

How UNiDAYS makes money.

UNiDAYS may make a commission from our commercial Partners when you use your verified UNiDAYS account to unlock available savings.

These Partners may also pay us to help grow their brand. That means we might feature them on our website, in emails, etc. We may work with the Partner directly or via affiliate networks to help confirm your purchase, so we can get a commission from the commercial Partner. Because of these partnerships, we are able to offer the benefits of our core services at no charge to you.
