unlimited photorealistic renderings

create high-quality renderings for various finish packages with different angles, materials and furnitures

Now, you can generate unlimited renderings in up to 2K resolution for **free** directly from Virtual Design Center, Virtual Scale Model or Product Visualizer & Configurator.

virtual scale model

An online interactive app for presenting 3D photorealistic buildings that showcases interiors and exteriors with virtual tours, renderings, and other media

The screenshot displays the Virtual Scale Model (VSM) app interface. The main view is a 3D rendering of a modern, multi-story building with a glass facade and a red-tinted section. The interface includes a search bar at the top left, a help icon, and a weather indicator. A filter panel on the left shows the following settings:

- FILTERS** 1 HOME MATCH
- Bedrooms**: Any, 1, 2, **3**, Den
- Bathrooms**: Any, 1, 1.5, 2, 3
- Size**: 1080 sq ft to 1419 sq ft
- Price**: \$537,000 to \$1,340,000
- Views**: A circular compass with 'Any' selected in the center, surrounded by NW, N, NE, E, SE, S, and SW.

At the top right, there are icons for 'Model Type' and 'Back'. Below the main view, a legend indicates the selected filter: 2 Bed (green), 3 Bed+D (orange), **3 Bed** (red), 2 Bed+D (purple), 1 Bed+D (blue), and 1 Bed (light blue). A 'Default View' button is also present.

On the right side, the unit details are shown: **3B** (with a heart icon and a 360-degree view icon), 1119 sq ft, 3 bed, 2 bath, NW, and a price starting from **\$1,038,000**.

Below the unit details is a detailed floor plan of the unit, showing a dining area, living area, two bedrooms, a principal bedroom, a balcony, and a bathroom. Dimensions are provided for various rooms. At the bottom right, there is a smaller floor plan of the entire floor (floors 14-20) with unit 3B highlighted in blue, and a north arrow.

virtual site plan

An interactive site plan app that displays real-time sales availability with architectural control rules and advanced home search criteria.

generate maximum customer satisfaction with shopping experience controlled by buyers

247SalesCenter

The 247SalesCenter is a Proptech Platform designed to create epic home buying experiences. It is a cloud-based hub made up of a series of builder apps designed to empower all your online and in-person digital sales, marketing, and design studio experiences. It includes everything from a real-estate CRM, website CMS, to interactive marketing, sales, and design studio apps. It improves operational efficiency and tightly integrates with the marketing, sales, design and construction operating units.

Virtual Design Center

virtual model home

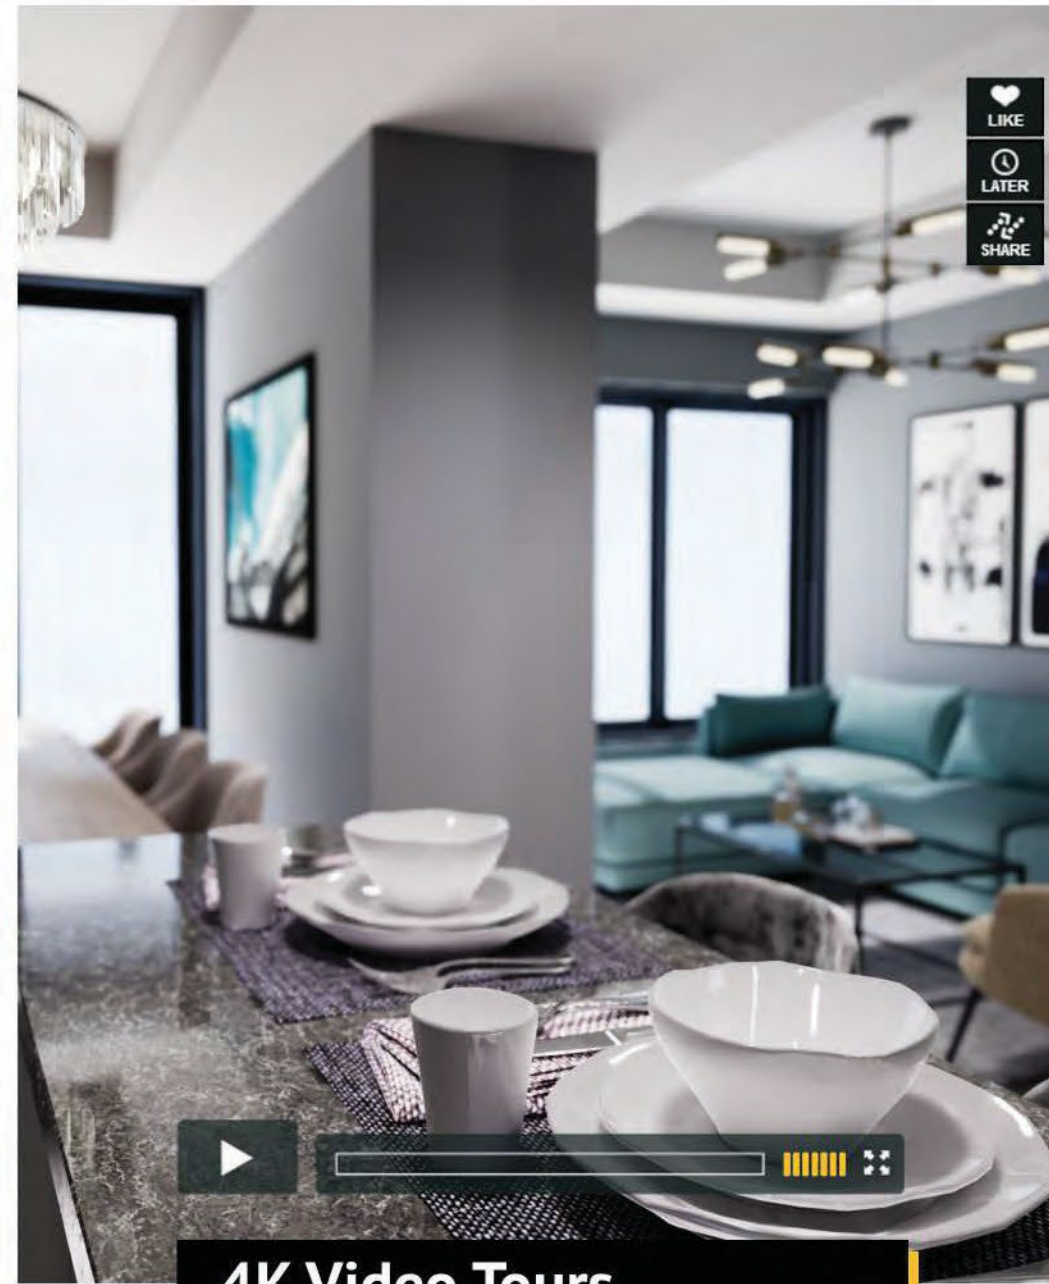

Virtual home staging (Virtual Model Home) or product staging is a modernized version of home staging that is significantly quicker and cheaper than traditional staging processes.

