HIGH PRESSURE WASHERS CATALOG 2021

Over its 60-year history, the ANNOVI REVERBERI Group has always been famed for its enterprising business approach and technical know-how, which have won it international acclaim.

Annovi Reverberi is an engineering firm with close local links and is built around people, ideas and innovative projects.

In 60 years, the Annovi Reverberi group has grown exponentially, from the early days as a manufacturer of diaphragm pumps, to the creation of the industrial division building piston pumps.

In the '90s, piston pump manufacturing naturally expanded to include the cleaning sector, which is still growing strongly in terms of products and licensed brands.

The Cleaning Division, with its many brands and prestige licences, is particularly important within the Annovi Reverberi world.

Over the years, this division has successfully grown, consolidated, and built high-pressure washers that are consistently up-to-date with the latest developments and, above all, the market's demands.

Through strategic marketing, the know-how acquired by the technical side and thorough, accurate production management, the Cleaning Division has been quick to identify and respond to the market's transformations and changes, offering solutions that are always in line with the times, with all the AR brand's outstanding quality.

Suitable to your needs.

At home and at work.

BLUE CLEAN LEVEL

BLUE CLEAN LEVEL guides you through the best products for all cleaning needs by placing a cleaning level icon next to every high pressure washer, together with its applications. Every product has its own technical, stylistic and functional characteristics, to satisfy specific customer requirements, such as ease of use, compact size, labor-saving, weight, noise output and agility. With Blue Clean Level we direct every customer towards the ideal combination: this is why ARBC products make a real difference.

BLUE CLEAN FACTOR

The ideal combination of technical features and modular configuration, to deliver the best solution for your cleaning needs. Products with the BLUE FACTOR are best-in-class in cleaning power, ease of use and technical performances. The perfect mix for all of your cleaning requirements.

