Making better products in better ways.

- We select materials and processes that are more sustainable, and manufacturing that has less impact.

- Our products are designed to be more efficient, reducing energy use and carbon impact.

- We make products that are reliable, serviceable and built to last.

"We continually review, refine and adapt our manufacturing processes to deliver even greater levels of sustainability throughout our product ranges."

Chris Duncan
Chairman and Founder of Numatic International Ltd.

"We **export our products** to **86 countries** across the world."

SUSTAINABILITY

Sustainability Formula

The Numatic Sustainability Formula is the foundation to all our product development and sustainable initiatives.

Our products are built to last with tried, tested and trusted designs, ongoing innovations and a commitment to developing sustainable cleaning solutions.

Built to Last
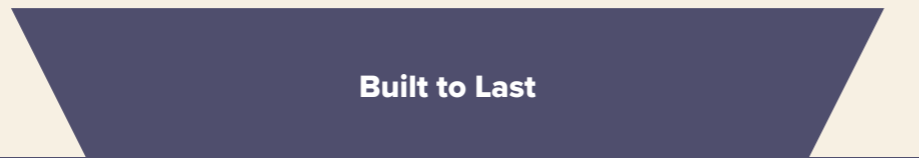

We ensure our products are the most efficient for every user; from water and detergent usage to electricity consumption.

Efficiency
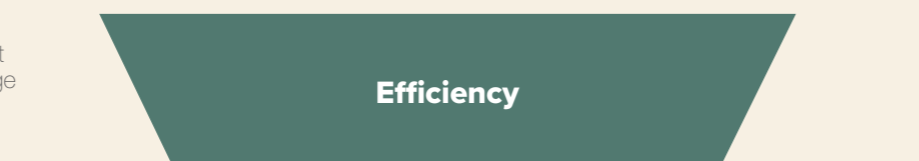

Our products are designed to be easily and economically serviced throughout their lifecycle. We commit to support every product we have ever made, since day one.

Serviceability

We are committed to developing products using high-quality, recycled plastic. Right from their initial design, our products are manufactured to be easily recycled at the end of their life.

Recycling

We work hard to ensure zero waste goes to landfill and have achieved this since 2017.

Disposal

Integrated Sustainability

We recognise the need and demand for sustainable cleaning solutions and commit to initiatives across our business.