virtual tour

Interactive Virtual Tours

4K Video Tours

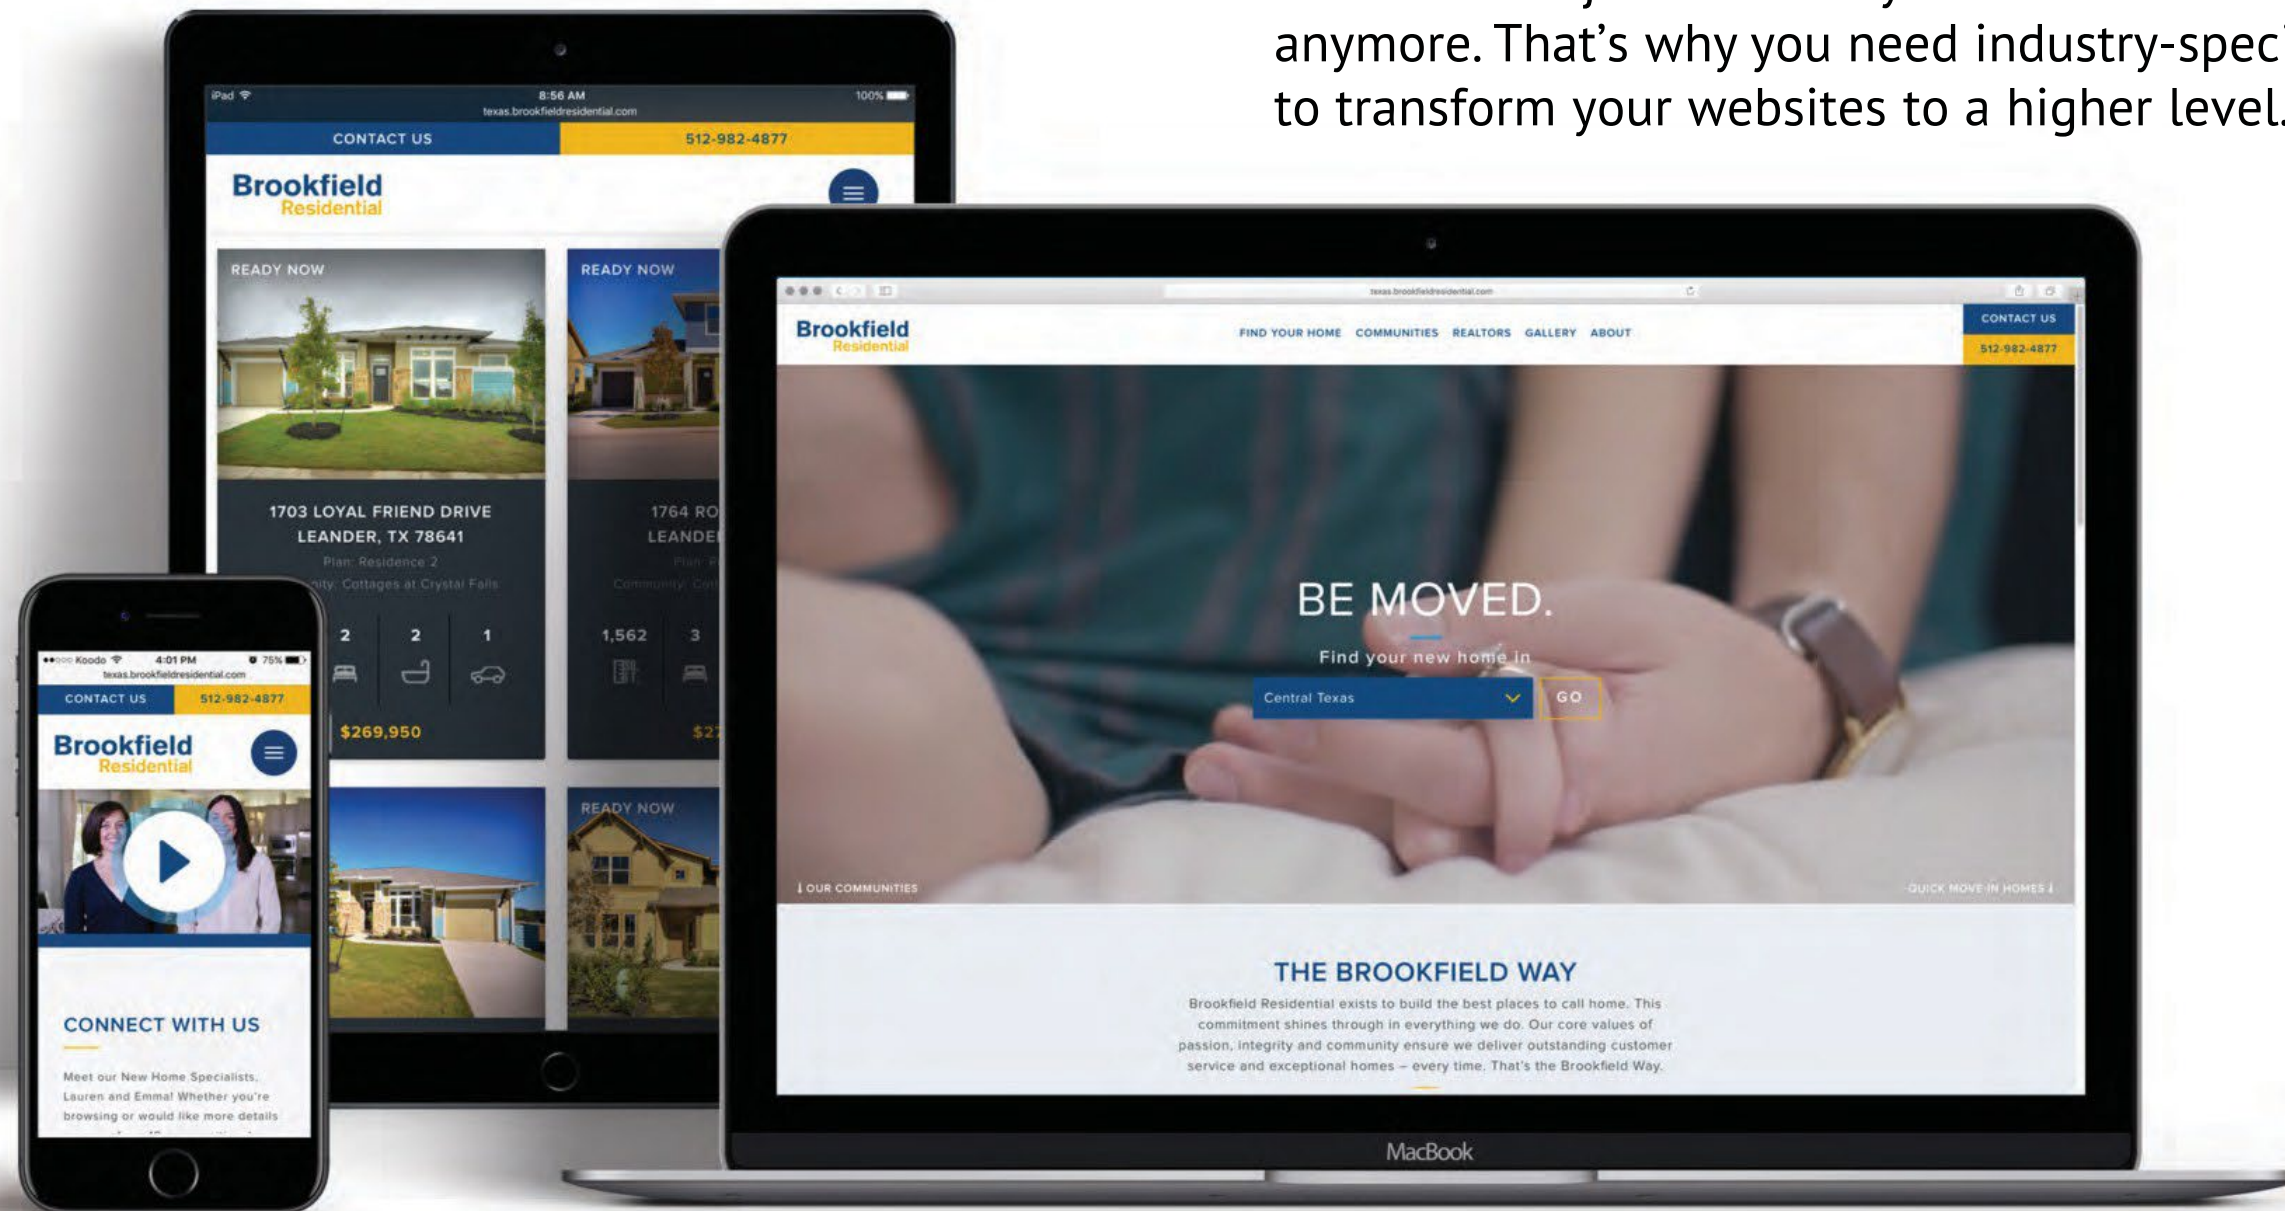

Stunning Still Renderings

A virtual tour may help you promote any residential buildings in a more appealing and explorable way. Visitors can navigate the house on their own via an interactive or video walk-through. In other words, they move from one room to another, visit all levels, and check every details.

custom home builder websites

Today's consumers are expecting not only an amazing web presence of a company but also the online experience and convenience that the company can provide. A simple website with just necessary information is not enough anymore. That's why you need industry-specific web tools to transform your websites to a higher level.

