ICOPE

Integrated Care for Older People

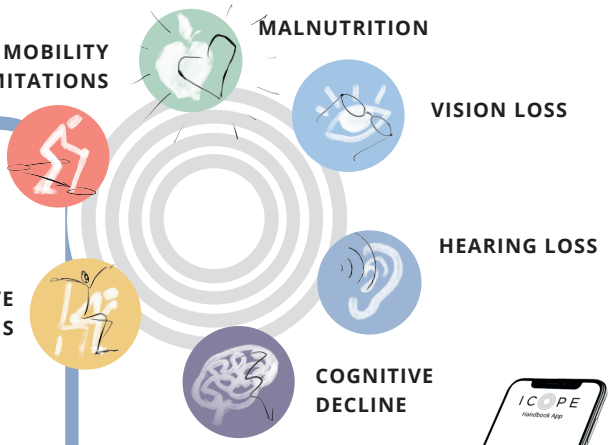
1 As people grow older, their health needs are likely to become ***more complex and chronic***.

ICOPE

Intervening at an early stage of declining capacity is essential because the process of becoming care dependent can be prevented or delayed.

2

3 ICOPE addresses priority conditions associated with declines in capacities:



4

The ICOPE App and handbook assist health and social care workers to:

- Screen older people at risk of care dependency in the community
- Undertake a person-centred assessment of older people's health and social care needs in primary care
- Design a personalized care plan

5 ICOPE is a ***community-based approach*** towards person-centred health and social care to ***optimize the functional ability of older people***
