

## **Districts as Export Hubs Initiative**

The Districts as Export Hubs (DEH) initiative of the Directorate General of Foreign Trade, Department of Commerce came about with the aim of targeting export promotion, manufacturing and employment generation at the grassroots level. It builds on the policy impetus of the Atma Nirbhar Bharat Mission, vision of Make in India for the world and the clarion call of Vocal for Local given by the hon'ble Prime Minister by involving States and Districts as meaningful stakeholders and active participants in order to synergise export promotion efforts in India. He envisioned that each district in the country holds economic potential comparable to that of a small country. As a result, the DEH initiative was launched in August 2019 to foster balanced regional development across all districts of the country.

With the advent of Foreign Trade Policy (FTP) 2023, DGFT has legitimized this cause through the inclusion of 'Districts As Export Hubs initiatives' under the Chapter 3 of FTP 2023. It aims to channelize the potential and diverse identity of each District of the country to make them Export Hubs. Towards this goal, the products/services (including GI products, agricultural clusters and toy clusters) with export potential in all the districts of the country have been identified and institutional mechanism in the form of State Export Promotion Committees (SEPC) at State/UT level and District Export Promotion Committees (DEPCs) at the district level has been created in all districts of the country to provide support for export promotion and address the bottlenecks for export growth in the Districts. District Export Action Plans are being prepared for identified products and services, to benefit both producers and manufacturers- addressing challenges to export, identifying infrastructural bottlenecks, supply chain gaps, improving market accessibility and providing handholding for increasing exports.

### **Status under DEH (updated – July, 2024)**

1. **Products/Services with export potential** have been identified in **734 Districts** across the country (Including Agricultural & Toy clusters and GI products in these Districts).
2. **State Export Promotion Committee (SEPC)** and **District Export Promotion Committee (DEPC)** have been constituted in **all the 36 States/UTs**.
3. **State Export Strategy** has been prepared in **28 States/UTs**.
4. **State Nodal officers** are nominated in **34 States/UTs**.
5. **DEPC meetings** have been conducted in **701 Districts**.
6. **Draft District Action Plan** has been prepared by the RAs of DGFT for **590 Districts** out of which **249 are formally notified** by DEPCs (These plans include a broad strategy for promotion of exports from Districts).
7. Toy manufacturing clusters have been identified in 12 Districts.

## **Other Export Promotion Initiatives under DEH**

The Directorate General of Foreign Trade (DGFT) is enhancing e-commerce exports through its Districts as Export Hubs initiative, collaborating with various e-commerce companies. These platforms are identifying districts across India for capacity-building and outreach activities in partnership with DGFT Regional Authorities. The initiative focuses on educating MSMEs about e-commerce exports, enabling them to sell globally, and includes training on imaging and digital cataloging of products.

As part of this effort, DGFT has signed MoUs with Amazon India, Shiprocket, and DHL to support local exporters, promote e-commerce exports, and conduct capacity-building sessions, training on packaging, branding and marketing, and workshops for MSMEs in 20, 16, and 76 districts respectively.

In order to create more awareness around exports in all the country's regions, DGFT Regional Authorities have been organizing “Outreach Events” under ‘Districts As Exports Hubs’ to promote the products/services with export potential as identified under the Initiative. These events are designed to emphasize e-commerce exports and to provide dedicated support to exporters in the districts to onboard the manufacturers/sellers/exporters into e-commerce platforms. As a result of these collaborations 10 outreach events have been organized in Districts export outreach events in **Faridabad, Moradabad, Ludhiana, Jodhpur, Bangalore, Ahmedabad, Hyderabad, Mumbai, Jamshedpur and Varanasi over a period from March-June 2024.** These events, organized with leading e-commerce platforms, provided valuable hand-holding, capacity building, and training sessions for participating businesses, offering key insights and support to help them succeed in global markets.

Various ecosystem players like ECGC, EPCH, FIEO, MSME, India Post and various Banks like HDFC, ICICI, SBI and Exim Bank have also collaborated and contributed in successful completion of these outreach events. The events have provided insights about the concerns of the exporters and built awareness about the issues faced in e-commerce adoption, for instance, payment issues, trust and buyer verification, etc.

DGFT has also partnered with Exim Bank to boost exports under the ODOP-DEH initiative (One District, One Product and Districts as Export Hubs). This collaboration stems from an Exim Bank study that identified 59 middle exports districts with export potential. Under the collaboration, DGFT selected 6 districts (Anantapur, Raipur, Solan, Tirupur, Kanpur, Kolhapur) from a list of 20 proposed by Exim Bank.

These districts will receive support through Exim Bank's GRID program (Grassroots Initiatives for Development). The program aims to address sector-specific challenges and identify suitable beneficiaries for support. Exim Bank aims to prepare a detailed proposal outlining challenges and solutions for collaborative implementation.