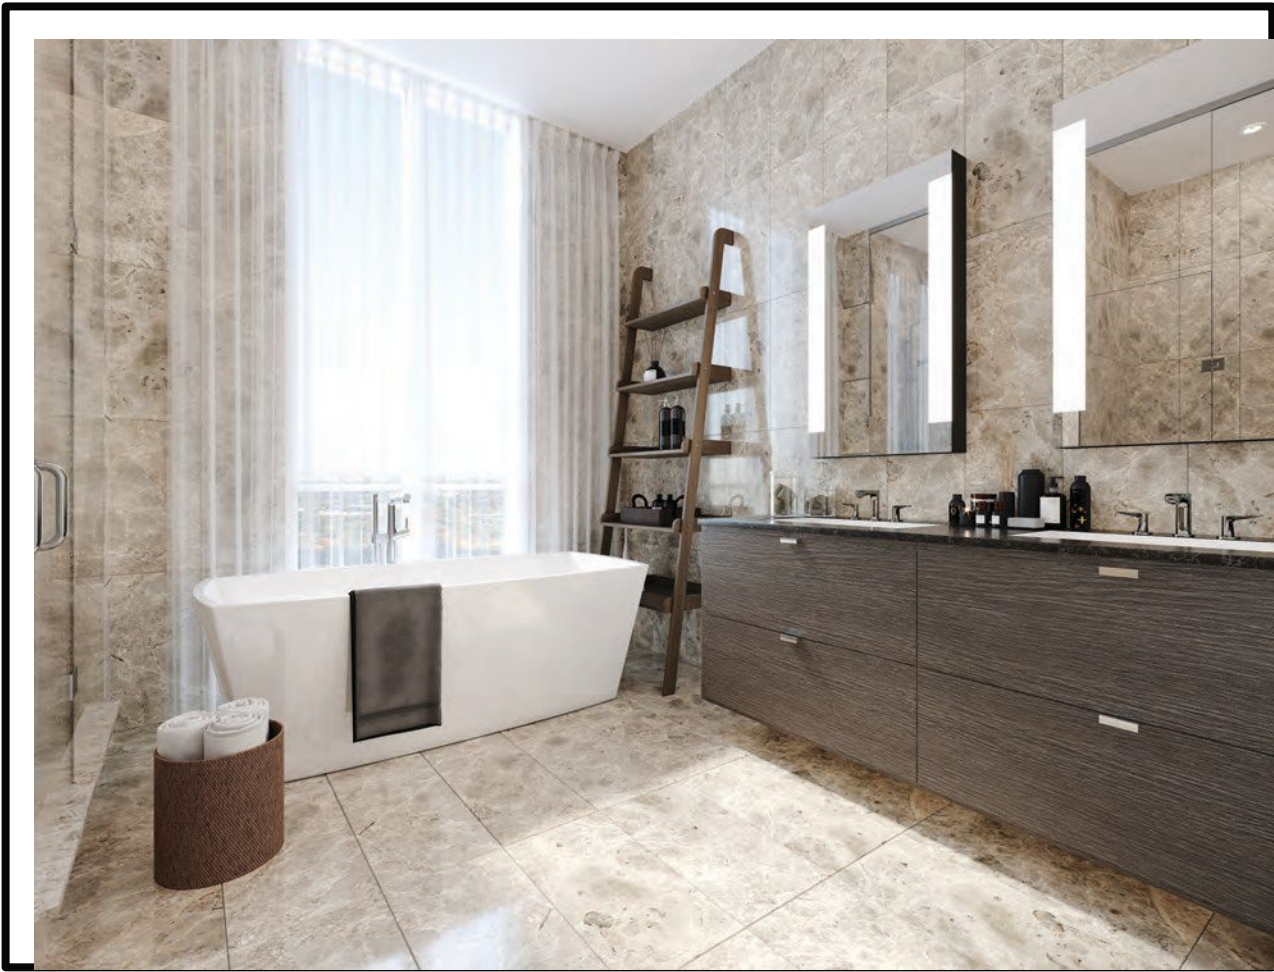

DIY renderings from VDC & VSM

DIY renderings with photoshop

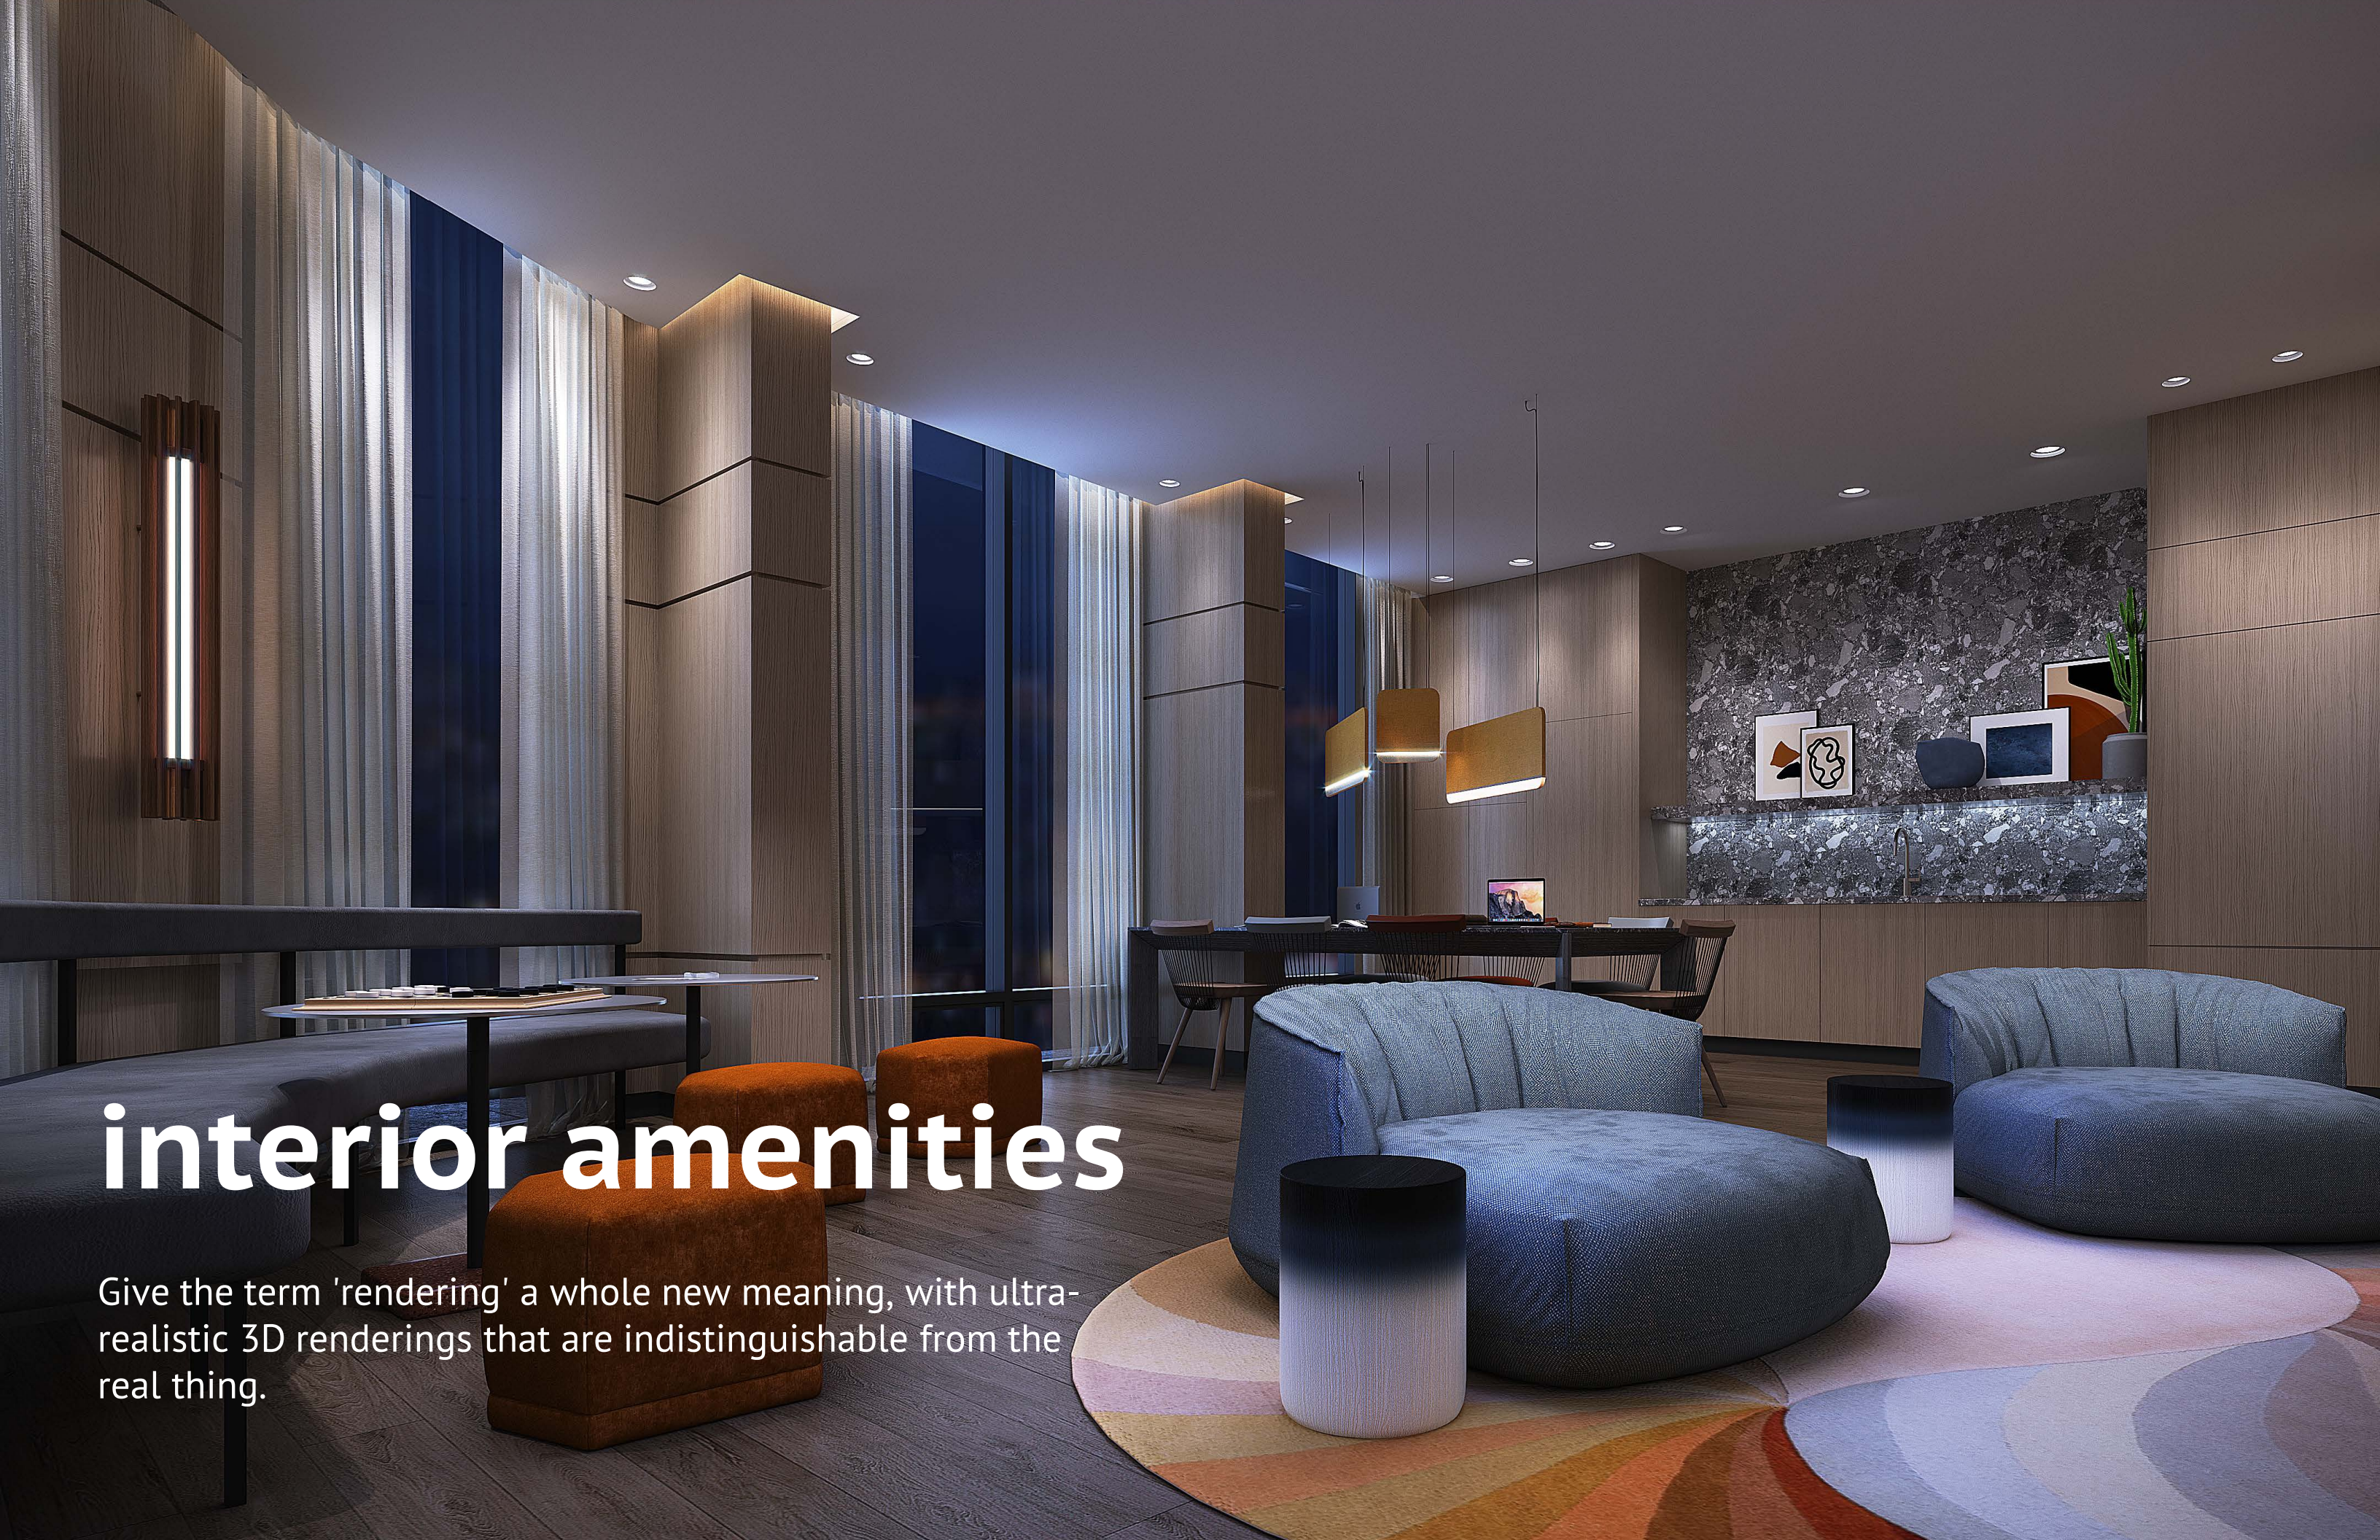

professional interior renderings

Don't tell buyers about their dream home, show them.

interior amenities

Give the term 'rendering' a whole new meaning, with ultra-realistic 3D renderings that are indistinguishable from the real thing.

professional exterior renderings

Our team specializes in bringing plans to life.

We serve new home and condo developers with tools to assist their presales by creating emotional connections between purchasers and their dream homes.

