Step 4.

It will prompt you to setup a new Multi Factor Authentication Setup.

There is a drop-down menu for 3 choices to choose from. Select either SMS which is text to your cell phone or PIN do <u>not select Mobile it is a different more complicated method I</u> <u>can show you if you really want to set it up but the pin code password changes every 15</u> <u>seconds more secure but you would need another app and if you phone gets damaged</u> <u>or lost and you don't back it up it will become a problem later. So do not select that</u> <u>method, it is an advanced method.</u>

Step 5.

If you select SMS (Text Message)

You will have to agree to the Terms of Service Box

And input your put phone number. <u>If your phone number changes later and you select this</u> option, you will have to change it in the settings.
