STATE OF THE NATION

As I am sitting to write, it has taken a litany of songs both Gospel and R&B to move my thought train from the station. Since starting this leadership journey, I have implored all to see it as a corporate mission where we succeed continually, while having the responsibility of being a gate keeper can be weighty and tiring at points yet rewarding when we cross the success finish lines of life.

This music reminds me of earlier times when creativity through lyrics and melodies carried us into battles for human dignity and civil rights, thus fostering promise for future generations to come. As I listen today to the inspiration and insight of the Temptations, Marvin Gaye, Harold Melvin and Curtis Mayfield I find the challenges of more than a half century ago remain and are more virulent than ever. Children are lost to mortality; older persons seem to have no comfort in their waning years and the selfie has replaced a compliment as the mechanism of basic compliment among us all.

The world has changed yet still others have continued their pursuit of the denying of civil and human rights that no sane, competent moral citizen could or would disagree with. White pride, the substance and essence of systemic racism are driving an agenda last visited in 1861. The previous administration revived the dare of the antebellum South and laced it with a spirit of insurrection that could have pushed this great democracy into possible civil war once again. It conspired with other “world leaders” to sustain a massive accumulation of personal wealth which even the likes of John David Rockefeller would envy. This thirst for unbridled wealth and power has become the true human pursuit while the final arbiters of law in this great nation has imbedded itself in an arch conservative political agenda rather than what prevails as rightful for all.

As we face this pandemic, a life altering experience lived by many and fatal to millions set upon us even though others knew of its approach and took no pause to warn and prepare us for its coming. Throughout the Scripture we find stories of how GOD set plagues upon us to redirect our path for it had found its way apart from his will, but the Pandemic has been a pause button that set all motionless, thank HIM for Grace and Mercy, time to think and reflect. It has become a time when reflection upon how through media, the Internet and Media we’ve strayed it’s also been the time needed to find ourselves in HIS purpose again. It has become a time when the world cannot rotate on its axis only to find its become a stationary platform. What have we gained/learned from the experience that today continues, have we yet learned that GOD is unhappy that we are not fulfilling HIS will.

Some fail to reflect upon a simple declaration that should fulfill all, “That which you do for the least of you, you do for ME”. We have shown significant growth by extending to underserved people, in underserved communities a small share of HIS communion. While we have done more through this plight than we have achieved before yet more is needed. Keeping with the purpose of our GOD, keep in mind that of whom much is given MORE is expected. HE has opened the storehouses that all may share in the bounty. Reflect on this, if session were done on a virtual platform could the accumulated saving to each of us be the gifting purpose of this Imperial Council and Court. What a marvelous yet simple proposition! Take this gift of technology and the media it can generate and make it a powerful change for others. As the song simply says be a soldier in the army cause you can’t help but give joy when you think of what HE’S done for all of us.

Sixteen years ago, our 37th Imperial Potentate wrote of the plight of the “Disappearing Black Man”. Statistics show that progress toward this goal has only taken on more steam with headwinds stoking the intensity of the heat of passion. Youth of color today are eliminated simply by making weapons available at low cost, thus an indirect process of genocide and elimination from career/work competition. Having worked in public education I have personally observed this phenomenon occurring progressively as children of color are left out and behind. Graduation rates continually hover in a range around 22% and are showing projections of further slippage in the future.

The erosion of Black middle-class households and families with no responsible adult at its lead has destroyed morality as a common place practice. Unable to find salaries to sustain, our women are progressively seeking “reality experiences” as a way to succeed and provide. Poles are not an instrument of an elevated society, while remembering a favorite quote of mine “women are the keepers of morality and once lost we will sink to depths that offer no return”

We “Black Folk” must understand that OUR place in the order of humanity is oft times mistakenly claimed because of CCM. Credit Card, Car Notes and Mortgages support a false sense of security as long as you pay on time. We must grow our thought toward real wealth accumulation and the benefit it can produce in claiming the “American Dream” not nightmare. Then and only then will we become stakeholders for ourselves and promulgators of a future for our children. The sixties returned the promise that first revealed itself in the early twentieth century in places such as Tulsa, OK, we were on our way until others realized they weren’t.

