## A Wolfenstein 3D™ Graphics Adventure

Spear of Destiny brings virtual reality to the PC, hurling you into an intense battle between good and evil in which only you can save the world! A breathtaking musical soundtrack sets the mood, while amazing "first person" visual perspective and spectacular digital stereo sound effects give an experience like no other game you've ever played!

It's World War II and you are B.J. Blazkowicz, the Allies' most durable agent. In the midst of the German Blitzkrieg, the Spear that pierced the side of Christ is taken from Versailles by the Nazis and secured in the impregnable Castle Wolfenstein! According to legend, no man can be defeated when he has the Spear. Hitler believes himself to be invincible with the power of the Spear as his army of destruction sweeps across Europe.

Your mission is to recapture the Spear from an already unbalanced Hitler, with the hope that the loss of his most coveted weapon will push him over the edge! You must infiltrate the heavily guarded Nazi stronghold and time is running out!

In your quest to recover the Spear, you will encounter the exciting and hazardous challenges, secret doorways to hidden passages, gruesome mutants, and powerful monster-like "bosses". All this in the midst of the massive fire-power of well trained enemy soldiers throughout the castle! See if you have the "right stuff" to accomplish the most dangerous mission of the war!
