Letter from Howard

November 2016

To Our Customers, Partners, & Daycon Associates-

As we celebrate our 75th anniversary in the coming year, we reflect on the principals and values that have helped to sustain us for so many decades. We are constantly looking to build on the bedrock laid when my grandfather, David Cohen, founded the company in 1942. During the early years, he instilled within Daycon's DNA a dedication to customer service, beyond all expectations. In addition to his focus on the customer, he set the foundation for a path of innovation that has guided us through to this date. When my father, Bobby Cohen, took over the company, he led us through to the next generation by expounding on these core principals and adding a strong dose of creativity, a commitment to building a world class team, and a remarkable passion for our industry. As I now hope to carry on that legacy, we've honed our core values to include strong accountability. When a Daycon associate makes a commitment to a valued client or a fellow associate, it can be counted on to be done. We value respect. Respect for our fellow associates, our clients and our community. We are committed to growth- for our business and for yours.

As I reflect on this remarkable journey, I think of the blessings that have been bestowed upon this company. We have had a core group of dedicated clients as well as remarkable people who've chosen to dedicate their life's work to carrying on the Daycon legacy for the decades to come. I am profoundly thankful for those people who've entrusted us with their business and, in many cases, their livelihood. We do not take that commitment lightly and are very thankful for the opportunity.

Passion, Growth, Innovation, Creativity, Accountability and Respect are the Daycon core values that drive our organization today and into the future. You can count on Daycon to live up to these values and deliver on our promise of exceptional service, day in and day out. You can count on us to bring innovative ideas to help you in your day-to-day business and, most of all, you can count on our commitment to do what we say we will do. We are uniquely passionate, some may even say fanatical, about our industry and love what we do. Thank you for entrusting your business with Daycon.

HIGH-PERFORMANCE TRAINING PROGRAMS

Daycon can assess your staff's training needs and recommend a customized training regimen which may include in-person training sessions, online learning management programs and customized training classes. The following is a brief overview of some of the training programs available.

Cleaning & Maintenance Technique

Carpet Care - Having trouble with stains and spotting? Want to learn the best ways to treat your carpet without damaging it? This seminar helps you develop and maintain an appropriate carpet maintenance program. Covers all the basics and more, from vacuuming and wet extraction to tough stain treatment.

Resilient Floor Care - Learn how to obtain consistent, beautiful results every time. Learn how to develop a floor care program that provides desired results. From stripping to burnishing, we will address both conventional and high-speed systems.

Restroom Care - Designed for contract cleaners, in-house cleaning staff, cleaning supervisors and managers, this seminar covers new technology and tried-and-true methods and tools for cleaner and healthier restrooms.

Safety in the Field - Help keep your customers and employees safe and avoid costly consequences as a result of unsafe work practices. This program provides practical advice on personal protective equipment, lock out/tag out, SDS, and other issues that influence employees at the field level.

Stone & Marble Care - Stone floors require unique care methods in order to avoid costly damage. This seminar will educate you on the identification of stone surfaces and finishes, as well as their specific maintenance requirements. Ceramic tile maintenance is also discussed.

Wood Floor Care - Don't be caught unprepared when it comes to wood floor care! Wood surfaces require unique care methods in order to avoid costly damage. This seminar will educate you on routine maintenance and revitalizing and restoring wood surfaces, including sanding and sealing.

Cleaning & Maintenance Management

Supervisory Training - Attendees will explore basic management principles including listening skills, communication and time management. Key topics include the role of the supervisor in the workplace, effective delegation, and ways to reinforce positive behaviors in employees.

Team Cleaning - Growing in popularity, Team Cleaning is an effective choice for many cleaning professionals. This is a concept created by Pro-Team® to help cleaners develop systematic cleaning techniques and effective training and supervisory methods. Team Cleaning can reduce labor inefficiencies, increase financial savings and provide guidelines for making further improvements in your cleaning program.