A sustainable approach is integrated throughout all of our operations, from design to manufacturing, to distribution and when in use. Our teams always strive to innovate and introduce even more sustainable manufacturing practices at our 42 acre site in Somerset, United Kingdom.
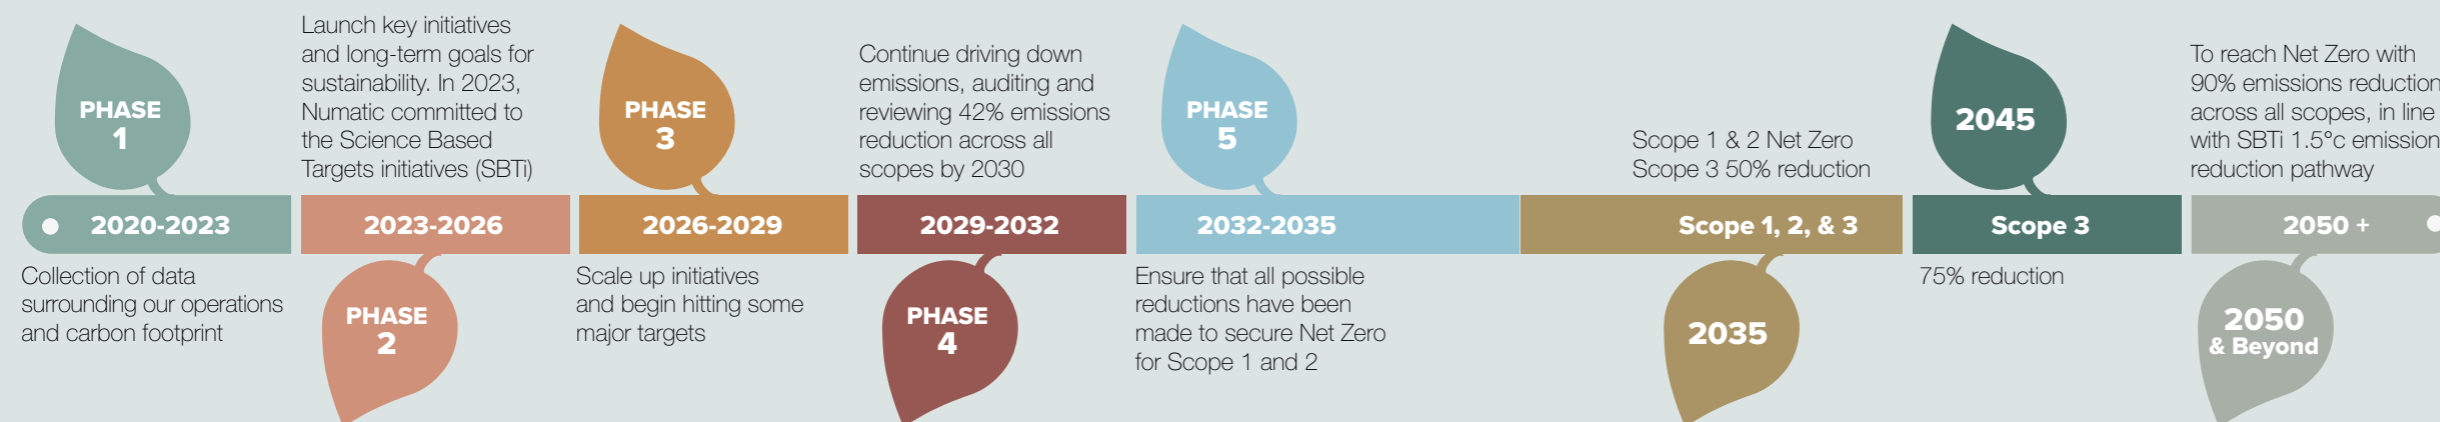

Extensive Solar Investment | Resource-Efficient Technologies | Zero Waste to Landfill | Sustainable Product Lifecycle | LED Lighting

Carbon Neutral

From 2024 Numatic has reached carbon neutrality for Scope 1 and 2 emissions, marking a significant milestone in our commitment to sustainability.

We support the following **Sustainable Development Goals (SDGs)** of the United Nations:

3 GOOD HEALTH AND WELL-BEING | **5** GENDER EQUALITY | **6** CLEAN WATER AND SANITAION | **9** INDUSTRY, INNOVATION AND INFRASTRUCTURE | **10** REDUCED INEQUALITIES | **11** SUSTAINABLE CITIES AND COMMUNITIES | **12** RESPONSIBLE CONSUMTION AND PRODUCTION | **13** CLIMATE ACTION

Sustainability Roadmap

PHASE 1
2020-2023
Collection of data surrounding our operations and carbon footprint

PHASE 2
2023-2026
Launch key initiatives and long-term goals for sustainability. In 2023, Numatic committed to the Science Based Targets initiatives (SBTi)

PHASE 3
2026-2029
Scale up initiatives and begin hitting some major targets

PHASE 4
2029-2032
Continue driving down emissions, auditing and reviewing 42% emissions reduction across all scopes by 2030

PHASE 5
2032-2035
Ensure that all possible reductions have been made to secure Net Zero for Scope 1 and 2

2035
Scope 1, 2, & 3
Scope 1 & 2 Net Zero Scope 3 50% reduction

2045
Scope 3
75% reduction

2050 & Beyond
2050 +
To reach Net Zero with 90% emissions reduction across all scopes, in line with SBTi 1.5°c emissions reduction pathway

Scope 1
Direct emissions produced by our company facilities and our company vehicles.

Scope 2
Indirect emissions from purchased electricity, steam, heating and cooling used for our own use.

Scope 3
Emissions covered by Scope 3 include our upstream and downstream operations.

