**ENVISION UTAH**  
HOW WE GROW MATTERS

**We engage people to create and sustain communities that are beautiful, prosperous, healthy, and neighborly for current and future residents.**

We are a **nonprofit, nonpartisan community partnership** that includes both the public and private sectors. Those who are part of Envision Utah share two things in common: a love for the state of Utah and a desire to maintain a high quality of life for everyone for decades to come.

Since 1997, Envision Utah has worked as a neutral facilitator to bring together residents, elected officials, developers, conservationists, business leaders, and other stakeholders to **make informed decisions about how Utah should grow**. Our projects and successes span many fields: land use planning, air quality, water use, public transportation systems, education, and much more.

Envision Utah's goal has always been to **empower people to create the communities they want**. Our supporters are visionaries who value Utah and what we will leave for future generations. Together, we will ensure that our great state flourishes.

**THANK YOU FOR BEING A VISIONARY!**
