# B. Sc Biotechnology

## ABOUT THE PROGRAM

AJU School of Health & Allied Science aims at skill-based education with a curriculum designed to prepare graduates in Science [B. Sc. (Biotechnology)] for lifelong learning and leadership capabilities with research-based teaching-learning mechanism. B. Sc. Biotechnology draws upon the sciences of biology, chemistry, physics, engineering, computer and information technology that help in coming up with scientific breakthrough for betterment of human race. The highlight of the program is that it provides multi-disciplinary courses which enables the graduates to take up challenges in the latest required research in Bio-Science (Health, Agriculture, Biophysics, Bioengineering and System biology). Graduates of this program develop problem-solving skill, analytical ability and proficiency in related domains. The School of Health & Allied Science is a dedicated unit with a team of highly-qualified and well-trained faculty and staff members from different departments working towards academic growth through research and development.
