

YOUR FUN MATH STORY

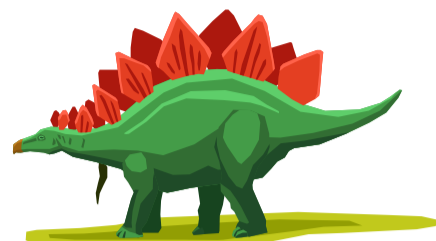

with
Brighterly

GRADE 2

1

I will learn to add one-digit and two-digit numbers within 100. I will add and subtract lengths. I will use my knowledge to explore the relationship between dinosaurs and mythical animals.

$$45 + 55 = ?$$

$$10m + 5m = ?$$

2

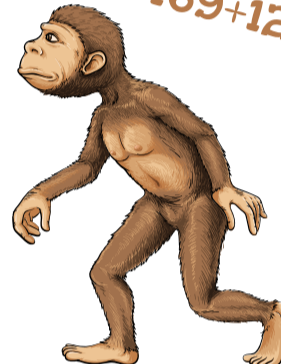

I will expand my skills and understanding of units by bundling ones, tens and hundreds to thousands with a place value chart. This knowledge will help me to explore various objects in the Ice Age.

3

I will learn how to add and subtract vertically, I will compare the various strategies for adding and subtracting up to 200. I will use place value language to learn primitive tools of Dryopithecus.

$$180 + 20 = ?$$

$$169 + 12 = ?$$

4

I will learn to operate place value order and will explore addition and subtraction strategies with numbers up to 1,000 with the Great Wall of China in sight.

5

I will learn principles of division and multiplication during my visit to Leonardo da Vinci and while creating models with him.

6

I will learn how to solve problems with length, data, and money while exploring the advent of cinema and radio and attempting to create new masterpieces.

7

I will study geometric shapes or polygons and learn to draw these shapes, learn to build a cube and tell time on an analog clock. I will learn the history of robotics and how robots help people.

PLUS YOU GET:

- Top-notch teacher
- Interactive platform
- 1 to 1 attention
- Fun learning environment
