# COZY SLIPPERS

“When I created my new MySlippers I wanted it to have everything you could need in a slipper. I wanted a slipper that was more comfortable than anything before it but also durable enough to wear all day, indoors and outdoors. That’s why I developed an exclusive 4-tier cushioning system that combines two layers of foam with a patented impact gel to keep you from wanting to ever take them off.

But I didn't stop there, I finished my MySlippers with beautiful leather suede, cozy faux fur linings and an indoor/outdoor sole. I guarantee these will be the most comfortable slippers you'll ever own!!”
