

How to Locate and Print or Save the ACR Patient Fact Sheets

Below we have outlined the steps to help you save a patient fact sheet as a PDF or print a patient fact sheet as a one-page document:

• Step 1: Go to <u>rheumatology.org</u>, click on the menu and select Patient Resources.

• Step 2: Under the Patient Resources section, select Diseases & Conditions and/or Treatments (what you click under this step will depend on what you are personally looking for).

• Step 3: Once on the page you need, select the disease (or treatment) you want more information about.

• Step 4: Once on any disease or treatment page, click the Print button in the upper right corner of the page (just above where it says En Español or In English).

* The vast majority of the patient fact sheets can be printed on one page. However, there are a handful that exceed one page because the value of the content outweighed the request for a one-page document.
