

ANNUAL REPORT

FY2021–22

East African Children's Fund strengthens school communities by mobilizing women and other local leaders to engage in agriculture that nourishes children's bodies and minds.

Outputs & Impact FY2021-22

Making a Difference

100% direct giving: 100% of your donations made this possible.

School Nutrition and Health Programs

Grew 17 varieties of vegetables and 6 varieties of fruits at 4 school farms to boost 2,850 daily school meals for 950 students in Meru, Kenya.

Funded deworming health intervention program for 1,000 school children.

Constructed 2 new school fishponds for a total of 10 fishponds stocked and maintained to provide a weekly fish meal as an additional protein source to 950 children.

Trained 257 school youth on best practices to grow their own food for improved self-sufficiency.

Expanded school livestock program with rabbit husbandry.

Maintained school livestock piggery and chicken programs.

Women's Community Groups

Provided seeds, skills and tools to an additional 1,500+ women from 2 counties in rural Kenya to grow vegetables at their homes for improved nutrition.

Purchased staple foods (rice, beans, flour, cooking oil) for 625,000+ school meals served to 570 children and youth.

Climate smart irrigation: Installed 1 solar borehole pump for access to clean water and irrigation for fruit and vegetables at a school farm.

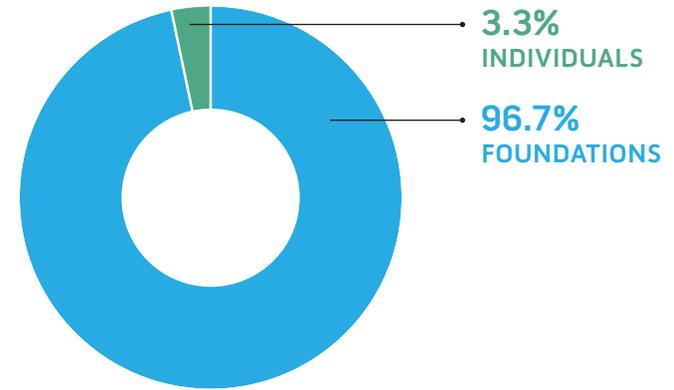

“My life changed since I came to St. Francis. At home, life was very hard because there was scarcity of food and water. Today, it is even worse for my community since COVID struck and now we have experienced drought for the past two years. I don’t experience such problems at St. Francis. I go to my classes without such worries. I want to further my studies to be a pilot.”
Douglas, Age 13
