performance could be described with its combination of handling, comfort and stability both on and off the road.

OPEN COUNTRY A/T

The rugged Open Country A/T offers superior traction in off road conditions. Open Country A/T gives aggressive wet and snow traction with exceptional mileage for pickups, vans and sports utility vehicles. This all-terrain radial delivers outstanding handling, on and off road stability and ride comfort.

4x4 on & off road patterns

OPEN COUNTRY W/T

Open Country W/T is the latest winter 4x4 tyre designed to offer maximum grip in cold and wet conditions. The asymmetric tread pattern gives the tyre both great handling and good traction on slippery roads. The silica based compounds in the tread also offer enhanced braking on wet roads and work particularly well on vehicles equipped with ABS. As a result, Open Country W/T is the perfect tyre for 4x4 vehicles used on British roads during winter.
