

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for various products like energy efficiency, sound power level, and safety precautions in multiple languages.

Table with 2 columns: Title and Language. Lists specific precautionary measures and instructions for handling the product in various languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.

Table with 5 columns: Title, Language, Code, Unit, and Value. Contains technical specifications for energy efficiency, sound power level, and storage volume in multiple languages.