Change America, make it a place where it lives daily to its promise of freedom and equality with respect for the life and dignity that it guarantees to all. We will only achieve this through activism for ourselves and others we find in similar circumstances. Let’s not be crabs in a barrel scrambling to go nowhere.

“Let’s not be crabs in a barrel scrambling to go nowhere.”

— John T. Chapman

The Storm Pursues Me

STATE OF THE DOMAIN

Writing is always difficult for me. Emotions and trained thought often clash and finding reasoning sometimes escapes me. Other voices in my ear help, they push intellect thus forcing me into contemplation and solution and oft times lead me to a destination where I can be effective. This Imperial Council is and probably always will be a cauldron of enigmas. Approaching this office, I now hold was tenuous, finding obstacles at my feet not useful to my goal to serve as your Imperial Potentate. None the less a force much greater than I cleared clouds of deception and I found myself at the point I sought for 20 years, the 44th Imperial Potentate. Recognizing old plights and encountering new ones, I set about planning, designing and implementing strategies that would stabilize then propel us to greater heights. Along with the Deputy Imperial Potentate and John Goss a program of the development for deputies has been realized which will improve and strengthen their operational performance has been shepherd forward. Thank you Larry Henry for your untiring effort! Our deserts are the Imperial Council and like any other organizational alignment, we are only as strong as our weakest element.

MEMBERSHIP

Membership as a driving force is life sustaining to any voluntary organization and its only asset. Our base fiscal point is 15,000 active financial members. Facing the rage of the pandemic we discussed and subsequently supported a plan to access and grow membership through virtual participation. I must acknowledge the efforts of HPIP John Goss #1 and HPIP Dwayne Thomas our then Imperial Lecturer who along with now Lecturer HPIP Stephen Northern developed not only a ceremony for creation but also put our exaltation elevations into an operational virtual format. I'm not going to take credit for any of it except to say that along with the Divan we empowered their efforts on a path forward. We have experienced a growth of more than 3000 new Nobles created across the Domain with more than an additional 1000 reclaimed through a Group Supervision effort. A somewhat disappointing note, we have lost a little more than 1000 through attrition, death and most times just a plain old failure to communicate. The more promising aspect has been the expansion/enlargement of our foot print that being new

temples. We have enjoyed an increase of 29 temples, either through the restoration of dormant charters or the creation of new ones. On the table is new a temple on the continent of Africa in Brazzaville, the Congo.

NATIONAL PLATFORMS

Our presence as a force impacting change in our communities has been lost to the attention of the larger public. Through the efforts of Nobles the likes of William Bill Lewis, Alphonso Braggs and Leslie Miller we have renewed our commitment to the NAACP. Through our MOU, we officially support voter registration, voter turnout and forums for candidate engagement by providing financial support to the Legal Defense Fund. As we all can acknowledge, the Fund advances the cause of citizens through its efforts of attacking injustice through the courts, providing justice for all who can't afford justice. Remember often times if we visit the halls of justice we only find "just us".

NATIONAL COMMUNITY HEALTH INITIATIVE

We now partner with the Black Health Initiative, a consortium created for discussion on topics such as nutrition, high cancer rates among African Americans and of course the increasing high rate of Type2 diabetes in communities of color. A renewed relationship with St. Jude's Children Hospital for Cancer Research and of course our longstanding commitment to the vision of our 38th Imperial Potentate, Oliver Washington Jr. and his beautiful wife Martha by supporting the American Diabetes Association. A particular point of note and pride has been the efforts of HPIP Otis Kirksey. Dr. Kirksey took Oliver's vision and made it crystallize itself into a hard reality and today sits on the ADA Board of Directors approaching an advance to its Chairmanship. Well done Sir!

HBCU INITIATIVE

A renewed emphasis on youth through the creation of the HBCU Initiative to strengthen the effort and resolve to educate America's children of color. The epidemic of violence across our nation is at epic proportions and most intense in the neighborhoods of our major cities. African American young people are committing what I consider assisted genocide with the generous support of arms manufacturers and thin, loosely constructed gun laws using the 2nd Amendment to prevent communities from instituting practical gun control legislation. What we are truly experiencing is a health crisis driven by mental health conditions, deficient education practices and just plain old poverty. Through mentoring, access to higher education both of which promotes a promise of viable earnings our children will be unleashed from things such as illegal drug sales, strip club performances and other morally negative paths that offer no vision of a successful future.

