

A large group of people is seated at long tables outdoors at dusk, dining and socializing. The scene is set against a backdrop of a forested hillside. In the background, a wooden building features a sign that reads "BUILDERS CAMP". A large white tent structure is visible on the right side of the image. The overall atmosphere is social and professional.

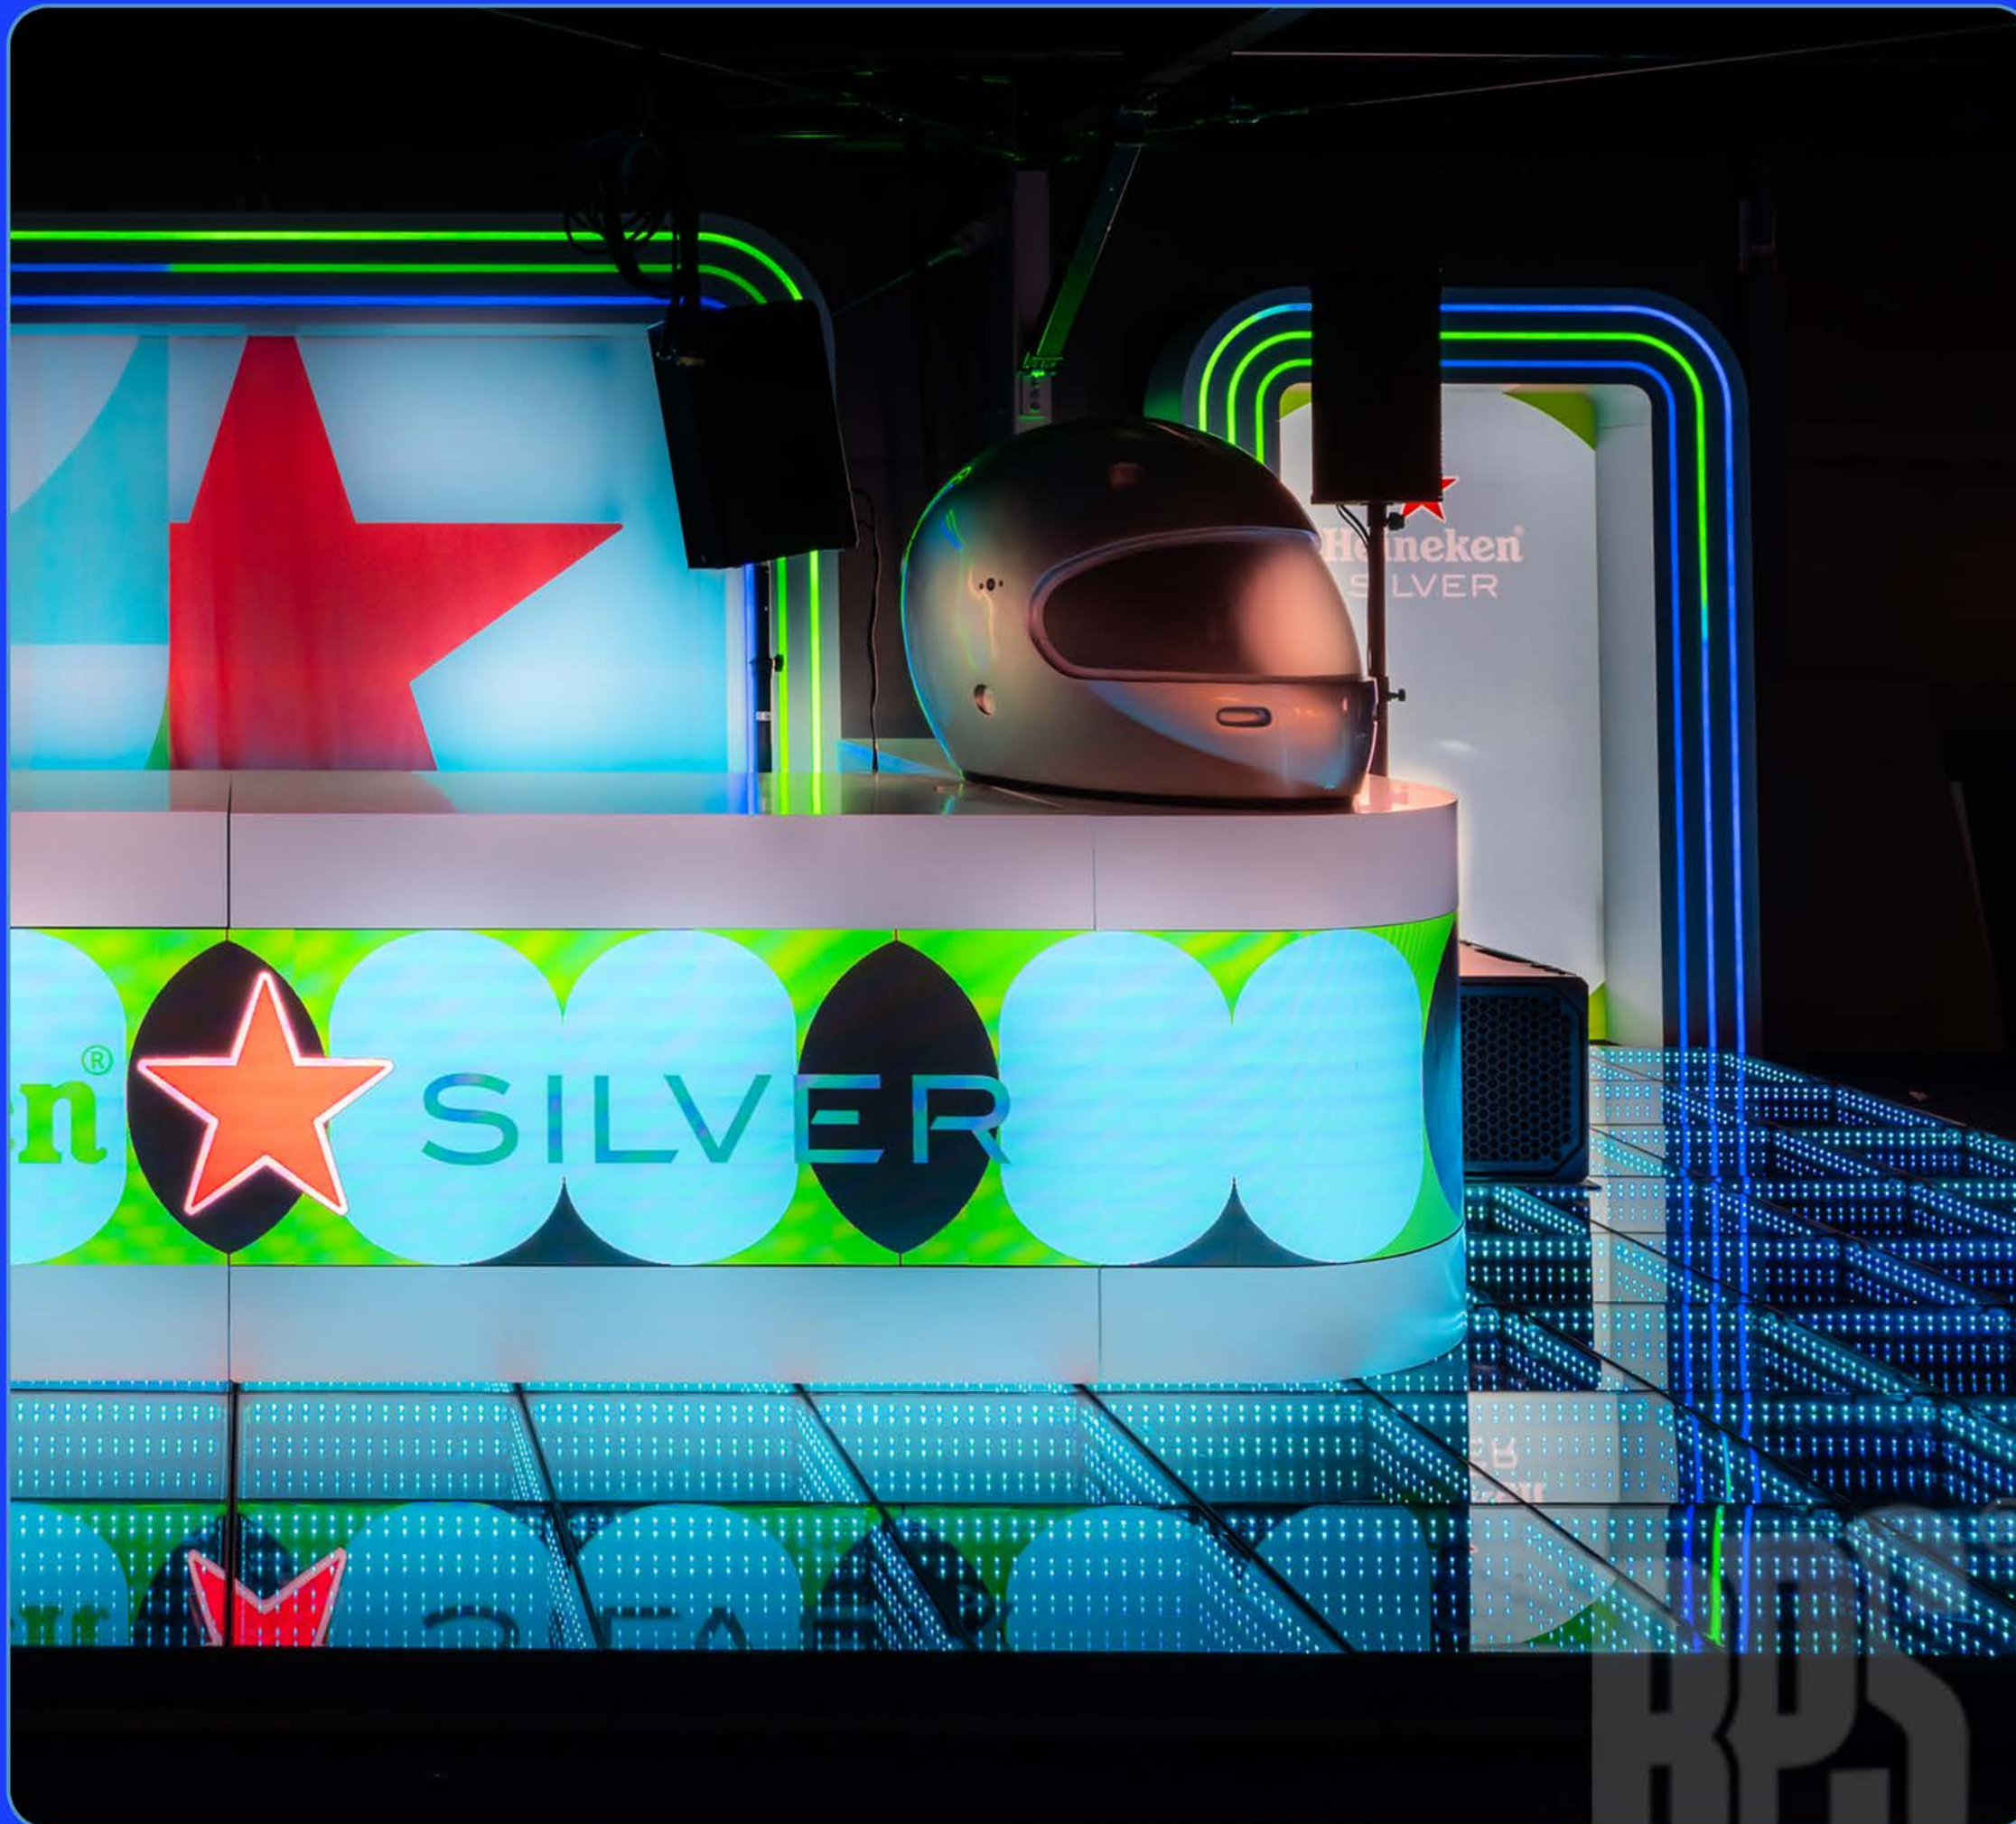

BLUEPRINT STUDIOS

SUSTAINABILITY COMMITMENT AT BLUEPRINT STUDIOS

Sustainability Commitment at Blueprint Studios

At Blueprint Studios, we are dedicated to integrating sustainability into every aspect of our event design and rental operations. Our commitment to sustainability is evident in our daily practices and ongoing initiatives aimed at reducing our environmental impact.