HOME OWNER APPLICATIONS

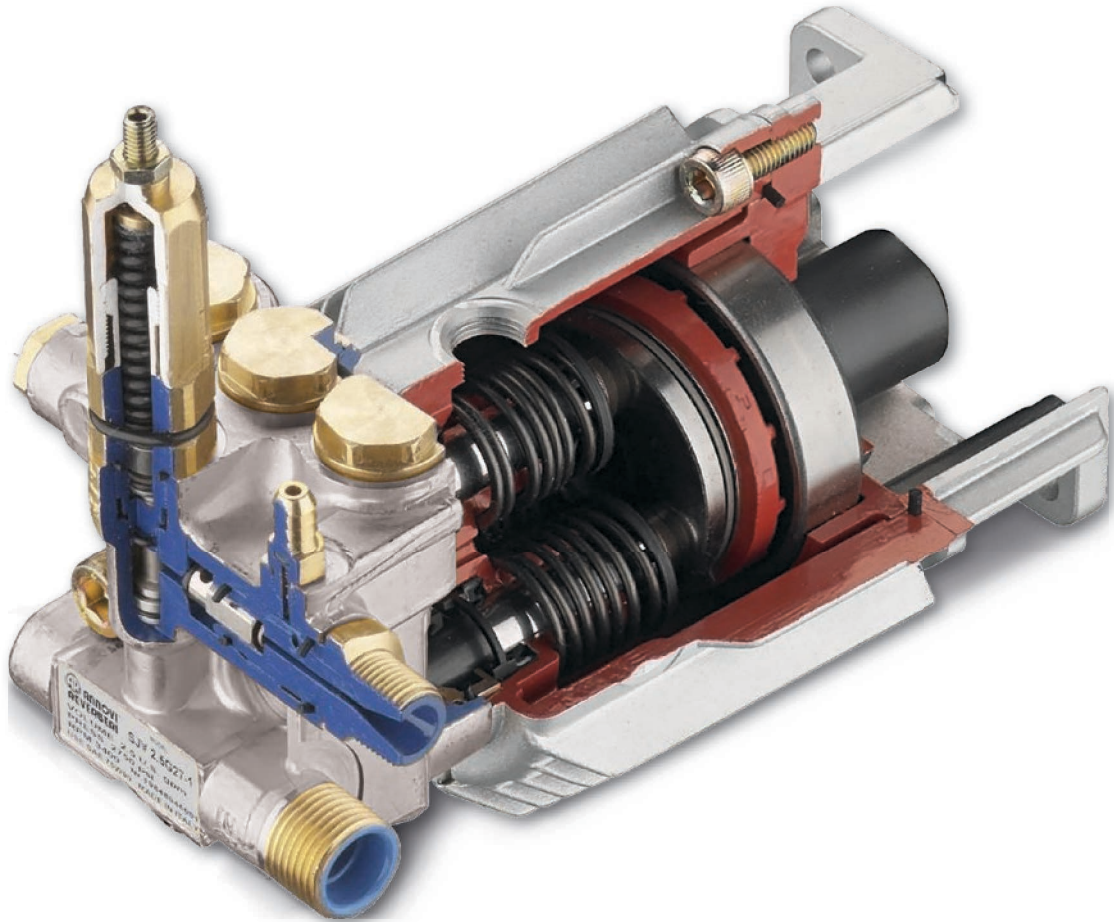

High-pressure washers are the perfect solution for cleaning spaces inside and outside the home. These high-pressure washers cut cleaning times in half, making the whole process simple and easy, and are aided by a wide range of accessories designed for the various fields of use. One example is the patio cleaning accessory with high pressure foamers, ideal for efficiently cleaning large patios or swimming pool surrounds, providing gleaming, uniform results in a single pass and with minimal effort!

PROFESSIONAL APPLICATIONS

Annovi Reverberi has produced a range of products ideal for the most demanding craftsmen, carefully tailored to their professional requirements. Extremely versatile, the PRO products are the perfect fit for the working needs of farmers, car detailer workshops and builders — constant support for each trade, time savings and ease of use. User-friendliness, professional accessories and extremely easy handling make ARBC products the right choice for this category.

Pumps.

The beating hearts of Pressure Washers.

Universal Motor Pumps: the right choice for a cleaner house.

Universal motors do not take too much space and are smaller compared to induction motors; consequently, pressure washers equipped with a universal motor are *light and portable*.

Universal motors are *fast* and can be started and stopped frequently; they are really efficient for occasional tasks around the house.

They are *less expensive* and most commonly used in small power tools.

Why should we choose an Induction Motor Pump?

Induction motors are more *power efficient* in every way as they need less current to generate power. Moreover, they do not produce a lot of heat. This is why they are ideal for day to day use. In addition, the more power-efficient the motor is, *the lesser the running costs*.

The induction motor has just one moving part: the rotor.

The fact that it is a *brushless motor* means that it *produces less audible sound*.

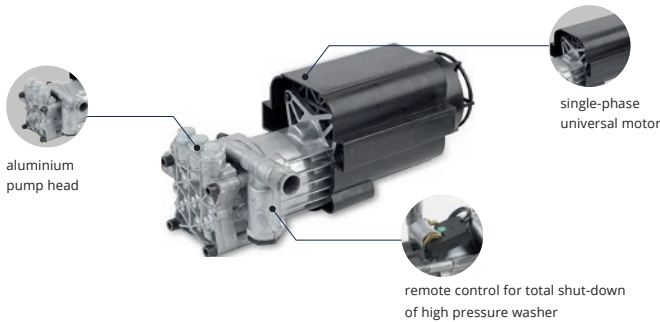

Induction motors run on fewer RPM and,

generally, have a *longer lifespan* than universal motors. Therefore they are the best choice for day to day that are used for *medium to heavy cleaning quite frequently*. In fact, induction motors are very common for power tools and can easily last for years.

Annovi Reverberi provides quality universal and induction motor-pumps and parts, ensuring a longer life span for light-duty and medium-duty pressure washers.

