

## **Payment information for the press release and website of the D-Day Alpo initiative**

### **The purpose of the donation**

We're joining Timothy Snyder's fundraising campaign towards a situational alert system for Ukraine's Air Defence Forces. Safe Skies is an innovative sensor system for detecting air targets. Of Ukrainian design, it can even detect targets at very low altitudes, and predict their course for further neutralization. AI technology allows the system to anticipate where the next threats may come from.

**D-Day Alpo project's goal is to collect EUR 180 000 to provide Ukrainian cities with 500 sensor systems.**

As for now, 2 245 570\$ has been collected. UNITED24 platform continues to collect money along with Timothy Snyder and organizers of D-Day Alpo project in order to protect entire Ukraine with the Safe Skies innovative sensor systems.