Team Building - The key to a more productive workforce is engagement. This program presents proven strategies for getting your supervisors and staff more engaged to build their confidence, develop a greater sense of purpose and responsibility, and improve team collaboration and problems solving.

Customer Care - How effective are your teams at communication with—and solving problems for—the occupants of the facilities you manage? This program provides a comprehensive framework you can use to develop, measure and manage a more effective customer care program.

How can your Facility Maintenance Team:

- Reduce janitorial supply costs?
- Free staff from time-consuming tasks?
- Improve sustainability compliance?

**Vendor Managed
Inventory Solutions
from Daycon**

Reduce janitorial supply costs by 5% to 15%

Our process begins with a survey of your facilities, your maintenance requirements, your ordering processes and your inventory controls. Based on those results, we'll develop a VMI Program that:

- Reduces excess inventory and carrying costs
- Identifies proper supplies and equipment for maximum efficiency
- Frees up storage space for more productive use
- Ensures efficient organization, safety, easy access and never out-of-stock inventory conditions
- Establishes the controls needed to reduce total spend on cleaning and maintenance supplies

Free staff from time-consuming manual tasks

Labor represents a large portion of your cleaning and maintenance budget. How much time does your staff spend finding, ordering and managing maintenance supplies and equipment? Your VMI program will:

- Free your staff from the time-consuming, manually-intensive processes of ordering, receiving, transporting and stocking supplies and equipment
- Enable your staff to spend more time ensuring that your facilities meet the highest standards for cleaning and maintenance
- Help your team operate at maximum efficiency

Improve sustainability compliance and reporting

Daycon's experts examine each facet of your operations from cleaning chemicals and processes to equipment and training in order to meet your school's sustainability mandate. Your VMI Program provides you with the reporting and inventory controls you need to:

- Ensure complete inventory of certified and compliant products
- Maintain up-to-date usage/total spend reporting for budget management
- Maintain comprehensive tracking of sustainability and green initiatives including LEED credits and compliance

Learn how you can start putting the advantages of Daycon's Vendor Managed Inventory Program to work for you. For more information, call 800.394.0019.

Building Wellness Certification Training

The nation's first accredited training program recognized by the Green Seal™ organization for facilities management and supervisory personnel.

- Achieve GS-42 certification, the Cleaning Industry Management Standard (CIMS) and points toward LEED certification
- Demonstrate your commitment to the health and well-being of the people who occupy your buildings
- Elevate the job of cleaning to a higher level of professionalism and respect

Protect the Health of Your Building Occupants and the Environment

Building Wellness Certification Training provides your staff the training it needs to meet the requirements of the Green Seal™ GS-42 certification program and the Cleaning Industry Management Standard (CIMS). Cleaning personnel and building service contractors that are GS-42 certified provide building owners and property managers the ability to differentiate their facilities with the Green Seal™ logo and help them achieve points toward LEED certification.

Environmental Health Facts You Should Know

- We spend 85-90% of our time indoors
- More than 55 million Americans spend their day indoors at school, and the vast majority of them are children
- Indoor pollution costs more than \$50 billion each year in healthcare, absenteeism, lost production and lost revenue
- Improved cleaning of indoor environments has resulted in reduced lost time, lower rates of absenteeism and increased productivity

About Building Wellness Certification Training

Our comprehensive program provides in-house staff and cleaning contractors with the skills and knowledge they need to maintain healthy indoor environments. Training participants benefit from the following:

- 24 hours of hands-on, GS-42 compliant training delivered in convenient schedules
- Flexible schedules that allows completion of training for one or more individuals in three days or teams of five and up to twenty-five over three days or six weeks
- Expert trainers with cross-discipline experience in occupational and environmental medicine, public health, industrial hygiene, toxicology, and chemical engineering

About Building Wellness Institute Support Services

In addition to delivering GS-42 accredited green cleaning training, the Building Wellness Institute can help you navigate the certification process, and execute and promote your unique environmental wellness program. Our consulting services address a broad range of specific objectives, including:

- Obtaining Green Seal™ and/or CIMS certification
- Achieving LEED O&M points
- Implementing green initiatives and LEED requirements
- Maintaining certification compliance
- Promoting tenant and green cleaning program awareness

Enroll your team today!