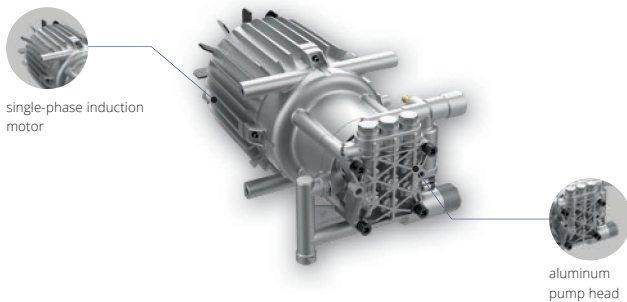

BLUE CLEAN Series Pumps

- 3 Axial stainless steel pistons wobble-plate pump with aluminium head
- Tempered stainless steel pistons
- Automatic safety valve that decreases the residual pressure, facilitates the operation of the gun lever and reduces hand fatigue
- Single-phase universal motor with thermal protector
- Remote control for total shut-down of high pressure washer
- Aluminum pump head
- Motor air filtration

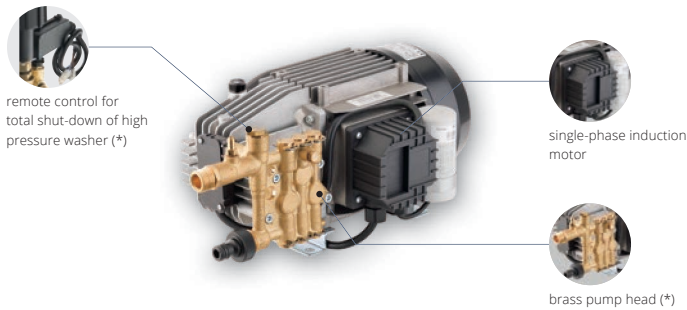

BLUE MAXX Series Pumps

- 3 Axial stainless steel pistons wobble-plate pump
- Tempered stainless steel pistons
- Automatic safety valve that decreases the residual pressure, facilitates the operation of the gun lever and reduces hand fatigue
- Single-phase induction motor with thermal protector
- Remote control for total shut-down of high pressure washer
- Aluminum pump head

BLUE CLEAN PRO Series Pumps

- 3 stainless steel pistons triplex crankshaft plunger pump
- Tempered stainless steel pistons
- Aluminium or brass pump head
- Automatic safety valve that decreases the residual pressure, facilitates the operation of the gun lever and reduces hand fatigue
- Single-phase induction motor with thermal protector
- Remote control for total shut-down of high pressure washer
- High pressure sealing system with double seal

ELECTRICAL HIGH PRESSURE WASHERS

BLUE CLEAN

A range of products designed down to the tiniest detail to ensure ease of use and extreme reliability in the home. Versatile and light weight, they are excellent for removing dirt from paths, balconies, cars, bicycles and motorbikes, and are an essential tool for gardening enthusiasts.

They are also perfect for effortlessly removing moss and deposits left by time from fences or outdoor furniture, and cleaning poolside patios, gazebos and sunbeds.

This is why AR Blue Clean makes a real difference: it has the right solution for every type of need.

ELECTRICAL HIGH PRESSURE WASHERS

BLUE MAXX

A range of products designed for the most demanding users, equipped with induction motors to ensure a longer lifespan and stable, everyday performance.

Ideal high pressure washers for DIY lovers: they do not produce a lot of heat, they are power efficient and therefore have lesser running costs. They are excellent for cleaning wide surfaces, for removing dirt from sidewalks and paths, large decks, cars and vans, and are an essential tool to keep your house siding and roof clean.

This is why AR Blue Clean makes a real difference: it has the right solution for every type of need.

ELECTRICAL HIGH PRESSURE WASHERS

BLUE CLEAN PRO

Products engineered to withstand continual, heavy-duty use. A complete range meets the various working needs of professionals who need quality, reliable performance and fast operation, day in, day out. In other words, Annovi Reverberi quality. This is the common denominator of the PRO series – cold water high pressure washers built with high-performance pumps to guarantee an exceptionally long lifetime even in extreme, heavy-duty conditions. Ideal for craftsmen, cleaning professionals and construction workers.