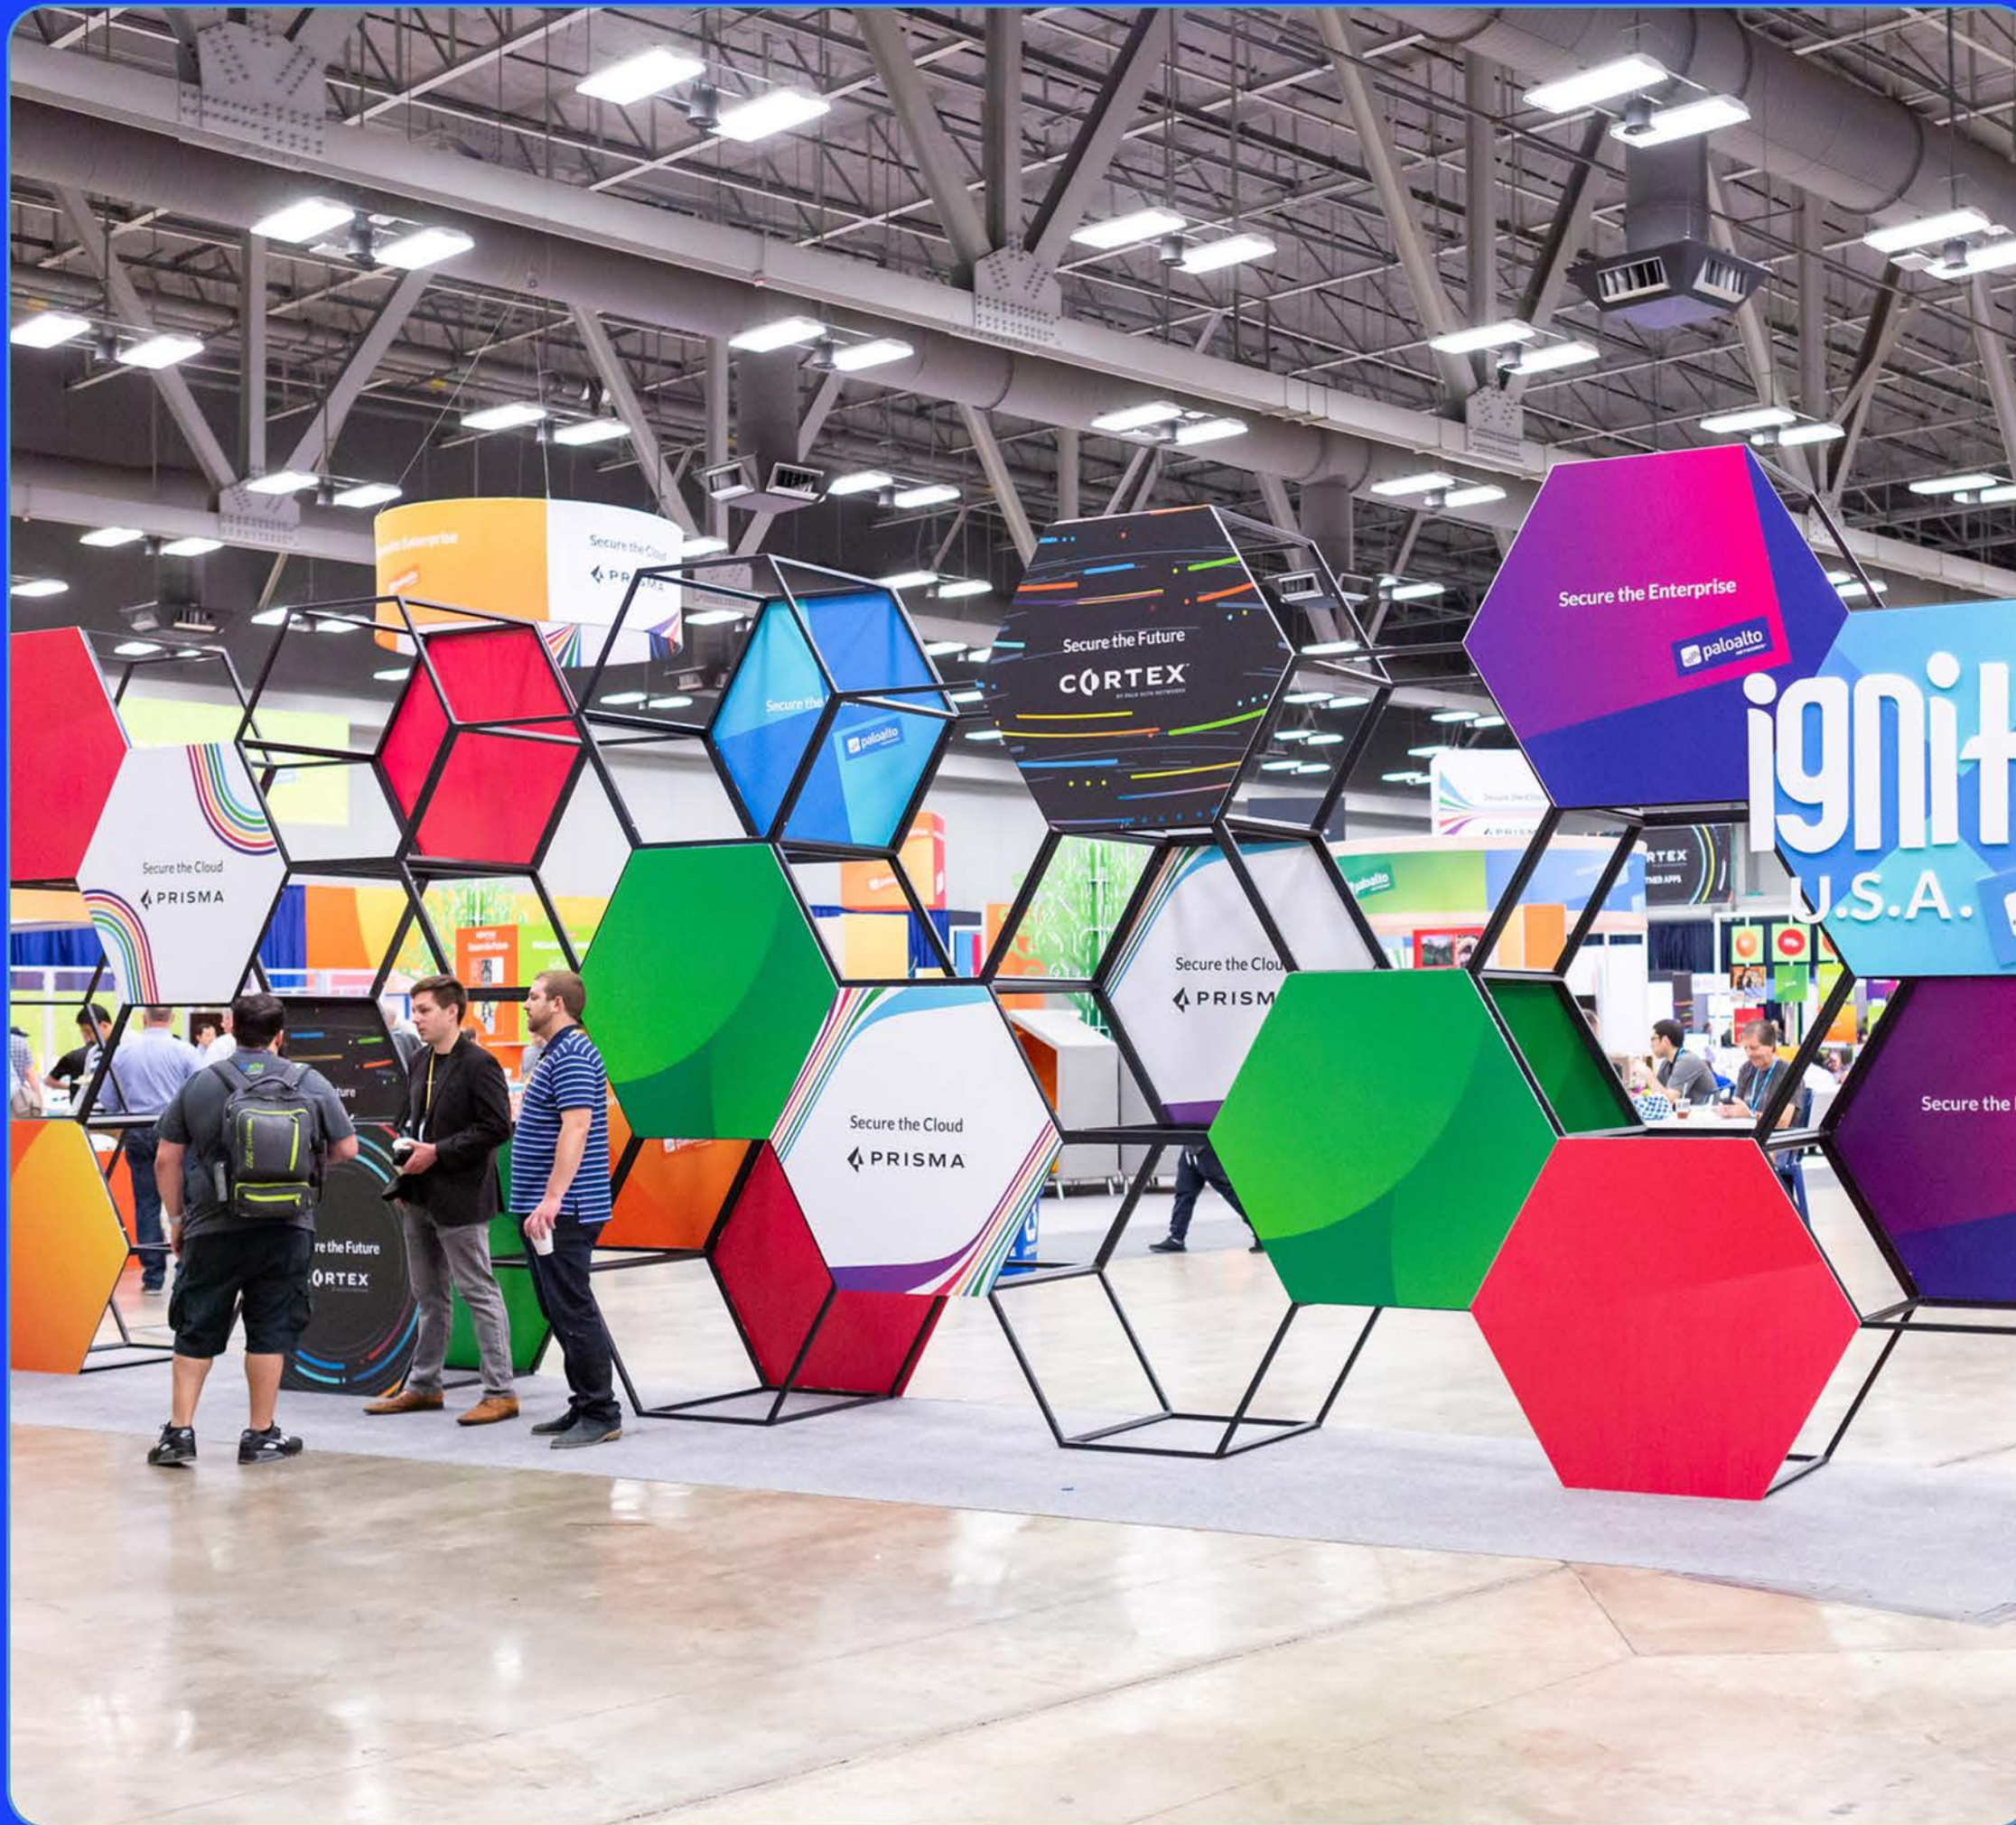

Energy Efficiency

- All our warehousing and offices are equipped with timed lights that automatically switch off when no activity is detected, reducing unnecessary energy consumption.
- We invested in energy-efficient lighting fixtures and appliances to minimize electricity usage across our facilities.
- Our commitment to energy efficiency extends to our event setups, where we utilize LED lighting and energy-efficient equipment to reduce power consumption during events.

Sustainable Transportation

- We prioritize efficient packing processes to optimize space utilization in our delivery trucks, reducing the number of vehicles needed for transportation.
- By strategically planning delivery routes and maximizing load capacity, we minimize fuel consumption and greenhouse gas emissions associated with our logistics operations.