The Building Wellness Institute is currently enrolling individuals or groups of five or more.

“Our managers not only learned what to do, but also why green cleaning is important. Now we include a section on green cleaning in all our proposals, which has helped us win several contracts.”

What does it mean?

Many products in our industry have proudly earned third party certification designations. This lets the user know that their products are manufactured to the highest standards to meet industry guidelines for quality, performance and environmental impact.

Green Seal™, a non-profit organization, provides science-based environmental certification standards that are credible, transparent and essential to helping manufacturers, purchasers and consumers make responsible choices that positively impact business behavior and improve quality of life. Thousands of products and services in hundreds of categories have been certified to meet Green Seal standards. Green Seal provides public education and guidance for creating a more sustainable world.

EcoLogo® Certified products, services and packaging are certified for reduced environmental impact. EcoLogo Certifications are voluntary, multi-attribute, lifecycle based environmental certifications that indicate a product has undergone rigorous scientific testing, exhaustive auditing, or both, to prove its compliance with stringent, third-party, environmental performance standards.

The Forest Stewardship Council™ (FSC) is an independent, non-profit organization that protects forests for future generations. FSC sets standards under which forests and companies are certified to ensure proper balance and the highest level of integrity in the chain of processing paper from the source to the final product.

The CRI™ (Carpet & Rug Institute) Seal of Approval is the carpet industry's only scientific program designed to test and measure the effectiveness of cleaning products and equipment without causing damage to carpet. The results help consumers to make informed decisions and manufacturers to improve their products to maintain carpets that are cleaner, healthier and last longer. CRI also provides certification for carpet cleaning systems (such as deep extraction cleaning, vacuum cleaning, etc.) in which machines are graded on a scale ranging from bronze to platinum.

The Green Label™ and Green Label Plus™ programs were created by CRI™ to test carpet, cushions and adhesives to help specifiers identify products with very low emissions of Volatile Organic Compounds (VOCs). These enhanced programs set higher standards for Indoor Air Quality (IAQ) and ensure that customers are purchasing the very lowest chemical-emitting products on the market.

The US Environmental Protection Agency (EPA) is a federal agency established to protect human health and the environment through development and enforcement of environmental standards and regulations. Products such as paper and polyliners can be manufactured to these standards which allows the consumer to make educated decisions about purchases.

Safer Choice is the EPA's label for safer chemical-based products. Every chemical, regardless of percentage, in a Safer Choice-labeled product is evaluated through EPA's rigorous scientific process and only the safest ingredients are allowed. For over 15 years, the program has labeled products that are safer for families, pets, workplaces, neighborhoods, and the environment. The label represents leadership in safer product formulation.

Managed by the U.S. Department of Agriculture (USDA), the goal of the BioPreferred program is to increase the purchase and use of biobased products in order to reduce our nation's reliance on petroleum, increase the use of renewable agricultural resources, and contribute to reducing adverse environmental and health impacts. The program's purpose is to spur economic development, create new jobs and provide new markets for farm commodities, through mandatory purchasing requirements for federal agencies and their contractors.

CHOOSING THE CORRECT TYPE

1. If you are throwing away sharp objects, select Linear Low Liners. If not, then use High Density Liners.
2. Know your gallon capacity and calculate the size you need. Use formula to the right.
3. Make sure your average "full" can weight does not exceed the liner's maximum load.
4. Consider colored liners for specialty waste like recycling or hazardous/infectious material.