A photograph of a wooden deck with a pressure washer on it. The pressure washer is blue and black, with a green hose attached. The deck is made of wooden planks, and there are some green plants and gravel in the background. The text is overlaid on the right side of the image.

REVIVE YOUR PATIO IN MINUTES!

Having an amazing backyard patio in which you can relax and enjoy beautiful summer afternoons with your family and friends is priceless.

A pressure washer can become your most valuable tool on chore day, helping you reviving a tired, old wood deck in less than 30 minutes.

Annovi Reverberi provides the tools for the job. Be sure to use the right nozzles (15° or 25°) to boost the pressure cleaning power along with the deck specific detergent to enhance the results, removing stains, moss and dust from wood fibers.

With the right accessories, patio cleaners and brushes, you can even be more efficient saving up to 60% of the time required.

Detergents

Car & Truck

Non-corrosive, non-toxic, professional grade product developed for multi-purpose applications including cars, trucks, RVs, boats, ATVs, and for electric pressure washing. It quickly eliminates tough grime, dirt, dust, removes stains, and is safe on metal surfaces. Use a heavier cleaning dilution for engines, wheels, tools, heavy equipment & bumpers.

Compatible with all electric pressure washers.

Cod. ARCTW04

1 Gal

Degreaser

Quickly eliminates tough grime, dirt, and dust. This degreaser can remove stains while being safe on surfaces. When used as a light cleaning mix, this degreaser can last up to 30 gallons of cleaning. This pressure washer detergent degreaser is a non-corrosive, non-toxic, professional grade product. Deep clean lawn mowers, grills, shop tools, and patio furniture with any electric pressure washer.

Compatible with all electric pressure washers.

Cod. ARDC004

1 Gal

Deck & Fence

Deep cleans decks and fences, removes stains and rejuvenates outdoor structures such as pergolas, gazebos, and carports. Removes oxidation and weathering, returning surfaces to their original colors. Brightens PVC and vinyl fencing without harmful bleach and will not corrode metal. This is a non-corrosive, non-toxic, professional grade product.

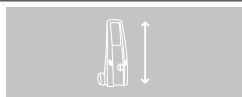

Compatible with all electric pressure washers.

Cod. ARDFW04

PRODUCT WARRANTY INFORMATION

Our warranty is from the date of purchase to the original purchaser and cannot be transferred.

The warranty covers manufacturer or workmanship defects at the time of sale that may develop under normal operational conditions. Our warranty is limited to repair or replacement only at the option of the manufacturer. The warranty does not apply to misuse, damage caused by non-AR North America accessories and normal wear items such as but not limited to: seals / packing, O-rings and valves.

Reasonable care must be used in conformity with operation and maintenance instructions in the owner's manual. Failure to follow these instructions will void the warranty.

Blue Clean and Blue MAXX Consumer (non-commercial) pressure washer:

- Warranty period of 2 years for pressure washer and 1 year for the accessories. Wear items are not covered under warranty.
- This warranty will be void if the product is used in any rental or commercial application.

Blue Clean Pro (non-commercial) pressure washer:

- For Consumer (non-commercial) application the pressure washer and accessories holds a warranty period of 1 year for any manufacturer or workmanship defects from the date of sale. Wear items are not covered under warranty
- For Commercial application the pressure washer and accessories holds a 90-day warranty for any manufacturer or workmanship defects from the date of sale.

Please contact AR Blue Clean customer service with any questions or concerns.

Phone: 1-866-235-5112

Email: info@arblueclean.com

Please keep the receipt as it will be required when submitting a warranty claim. Without the receipt the warranty claim cannot be processed.

The consumer will be responsible for freight costs when the product is returned for warranty evaluation.