exterior amenities

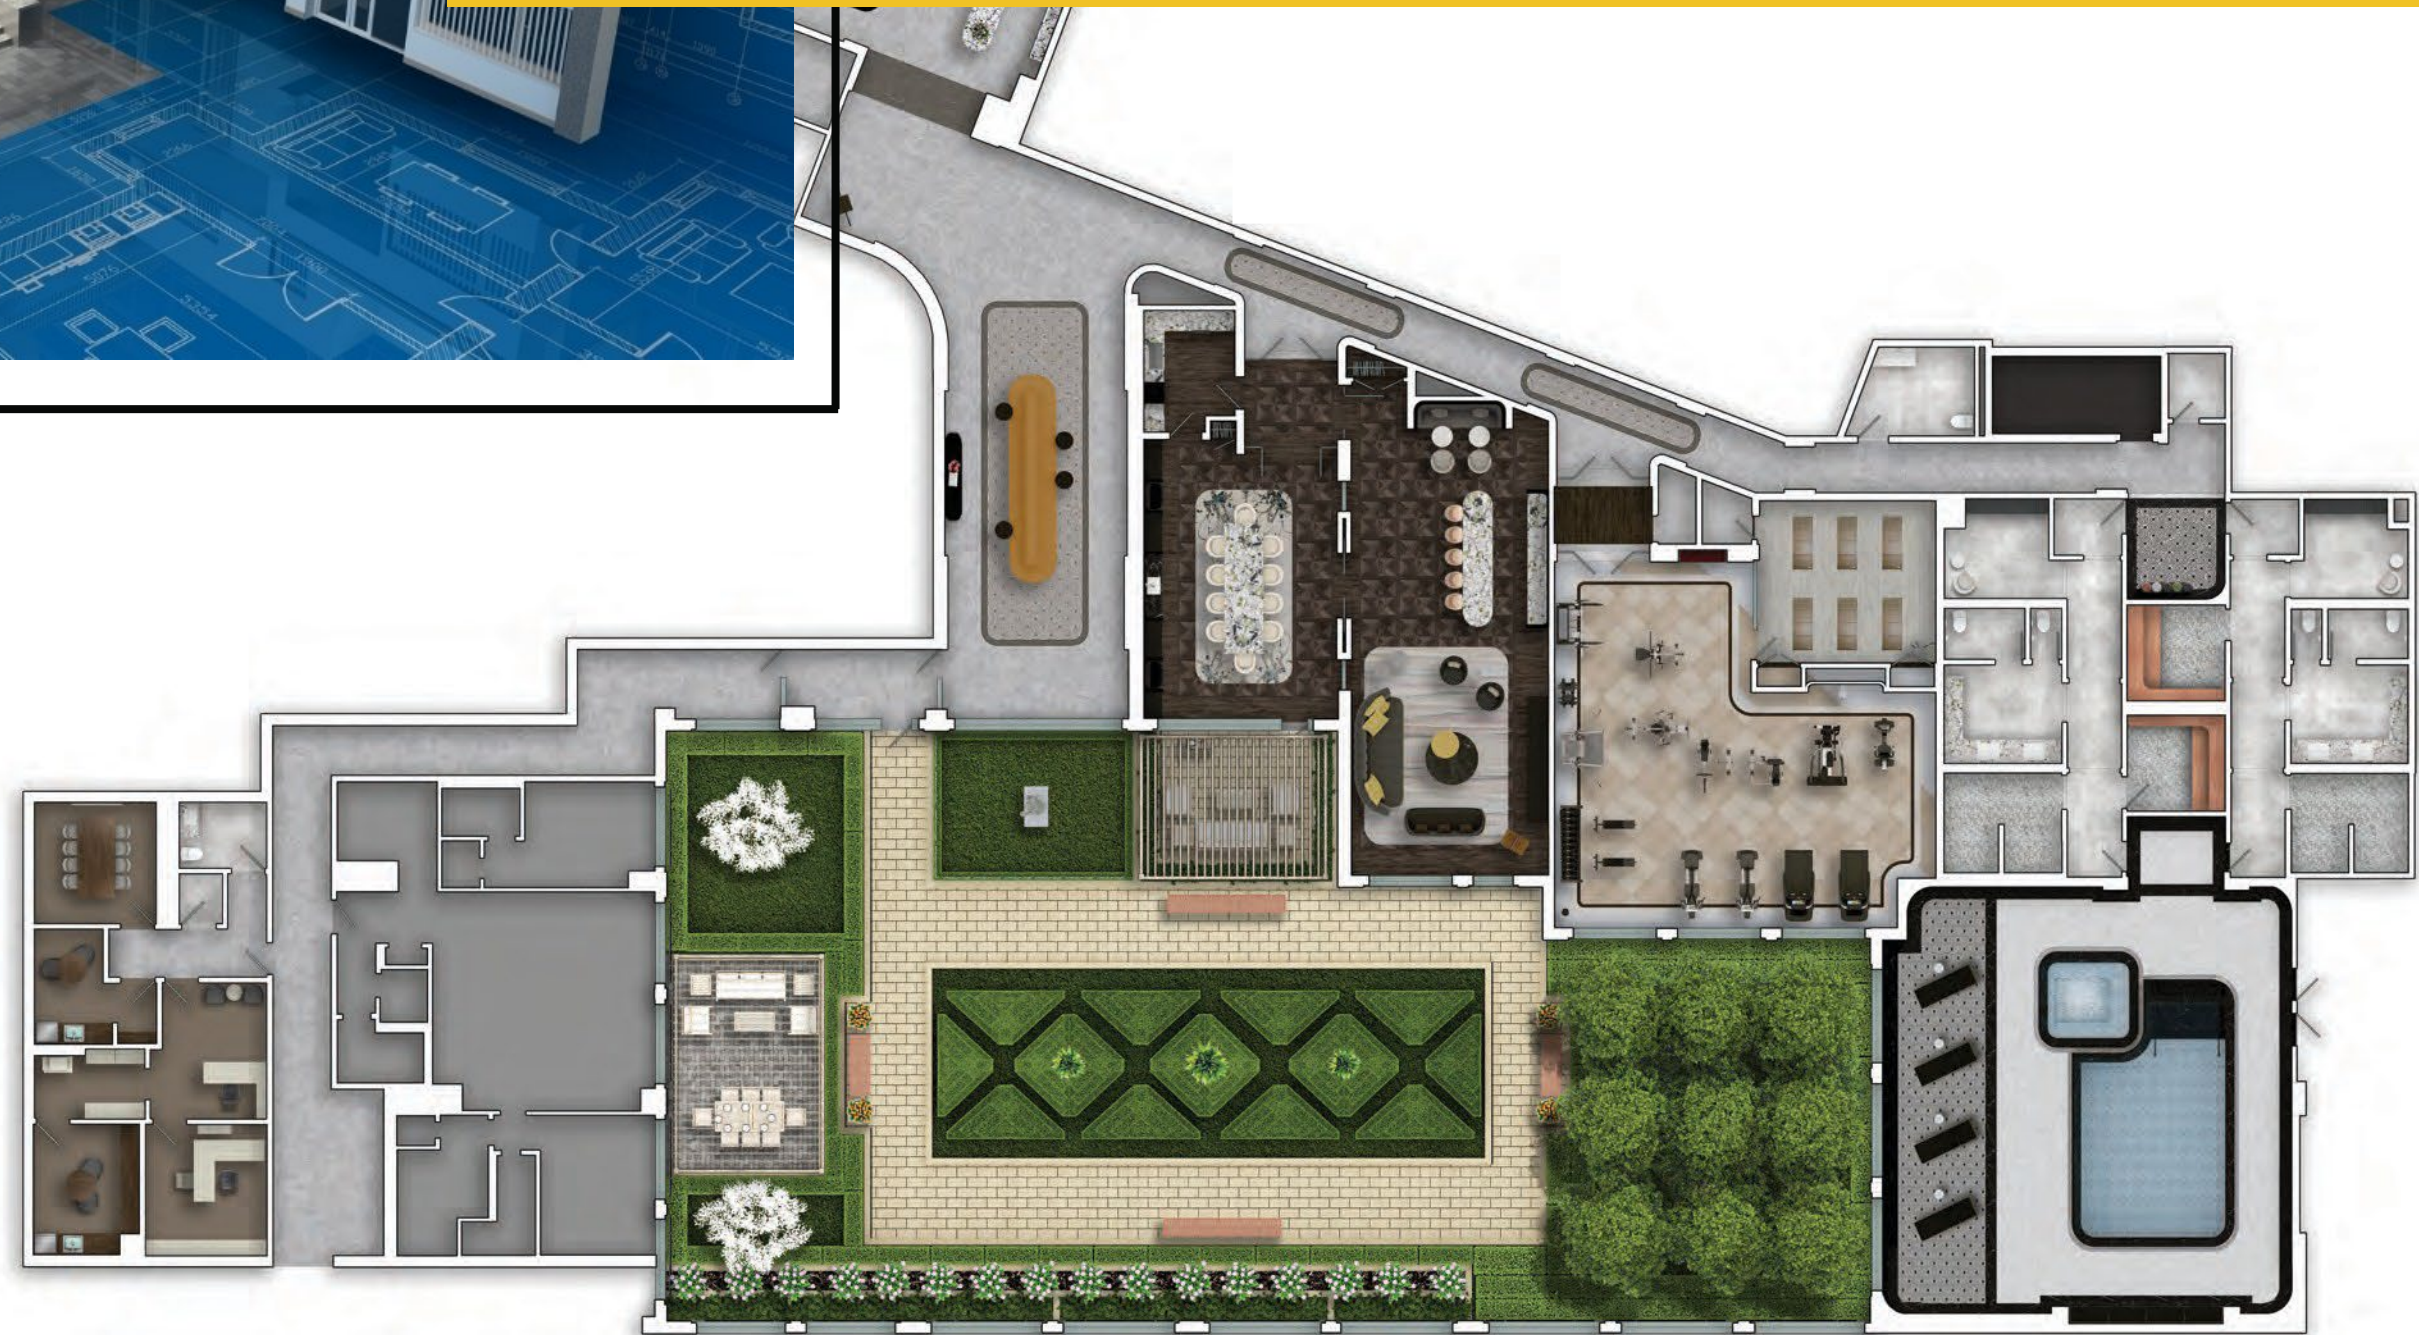

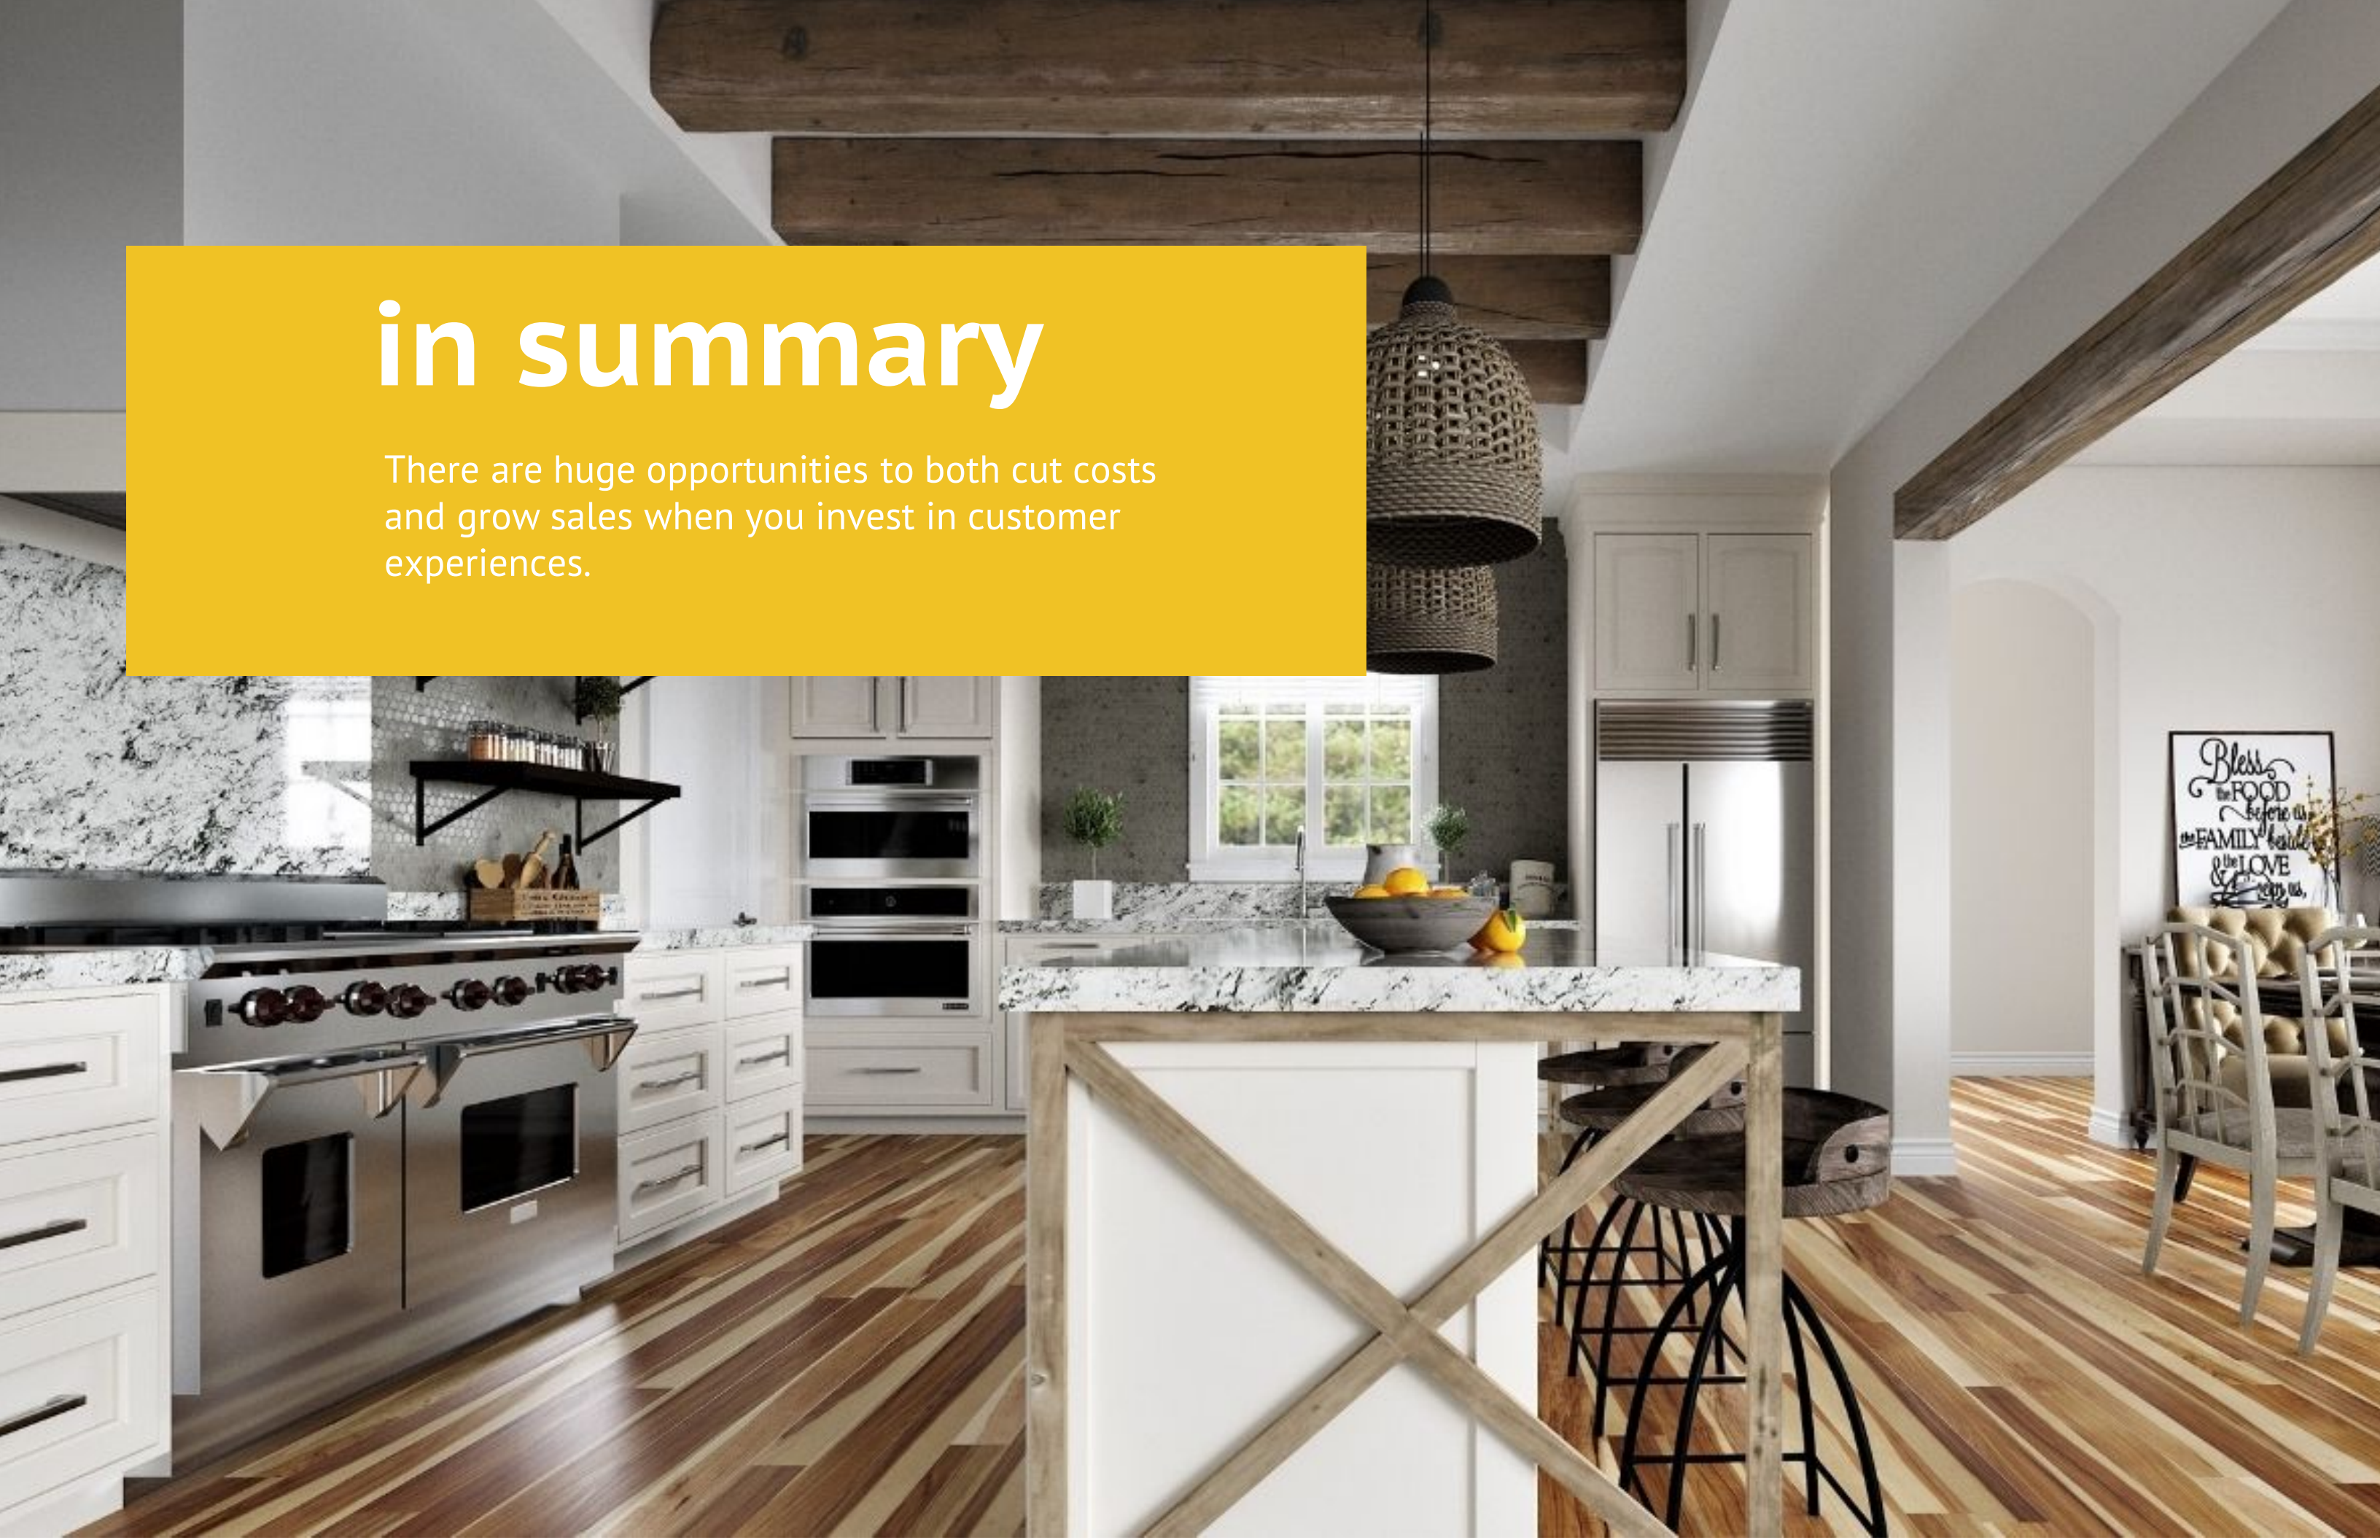

colored floor plans

Transform your black and white floor plans into beautiful 2D, 3D interactive layouts.

in summary

There are huge opportunities to both cut costs and grow sales when you invest in customer experiences.