Smart Event Design

- We prioritize the use of digital signage to convey event information, reducing the need for printed materials and minimizing paper waste.
- Our event designs incorporate specialty elements that serve multiple purposes, such as versatile decor pieces that can be reused for different themes or events, minimizing the need for single-use items.
- We offer alternatives to traditional linens, such as specialty table coverings or non-fabric options, reducing waste and the environmental impact associated with laundering linens.
- The use of faux plants in our designs not only adds visual appeal but also reduces water consumption compared to live plants, contributing to our water conservation efforts
- We embrace a philosophy of asset repurposing, where event materials and decor are creatively reused or reimagined for future events, extending their lifespan and minimizing waste.

Exploring Solar Energy Alternatives

As part of our commitment to renewable energy, we are currently exploring the feasibility of installing solar panels on some of our office buildings. By harnessing solar energy, we aim to reduce our reliance on conventional energy sources and lower our carbon footprint.

Continuous Improvement

- We conduct regular audits and assessments to identify opportunities for further energy savings and sustainability improvements.
- Our team actively seeks out innovative technologies and best practices to enhance our sustainability efforts, staying at the forefront of environmental stewardship in the event design and rental industry.

Education and Engagement

- We educate our staff, clients, and partners about the importance of sustainability through training sessions, workshops, and informational materials.
- By fostering a culture of sustainability within our organization and throughout our network, we empower individuals to make environmentally responsible choices in their daily lives and business practices.

A blue-tinted photograph of a modern interior hallway. The walls are covered in a dense, textured living wall of green plants. Several large, colorful potted plants are placed along the hallway. The ceiling features a series of dark, horizontal wooden beams. The overall atmosphere is clean, bright, and natural.

Our Pledge

At Blueprint Studios, sustainability is not just a goal; it's a fundamental value that guides our actions and shapes our future. Through proactive measures and collaborative partnerships, we are committed to building a more sustainable world while delivering exceptional experiences for our clients and guests.

THANK YOU.