CALCULATING THE CORRECT SIZE

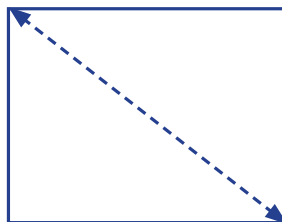

Round Container

1. Width: Use 1/2 of the outer circumference (or diameter) of the container's opening.
2. Length: Measure the height of the container, then measure the diameter of the base of container and divide by 2, then add 3" (for overhang).

$$\text{Height} + 1/2(\text{diameter}) + 3''$$

Square/Rectangular Container

3. Width: Use 1/2 of the diagonal of the container's opening.
4. Length: Measure the height of the container, then measure the diagonal of the base of container and divide by 2, then add 3" (for overhang).

$$\text{Height} + 1/2(\text{diagonal}) + 3''$$

Carpet Spot Cleaning Chart

Stain	Spotters	Directions for Use	Comments
Adhesive Asphalt Crayon Grease Lipstick Mascara Nail Polish Oil Rubber Shoe Polish Tar Wood Stain	Rescue 96 Gone II Fresh 'n Clean	Apply Rescue 96 , Gone II or Fresh 'n Clean to a clean white cloth or brush. Absorb stain onto cloth. Continue until stain is removed. Do not wipe across stain. Use a "cork screw" motion until stain is completely removed.	Apply Rescue 96 first. If stain persists, allow area to dry approximately 5 minutes and then apply Gone II or Fresh 'n Clean . Note: Rescue 96 & Fresh 'n Clean can only be used on colorfast materials. Test these products in an inconspicuous area first.
Coffee Cola Fruit Juice Mayonnaise Tea Red Wine	DX-50 Great Stuff! Tanform Gone II OxySmart OxySmart SC	Apply DX-50 , Great Stuff! or Tanform liberally to stain and let sit 10-20 minutes. Flush with water. Absorb excess with clean white cloth, wet vacuum, or extractor. Spray Gone II onto stain. Agitate and absorb with clean white cloth. Apply OxySmart/SC to a clean white cloth, then blot stain until clean. Use a "cork screw" motion until stain is completely removed.	DX-50 & Great Stuff! not only remove stains, but they completely break down material and eliminate odors. DX-50 can be used on concrete, stone, grout, and most other porous surfaces. OxySmart & OxySmart SC can be used as-is or diluted 1:1 with water to remove red wine, tea and coffee stains.
Feces Mold Urine Vomit	DX-50 Great Stuff!	Apply DX-50 or Great Stuff! liberally to the stain and let sit up to 24 hours. Flush with water and absorb excess solution with extractor or clean white cloth.	DX-50 & Great Stuff! contain living bacteria which completely break down organic materials and eliminate odors.
Blood Catsup Chocolate Gravy Ice Cream Mustard	DX-50 Great Stuff! Gone II P.C.S.*	Apply DX-50 or Great Stuff! liberally to the stain and let sit 10-20 minutes. Flush with water and vacuum to absorb excess moisture. Spray P.C.S.* or Gone II liberally on the stain, then agitate and absorb with a white cotton cloth.	Mustard stains require repeated applications of Gone II and vigorous agitation. Note: All four of these products work well to remove odors too.
Magic Marker Other Inks	Rescue 96 Gone II Fresh 'n Clean	Apply Rescue 96 , Gone II or Fresh 'n Clean to stain and agitate vigorously. Absorb with clean white cloth. Repeat if needed.	Since inks may be solvent or water-based, alternate application may be needed. Note: Rescue 96 and Fresh 'n Clean can only be used on colorfast materials.
Grape Juice Punch / Kool Aid Other Red Stains	P.C.S.* Gone II OxySmart OxySmart SC	Spray P.C.S.* or Gone II liberally on the stain, then agitate and absorb with a white cotton cloth. Apply OxySmart/SC to a clean white cloth, then blot stain until clean. Use a "cork screw" motion until stain is completely removed.	Some red stains may be caused by solvent based products and Rescue 96 should be applied.
Aluminum Tarnish Rust	P.C.S.* Tanform (can be used for aluminum tarnish).	Spray P.C.S.* liberally on the stain, then agitate and absorb with a white cotton cloth. Apply Tanform liberally to stain and let sit 10-20 minutes. Flush with water. Absorb excess with clean white cloth, wet vacuum, or extractor.	P.C.S. is effective on light rust stains. Follow directions below. If necessary, use

***Directions:** P.C.S. is a powdered oxygen bleaching agent which must be made up on a daily or as-needed basis. Make P.C.S. solution using 1 scoop in 1 qt. warm water.

