

FIREPUMP.AI

Enriching Lives

**VERTICAL MULTISTAGE
JOCKEY PUMP**

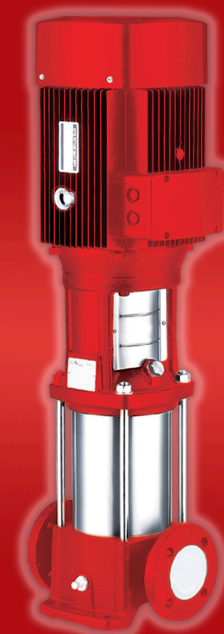

Features

- Superior Pump Hydraulics
- Cartridge Type Mechanical Seal
- Splined Shaft
- Replaceable Wearing Parts
- Dynamically Balanced Rotating Parts
- Easy Maintainable Design
- Suitable for Horizontal Applications
- High Head Applications

Technical Data

- Model Name: KCIL/SMV series
- Flow: 5 to 255 US gpm
- Pressure: up to 478 psi
- Speed: 2900 rpm
- Drive: Electric

Benefits

- Booster, Firefighting, Hydro Pneumatic Systems and Heating, Ventilation & Air Conditioning System (HVAC).
- Water Treatment - Reverse Osmosis Systems, Softening, Ion Exchange, Demineralising Systems and Distillation Systems.
- Irrigation - Field Irrigation (Flooding), Sprinkler Irrigation and Drip-Feed Irrigation.
- Dairy, Food Processing and Beverage Industries - Supply of Clean Water.
- Small Capacity Power Plants - Boiler Feed and Condensate Transfer.

Markets

- Building Industry
- Water Treatment
- Irrigation
- Dairy, Food Processing and Beverage Industries
- Small Capacity Power Plants

Applications

- Building water supply
- Fire fighting system
- Boiler feed water
- Water works
- Irrigation system
- Water treatment - RO system

Assessed to ISO 9001:2000
Certificate No. 111

Scope of Performance Vertical Multistage Jockey Pump