Sustainability in Action

Achieving ambitious sustainability targets requires innovation, action and transparency. These initiatives move us forward in reaching our goals and leading the way in providing sustainable cleaning solutions for our customers.

Sustainability is broader than just reducing our carbon footprint. True sustainability is helping others to be sustainable in their everyday practices, ensuring the earth and its communities are cared for.

ReFlo Technology
Many of our products are made using ReFlo recycling plastic reducing the use of virgin plastic wherever possible, whilst maintaining the same quality and durability in our products. ReFlo Technology uses high-quality, post-industrial and post-consumer plastics across the Numatic range.

Following extensive research and testing, we have introduced ReFlo Technology to our FloorCare range, joining our VersaCare Janitorial and CleanCare Vacuum ranges.

" Made from the highest quality, recycled plastic. "

The Bigger Picture
We've partnered with **charity: water** to provide water to communities and projects that need it the most. Through every purchase of a 244NX, we donate the equivalent of 5000L of water.
Nepal, Piped system tap stand

Working in partnership with:
charity: water

Our most recent completed project took place In Nepal, positively impacting a total of 596 people.

" Over **100 MILLION** Litres of water funded since launch in 2021. "

Every 244NX provides
5000L
of water to communities that need it.

Not Just Any Offsetting
We've been reducing our carbon footprint and offsetting global bag sales since 2020. We've partnered with a leading company in carbon offsetting innovation, C Level.

TARGETS AND INITIATIVES
We recognise the need and demand for sustainable cleaning solutions and commit to initiatives across our business.

This includes becoming Net Zero by 2035 (for Scope 1 and 2), setting incremental targets to keep us on track. Numatic has joined the Science Based Targets Initiative (SBTi), setting ambitious emissions reduction targets in line with the latest climate science.

While we work on reducing our emissions, we have taken additional measures to reduce our impact on the planet by carbon balancing our Scope 1 and 2 emissions through our trusted offsetting partner, C Level.

NX300 Pro Cordless Network Increases Productivity

NX300 Pro Cordless Network delivers professional level performance to a versatile and expanding range. Quicker, safer and more convenient, switching to Pro Cordless raises productivity levels, saving time and money.

Why use NX300 Pro Cordless Network?

More Time to Clean	Lower Maintenance	No Cable Trips	Lower Noise	Lower Energy Cost	All Hours Cleaning

3 YEARS BATTERY WARRANTY
3 YEARS WARRANTY
NX300 36V Lithium Power

Maximum Energy Deployment
Delivering power from cell to machine with minimum power loss via high-quality welded nickel power rails.

Smart Safe Charge System
Built-in battery status and health check safety system. The SoH (State of Health) system monitors multiple parameters ensuring battery safety.

Integrated Heatsink Casing
Quickly and efficiently cools the pack in use, optimising delivery of power.

Integrated Handle
Quickly and easily hot-swap batteries across the Pro Cordless Network.

Integrated Cooling Design
Keeping cool allows maximum power delivery, the clever NX300 pack design eliminates air pockets acting as an insulation, transmitting heat directly out of the pack.

NX1K RANGE

"Investing in Lithium, compared to routinely replacing lead batteries and associated service costs, provides a positive return on investment across the NX1K Range, therefore saving you money."

Runs Longer
Configurable performance that suits you, offering increased runtime of up to 44%*. Ensuring you can keep cleaning when it is most convenient for you.

More Sustainable
NX1K lasts longer than lead alternatives, significantly reducing material use and disposal, providing a much more sustainable solution.

Fast & Flexible Charging
Unlike Lead, NX1K Fast Charge Technology allows completely flexible charging, allowing you to use your machine whenever you need to, no matter how much it's charged. NX1K Fast Charge Technology drives productivity, providing you an increase in machine availability in comparison to Lead.

Extended Long Life Power
Delivering over 4000 charge cycles, NX1K will last as long as your machine. Utilising the latest Lithium Phosphate Technology, NX1K is one of the safest battery platforms on the market. A 8-year battery warranty provides complete peace of mind for you and your cleaning fleet.†
