

YOUR FUN MATH STORY

with
Brighterly

GRADE 6

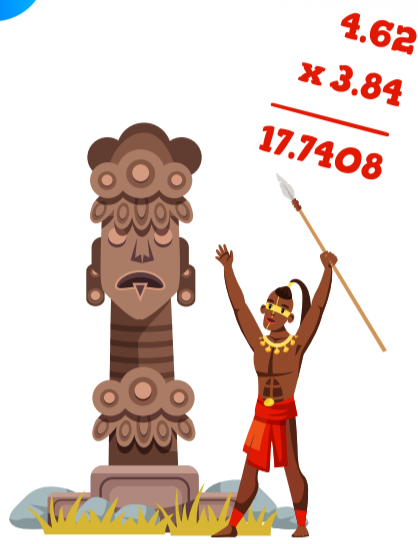

1

I will learn the ratio concept and will use ratio reasoning to solve problems while exploring the prehistoric period.

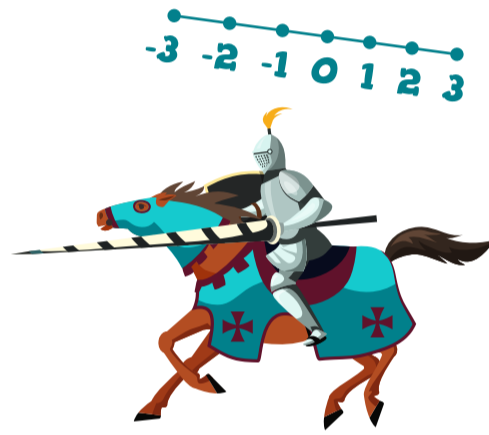

2

I will divide whole and fraction numbers, and will do operations on multi-digit decimals. All while learning arithmetic operations of the ancient people.

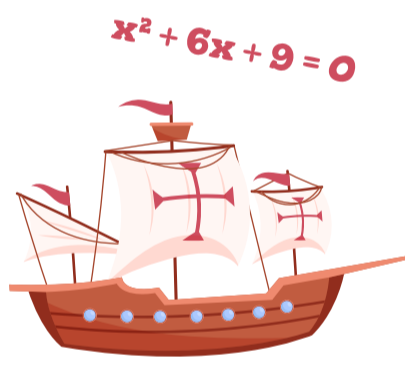

3

I will understand and operate positive and negative numbers on the number line. It will show me how medieval people used rational numbers.

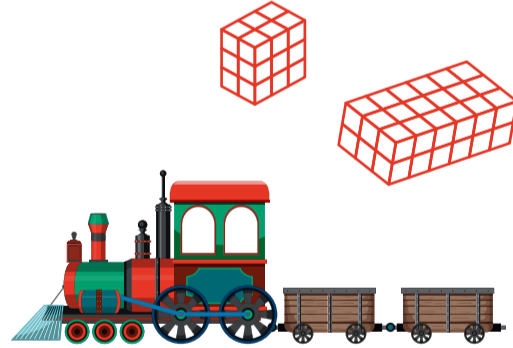

4

I will learn how to solve equations and problems algebraically. It will help me understand how Columbus discovered America.

5

I will find the area, volume, and surface area of different figures and see how steam engine, railways, and canals were discovered.

6

I will start representing data distributions using dot plots and histograms. And I will learn about modern science advancements.

PLUS YOU GET:

- Top-notch teacher
- Interactive platform
- 1 to 1 attention
- Fun learning environment