LEADERSHIP

The Board of Directors is composed of a very fine corps of Nobles who bring multiple talents to operating, shaping the future of and sustaining this Imperial Council. We have operated as a Board with respect for each other, appreciation for dissent and full transparency on all matters. The old "need to know" doctrine was abolished with each member being fully informed and actions taken only after a majority consent vote. We have worked tireless hours, debating the merits of matters with the guidance of legal counsel close at hand. Not everyone was always in agreement but all respected the decisions rendered by the majority.

We must understand that the civil law becomes the final factor in all actions taken. It was recommended and we have restored our corporate domestic standing in the District of Columbia and revised our Tennessee status to that of a foreign entity operating/doing business within its sovereign jurisdiction. We must, at all times be directed by and compliant with their various statutes.

Protection from litigation is always the standard applied in the conduct of this office you have granted me. It is often times tempting to act without regard for the various requirements applied by law and to this end, we established an Office of Counsel to the Imperial Potentate, a much-needed relief to daily function. We wish to thank those attorneys who volunteered at no compensation to provide this service on resolution of matters presented this office. It is with great relief to state that there are no existing matters of litigation pending.

COMMUNITY SERVICE AND VISITATIONS

I have challenged all of you to become actively engaged in your communities across the domain, promoting positive change for people of color everywhere. I personally chose to participate at the 53rd anniversary of the March on Washington held August 28, 2021 to display my personal and organizational support for the effort that finally brought this nation to meet the challenge of its constitutional promise “Liberty and justice for all”. While there, I reflected on the life of John Lewis, a man of greatness, convicted to his unwavering philosophy as a champion for social justice. To honor the great name of John Lewis, Congressman 5th District of Georgia and a member of Mecca Temple #10, the Imperial Council presented resolutions honoring his name to both his Temple and Greek lettered fraternal organization, Phi Beta Sigma Fraternity, Inc. In addition to the resolutions, we also presented a donation in the amount of \$10,000 to the Good

Trouble Foundation, operated by the Phi Beta Sigma Fraternity, Inc. to continue Noble Lewis’ hard work in supporting African American youth in the District of Columbia in their pursuit of a college education.

Many other public appearances followed, always promoting our brand and extolling the history of great work this organization has produced. These travels included temple/court visitations and various Oases across the domain for charter presentations, an appearance of respect for Dt. Rina Bendaw and others added to the regular visits to our International Headquarters in Memphis

IMPERIAL COURT DAUGHTERS

I have enjoyed my relationship with our auxiliary and its leadership. My very first action taken was to recognize the valued and honored commitment of service by one Ada Irene Dawson. Sadly, she left us for her heavenly reward just four months before ascending to high and estimable office of Imperial Commandress. In recognition and devotion of her commitment and duty of service, I the 44th Imperial Potentate, Supreme Authority of the Imperial Court as granted in the original charter by this Imperial Council proclaimed that she be styled, ranked and recognized as the 46th Imperial Commandress of the Imperial Court Daughters in perpetuity, posthumously. Some questioned this decision by saying “but she didn’t serve the office” I responded with the question, so does seventeen years and four months not matter, the world went silent.

During the months that ensued, this office was presented with numerous scenarios which required swift deliberate action. Membership was failing rapidly, within four months of my assuming office their rolls decreased by over 400. Along with the very astute capabilities of the now 48th Imperial Commandress, Dt. Jacqualine Brown-Arradondo, swift action was instituted to relax their requirement of membership and assist with the implementation of a virtual platform to create and increase the membership. To date, over 1,500 new members have been added to their rolls with more to follow.

The most difficult challenge for this office has been to change the unfounded perception that the Imperial Court “the Daughters” are an entity separate and apart from this Imperial Council and Court. I put forth what I feel is the notion of a partnership, one of support and enhancement of this Imperial Court. I have counseled continuously that they are not “separate” but as its charter states, an auxiliary of the Imperial Council. Day to day matters are directed by the Imperial Commandress and their staff, however there have been instances where my intervention was required and or necessitated.

We requested the Imperial Court to provide the Imperial Council with a “rainy day payment” to create a convention reserve to sustain our operation of the 128th, 110th Imperial Council, Imperial Court Sessions. Premature announcements of major Imperial Court events being conducted virtually could have produced

“I am a Mason and one who humbly attempts to practice his craft at all times.”

