

Engaging Students in Citizen Science Through the Prevention of **Rat Lungworm Disease**

**One-day Workshop for Educators
(Non-PDE)**

**Saturday, September 29, 2018, 8:00am - 3:30pm
Hawaii Preparatory Academy, Lower Campus**

Participants will engage in hands-on STEAM activities designed to involve students of all ages in the prevention of rat lungworm disease through project-based learning. Workshop content is based on the new rat lungworm disease curriculum and teacher manual developed by the University of Hawai'i at Hilo College of Pharmacy.

- Explore the rat lungworm life cycle and Integrated Pest Management (IPM) for control of slugs and snails.
- Use design thinking to build slug traps for school and home gardens.
- Learn how to set up a story map in ArcGIS.
- Receive your own printed copy of the Rat Lungworm Disease Curriculum Manual.

Workshop is limited to 30 participants

Bring water, lunch/snacks, sun/weather protection, garden gloves, and a large, plastic jar with a wide mouth for making a slug jug.
