Frozen Party!

It's party time! Get inspired and create some party food, decorations, and games with an adult!

Sven's Snacks & Kristoff's Slushies

- For Sven's Snacks, combine pretzel sticks, peanuts, and vegetable crisps.
- Add a sign that says "Sven's Snacks."
- To create Kristoff's Slushies: Add 7 oz. of fresh blueberries to a blender with 2 oz. of orange juice and blend until smooth. Add ice slowly until thick and icy. (Frozen blueberries can be added instead of fresh blueberries and ice.)
- Once you've achieved your desired texture, serve and enjoy!

Olaf party cups

- Draw carrot noses on orange card stock, cut them out, and glue them to white cups.
- Add snowman eyes and mouths made from black card stock.
- Use the cups to serve drinks at your party.
- You can turn it into a game by stacking cups in a pyramid and having players try to knock the stack down by throwing a pom-pom at it.

Create your own play snow

- Pour roughly 32 oz. of cornstarch into a big bowl or two pans.
- Spray a can of shaving cream onto the cornstarch.
- Mix them together. It's so much fun!
- When you're happy with the texture, you can add extra decorations and sparkles if you wish.
- Store in containers in the fridge before the party starts.
- Take it out when it's nice and cool, and empty it into a big tray. Several batches can fill a water table. Enjoy!

You can also create your own paper snowflakes!