- John T. Chapman

a negative response in registration numbers, which could have been damaging to our ability to manage financially during these sessions. These monies were returned in full.

As I conclude my tenure in this office as the 44th Imperial Potentate, I leave it with a heavy heart that we have been unable foster a more harmonious and collaborative relationship with our Auxiliary organization. On March 24, 2022, I issued a letter which I had hoped would bring some calm to relationship, as we perched upon a dangerous precipice. Although penned with the absolute best of intentions, my effort seemed to have been lost in translation.

As I have had time to reflect on the current state of affairs, it is my unwavering belief that these times will pass and that we will find common ground to once again stand tassel to tassel as one family. I am more confident than ever that the Imperial Divan, under the leadership and guidance of the incoming 45th Imperial Potentate, will be able to work with the Imperial Court Divan to heal any open wounds and allow us to continue our journey forward with serving our community and our respective memberships. Time heals all wounds as love conquers all.

CLOSING REMARKS

There will be a seamless transition of leadership for this Imperial Council. Probably my greatest challenge has been the ability to lead. I often hear the phrase “lead from the front”, but moving to the front without those who trust and admire you is a hollow act. When I stepped forward and accepted this challenge I clearly understood it was not about me but about all of us. In order for me to have succeeded, we all must have succeeded. If here today you find my service purposeful to the tenure of office I have held, I will be eternally grateful and endeavor to offer whatever humble talents I may possess for future advancement. Please bear in mind that it has not been about “me”, countless others along with this Divan are they who produced the success, I only facilitated and supported as any leader should.

I make remark however, of a few individuals who have given a remarkable effort to assist and provide sustenance to my humble soul.

Gloria Lewis and the staff are a calming gentle voice who daily has guides my hand and kept a clear path for me to follow.

John Goss has been indispensable functioning as the gatekeeper keeping the dogs from nipping at my heels.

Krystal McIntosh who kept the clock, gave constant reflective advice and endured daily the Cuckoo in the clock.

The Deputy Imperial Potentate has shown great leadership and provided calming advice, but more importantly has shown himself to be a true Mason and trusted friend.

The bottom six (6) have always been at the ready, assisting with and implementing strategies of success for this Imperial Council, kudos from UnkaDaddy.

Dr. Corey Thomas' relentless pursuit of focus and time management has been a purposeful and productive asset.

Russell and I are joined at the hip and a constant support of each through our medical challenges.

The Assistant Rabban and I spend countless hours exploring corrective changes to our educational handicaps.

Our fiscal officers are prudent, responsible men who offer sound advice whether solicited or not.

My superlative security team led by my friend and prayer warrior, the **Reverend Nicholas Padilla**. Thank God for their presence, which I affectionately call "Pistols and Prayers.

A man who has been a friend, adopted me as a member of his family, mentored me and keeps me in constant rational thought, **Dr. A. Ralph Slaughter**. His guidance and gentle yet forceful energy challenged me to always look at bigger picture. Well allow me this, I've become a more reflective human being.

My wife, who loves, tolerates and protects me every moment has been the asset God determined I needed. She works harder for this Imperial Council than many may know and there is nothing I can say or give that will show or compensate in any way her true value to my life or the responsibilities of this office.

In closing, I am a Mason and one who humbly attempts to practice his craft at all times. But as luck would have it, its interwoven properties with God's scripture and requires that all of us who claim, be "not just Sayers of the word, but Doers of the Word".

I request that this 129th Imperial Council approve this allocation of service and ratify the following:

- 1 | Sustain all actions of this office in regard to the Imperial Court and its members and be ratified and approved with this reading.
- 2 | All actions of the Imperial Council Divan and actions of this office be ratified and sustained.
- 3 | Ratify and sustain all appendices herein attached.
- 4 | That the HBCU Initiative become a permanent operational department of the Imperial Council.
- 5 | That the NDI be permanently renamed the National Community Health Initiative and its purpose expanded to support other related health matters affecting communities of color. Also, that it made a permanent operational department of this Imperial Council.
- 6 | That the Bookbag Program become a permanent operational department.

Yours in humble service to all,

John T. Chapman
44th Imperial Potentate

Christ my Redeemer, Christ my Savior
