# WHO WE ARE?

Beyond the Horizon International Strategic Studies Group (BtH) is an independent next-generation think & do tank in Belgium.

BtH aims to promote glocal (global & local) peace and security by tapping its powerful in-house capacity and extensive network of partners throughout the world.

# OUR MAIN ACTIVITIES

## Think

**Research & Analysis:** We empower policy-makers and practitioners with data-driven and evidence-based research and analysis.

**Monitor:** We keep a watchful eye on the globe and crisis zones to bring emerging critical issues to the attention of professionals and the general public.

**Forum:** We serve as a forum for discussions to foster new ideas by organising different activities and, in particular, our annual landmark event, 'New Horizons Summit'.

## Do

**Training & Consultancy:** We provide world-class training and consultancy services based on our focus areas through our Horizon Global Academy.

**Projects:** We advance innovative and sustainable solutions by blending meticulous research and implementation projects in collaboration with selected partners.

**Digital solutions:** With our in-house capacity at Horizon Lab, we transform our deliverables into data-driven products and facilitate our activities with digital tools and solutions.

# WHY YOU SHOULD BECOME A MEMBER?

## INDEPENDENT AND IMPARTIAL

As an independent voice, Beyond the Horizon ISSG aims to translate applied and policy-oriented research in its focus areas into a language that is understandable, reliable, and accessible for a broad audience.

## GET DEEP INSIGHT

You will have the right to request one tailored report about various aspects of our research/expertise areas. This report will investigate conflict/crisis zones within the scope of our Crisis Horizons, with a particular focus defined by your institutional needs. Moreover, you will get a 30 % discount for subsequent reports you request.

## GET INSPIRATION

In addition to the opportunities mentioned, especially when deadlines and volume of work do not allow you to look in other directions, BtH will continue to inspire you to analyse unfolding events and trends with our unique assessments.

## BUILD YOUR NETWORK

You will have the right to request one "Roundtable Discussion" on an area of mutual interest we decide together. Subsequently, BtH will organise a discussion by inviting relevant experts. This will assist you in growing your network on the subject and be informed on the current state of play. You will also be invited to our private Roundtable Discussions and have an opportunity to deliver a speech when applicable.