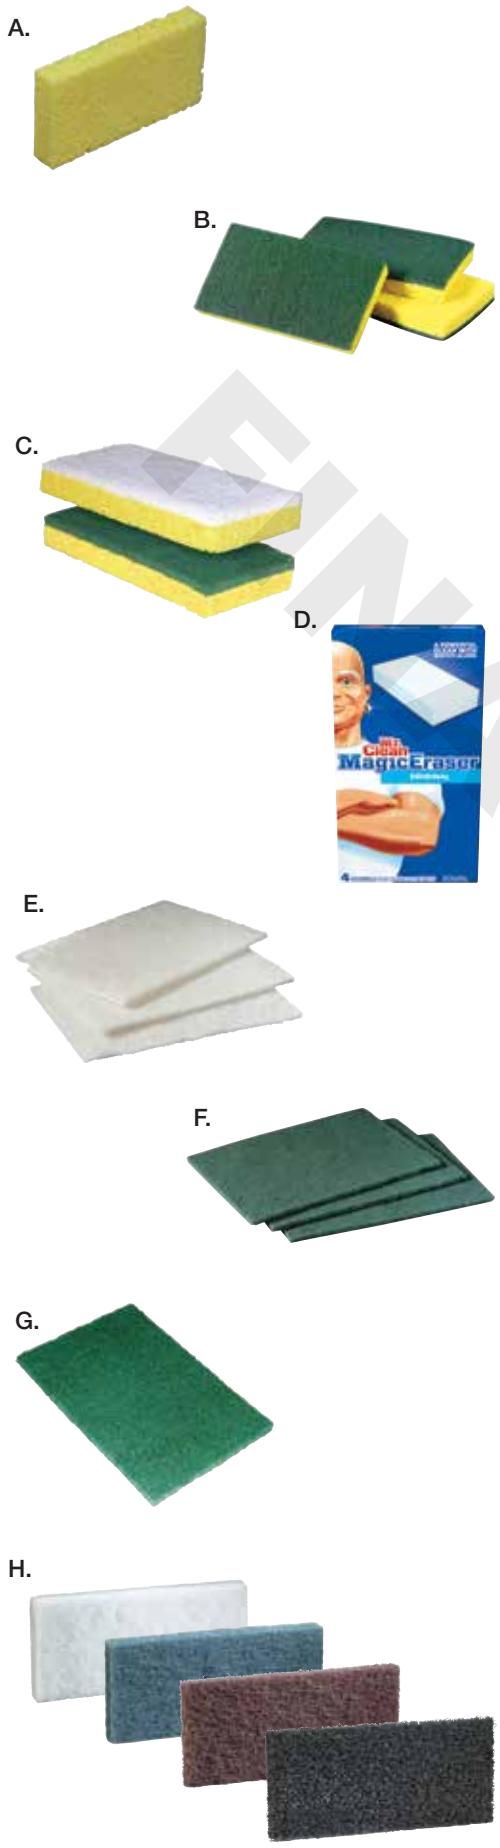

It is recommended to first test all products on a small, inconspicuous area where treatment is to be applied. Always wear impervious gloves.

