Frontend Developer, Full-time (f/m/x)

IO-DYNAMICS

Company

We are IO-Dynamics, a startup in the field of **electromobility** founded in 2018 and based in Flensburg. Our vision is to make electric mobility easier and to contribute to the mobility and energy transition. We develop and sell a software for fleet and charging management of electric vehicle fleets. The aim is to charge the vehicles as efficiently and sustainably as possible.

If you want to advance the emission-free mobility of the future, you have come to the right place.

Area of responsibility

To strengthen our team, we are currently looking for a **Frontend Developer** (f/m/x) to support the development of our charging and fleet management software. You work together with the founding team and can quickly take on areas of responsibility if you wish.

Your activities include:
- Frontend development with **Angular**
- Frontend and website design
- Interface connection
- Automated testing
- User documentation
- Flexible additional tasks in the field of web development possible
