

The XI International Conference Information and Telecommunication Technologies and Mathematical Modeling of High-Tech Systems

Konstantin E. Samouylov¹, Leonid A. Sevastianov^{1,2} and Dmitry S. Kulyabov^{1,3}

¹Peoples' Friendship University of Russia (RUDN University), 6, Miklukho-Maklaya St., Moscow, 117198, Russia

²Bogoliubov Laboratory of Theoretical Physics, Joint Institute for Nuclear Research, 6, Joliot-Curie St., Dubna, Moscow region, 141980, Russia

³Laboratory of Information Technologies, Joint Institute for Nuclear Research, 6, Joliot-Curie St., Dubna, Moscow region, 141980, Russia

These are the proceedings of the Workshop on information technology and scientific computing in the framework of the XI International Conference Information and Telecommunication Technologies and Mathematical Modeling of High-Tech Systems (ITTMM-2021). The conference took place in Peoples' Friendship University of Russia (RUDN University), Moscow, Russia on April 19–23, 2021.

The conference continued the tradition of the Russian Conference on Problems of Mathematics, Informatics, Physics and Chemistry, annually held in the Peoples' Friendship University of Russia (RUDN University), starting almost from the moment of its foundation.

Information and telecommunication technologies, as a component of information and telecommunication systems, belong to the priority areas of science, technology and technology development, and the development of high-tech systems and the improvement of information and telecommunication technologies is impossible without the mathematical modeling.

The purpose of the conference was to combine the efforts of Russian and foreign universities, academic research institutes, research centers, enterprises and commercial companies to develop the accumulated experience, identify the most relevant areas of scientific research in the field of information and telecommunication technologies, mathematical modeling, artificial intelligence, economic modeling and other important directions in the development of scientific research.

Participation in the conference of leading scientists not only from Russia made this conference a unique event, within the framework of which there was a discussion of topical problems and innovative tasks.

All scientific proceedings presented at the conference were prior reviewed by the expert

CEUR Workshop Proceedings (CEUR-WS.org)

council and a further public discussion of the results took place on the Breakout Sessions. The presented selection of reviewed scientific papers gave an assessment of content, execution style, scientific, practical and applied value of the works.

Co-organizers of the Conference

- Moscow Technical University of Communications and Informatics (MTUCI);
- V. A. Trapeznikov Institute of Control Sciences of Russian Academy of Sciences (ICS RAS);
- Laboratory of Information Technologies of the Joint Institute for Nuclear Research (LIT JINR);
- Federal Research Center “Computer Science and Control” of Russian Academy of Sciences.

Sections of the Conference

The ITTMM Conference is supposed to take place in the scientific areas formed during the previous conferences of the Faculty of Physics and Mathematics and Natural Sciences of the RUDN University and its traditional partners.

- Teletraffic Theory and its Applications.
- Next-Generation Communication Networks: Management, Quality, Architecture.
- Applied Information Systems.
- Mathematical Modeling.
- High-Performance Distributed Computing Technologies.
- Workshop on information technology and scientific computing.

More information can be found on the conference website: <https://events.rudn.ru/e/conference/ittmm/2021>.

Moscow, April 2021

Committees

Program Committee

- Konstantin E. Samouylov, Peoples' Friendship University (RUDN University), Moscow
- Vladimir S. Melezhik, Peoples' Friendship University (RUDN University), Moscow; Bogoliubov Laboratory of Theoretical Physics, Joint Institute for Nuclear Research, Dubna
- Maxim B. Fomin, Peoples' Friendship University (RUDN University), Moscow
- Irina A. Kochetkova, Peoples' Friendship University (RUDN University), Moscow
- S. D. Andreyev, Tampere University of Technology (Finland)
- A. N. Bogolyubov, Lomonosov Moscow State University, Moscow
- Sergey A. Vasiliev, Peoples' Friendship University (RUDN University), Moscow
- Sergey I. Vinitzkiy, Peoples' Friendship University (RUDN University), Moscow; Bogoliubov Laboratory of Theoretical Physics, Joint Institute for Nuclear Research, Dubna
- V. V. Vishnevskiy, Institute of Control Sciences Academician VA Trapeznikov
- Yuliya V. Gaidamaka, Peoples' Friendship University (RUDN University), Moscow
- Michal Hnatic, P.J. Šafárik University in Košice (Slovakia)
- B. S. Goldshteyn, The Bonch-Bruевич Saint-Petersburg State University of Telecommunications, Saint-Petersburg
- A. K. Gorshenin, Federal Research Center "Computer Science and Control" of Russian Academy of Sciences, Moscow
- Olga V. Druzhinina, Federal Research Center "Computer Science and Control" of Russian Academy of Sciences, Moscow
- V. A. Yefimushkin, "Intellekt Telekom"
- B. G. Ibragimov, Azerbaijan Technical University, Baku, Azerbaijan.
- V. V. Korenkov, Joint Institute for Nuclear Research, Dubna
- Anna V. Korolkova, Peoples' Friendship University (RUDN University), Moscow
- A. V. Kryanev, MEPhI (Moscow Engineering Physics Institute)
- Dmitry S. Kulyabov, Peoples' Friendship University (RUDN University), Moscow
- A. E. Kucheryavy, The Bonch-Bruевич Saint-Petersburg State University of Telecommunications, Saint-Petersburg
- E. A. Kucheryavy, Higher School of Economics, Moscow
- Eugene B. Laneyev, Peoples' Friendship University (RUDN University), Moscow
- O. Martikaynen, Service Innovation Research Institute (Finland)
- A. A. Nazarov, National Research Tomsk State University, Tomsk
- V. A. Naumov, Service Innovation Research Institute (Finland)
- I. V. Puzynin, Joint Institute for Nuclear Research, Dubna
- A. P. Pshenichnikov, Moscow Technical University of Communication and Informatics (MTUCI), Moscow
- S. N. Stepanov, Moscow Technical University of Communication and Informatics (MTUCI), Moscow
- S. P. Sushchenko, National Research Tomsk State University, Tomsk

- V. M. Khachumov, Federal Research Center “Computer Science and Control” of Russian Academy of Sciences, Moscow
- A. N. Tsirulev, Tver State University, Tver
- I. I. Tsitovich, Institute for Information Transmission Problems of the Russian Academy of Sciences (Kharkevich Institute)
- O. Chuluunbaatar, Joint Institute for Nuclear Research, Dubna
- S. Ya. Shorgin, Federal Research Center “Computer Science and Control” of Russian Academy of Sciences, Moscow
- Eugene Yu. Shchetinin, Financial University, Moscow

Organizing Committee

- Leonid A. Sevastianov, Peoples’ Friendship University (RUDN University), Moscow
- Dmitry V. Divakov, Peoples’ Friendship University (RUDN University), Moscow
- Darya Yu. Ostrikova, Peoples’ Friendship University (RUDN University), Moscow
- Oksana Streltsova, Joint Institute for Nuclear Research, Dubna
- Eugenie V. Nikitina, Peoples’ Friendship University (RUDN University), Moscow
- Michail D. Malikh, Peoples’ Friendship University (RUDN University), Moscow
- Anastasia V. Demidova, Peoples’ Friendship University (RUDN University), Moscow
- Anastasia A. Tutunnik, Peoples’ Friendship University (RUDN University), Moscow
- Tatiana R. Velieva, Peoples’ Friendship University (RUDN University), Moscow
