

Standard Aluminium Tray Body

Standard aluminium steel tray body designed for the fleet operator, tradesman, courier, camping enthusiast, it is our entry-level product aimed at the consumer looking for value for money. These units are designed to fit all light commercial vehicles from Dual to Single Cab Utes (not available for Land Cruiser or Amarok).

Fabricated in aluminium, these units provide you with the lightest tray body possible ensuring you get maximum payload, reduced fuel consumption, and better tyre wear. With the following list of standard features, you'll think we were mistaken when we named the product.