Manchas	Quita Manchas	Instrucciones	Comentarios
Aceite Adhesivo Alquitran Asfalto Betún Caucho Grasa Lápiz de Color Rimel Pintura de Labios Pintura de Unas Manchas de Madera	Rescue 96 Gone II Fresh 'n Clean	Aplique Rescue 96 , Gone II o Fresh 'n Clean en un paño blanco o cepillo. Absorba la mancha con el paño limpio. Continúa el proceso hasta que toda la mancha sea removida. No lo "roces" la mancha ida y vuelta, sino uselo la mocion de "saca corcho" dandole la vuelta de derecha a izquierda hasta que la mancha se elimina completamente.	Aplique Rescue 96 primero. Y si la mancha persiste, dejar que se seque el area aproximadamente por 5 minutos y aplique Gone II o Fresh 'n Clean . Rescue 96 y Fresh 'n Clean solamente se puede usar en materiales de color que no se desvanecen. Ellos deben ser probados en un lugar poco visible.
Café Cola Jugo de Fruta Mayonesa Te Vino Rojo	DX-50 Great Stuff! Tanform Gone II OxySmart OxySmart SC	Aplique DX-50 , Great Stuff! o Tanform liberalmente en la mancha y dejar sentar por un periodo de 10-20 minutos. Enjuagar con agua y absorba el exceso de solucion en un paño blanco limpio o con vacuum o extractor. Rocie Gone II en la mancha, agítelo y absorba con paño blanco limpio. Aplicar OxySmart/OxySmart SC a un paño limpio blanco remoeva la mancha completamente con la mocion "saca corcho".	DX-50 & Great Stuff! no sólo elimina las manchas, pero completamente descomponen materiales y eliminan los olores. DX-50 se puede usar en concreto, piedra, grout y en la mayoría de las superficies porosas. OxySmart y OxySmart SC se puede utilizar tal como está o diluido 1: 1 con agua para eliminar el vino tinto, té y manchas de café.
Excremento Molde Orina Vomito	DX-50 Great Stuff!	Aplique DX-50 o Great Stuff! liberalmente en la mancha y dejelo por 24 horas. Luego enjuage con agua, y absorba el exceso de quimico con paño blanco limpio o extractor.	DX-50 y Great Stuff! contiene bacteria viviente que descompone/desbarata completamente el material organico y elimina el olor.
Chocolate Helados Mostaza Salsa Salsa de Tomate Sangre	Gone II DX-50 Great Stuff! P.C.S.*	Aplique Gone II , DX-50 o Great Stuff! liberalmente en la mancha y dejar sentar por un periodo de 10-20 minutos. Luego enjuage con agua y pasa el vacuum y absorba el exceso de agua. Rocie Gone II o P.C.S.* en la mancha, agítelo y absorba con un paño blanco limpio de algodón.	La mancha de mostaza requiere repetidas aplicaciones de Gone II y agitacion vigorosa. Los cuatro de estos productos funcionan bien para eliminar los olores también.
Marcador Magico Otras Tintas	Rescue 96 Gone II Fresh 'n Clean	Aplique Rescue 96 , Gone II o Fresh 'n Clean en la mancha y agítelo vigorosamente. Luego absorba con un paño limpio. Repita el proceso si necesario.	Ya que la tinta negra del marcadora puede que sea un solvente, o hecha a base de agua, aplicacion alternada es recomendable. Rescue 96 y Fresh 'n Clean solamente se puede usar en materiales de color que no se desvanecen.

IT'S THE BEGINNING OF AN EVOLUTION

Provito® floor pads begin with plants, not petroleum.

UHS COCONUT - 00510

Provito®

The evolutionary Provito (*For Life*) Floor Pads are made with fiber from plants, not oil-based materials, and have earned the USDA Biobased Product Certification Label. Using renewable agricultural commodities for manufacturing provides a significantly lower carbon footprint than any other pad and is a major ecological step forward in our industry.

NatureWorks® provides the plant-based Ingeo® pellets we use. Today's manufacturing produces approximately 80% less greenhouse gasses than traditional oil-based polymers. We have engineered this technology for use in commercial floor pads.

What makes it better?

Top performance is not compromised by a unique construction using plant-based materials. **Your carbon footprint is reduced when you choose to use Provito over other comparable floor pads.** Provito is the only pad made from plants. Available in a range of sizes, any finishing job can be accomplished with technologically-advanced, high-quality Provito.
