

SEPSIS

TAKES THE LIVES OF OVER 18 CHILDREN EACH DAY

MORE THAN CHILDHOOD CANCERS

SEPSIS IS A COMMON AND SERIOUS COMPLICATION OF AN INFECTION

If your child has any of these symptoms you should take immediate action:

- **SKIN ABNORMALLY COLD TO TOUCH**
- **BLUISH OR VERY PALE SKIN**
- **RASH THAT DOES NOT FADE WHEN PRESSED ON**
- **VERY FAST OR RAPID BREATHING**
- **SEIZURES**
- **LETHARGY OR DIFFICULTY WAKING UP**

Acting quickly could save your child's life.

If your child has any of these symptoms* don't be afraid to go to the hospital or call 911 and say "I AM CONCERNED ABOUT SEPSIS."

*Particularly if they recently had an open wound (cut, scrape, bug bite, etc.), surgery, some type of invasive procedure, or infection.
