

# Digital Course Survey Report

February 2024

## **Introduction**

This survey is vital to Folkestone Nepalese Community (FNC) to discover the beneficiaries' responses. The survey is primarily designed to assess the effectiveness and importance of IT Beginners course run at the FNC Centre and to find out the impact that has made in their social life or in education.

## **Method**

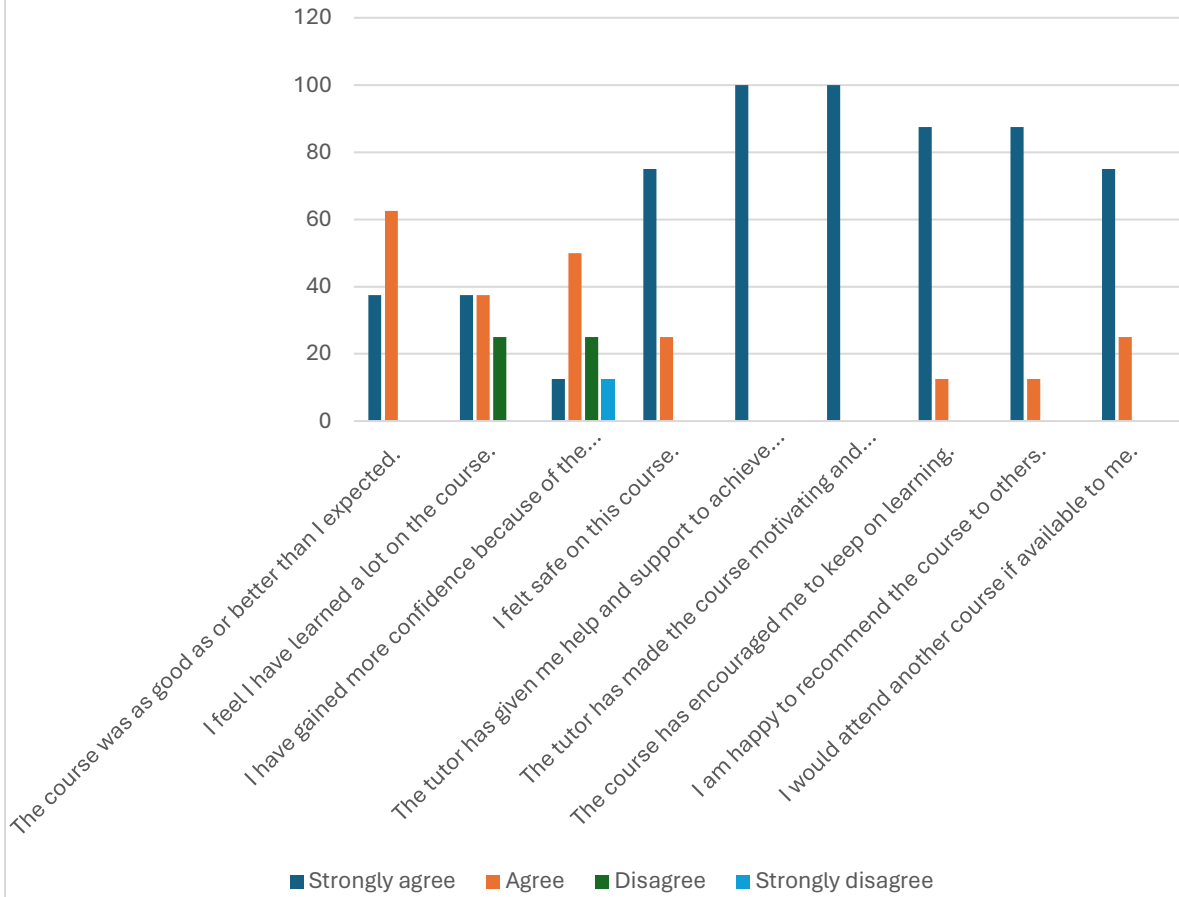

This survey was undertaken at the Folkestone Nepalese Community Centre (FNC Centre) community to gather the information about the beneficiaries to discover their experience regarding the IT class. The answers were collected by tick in a box from scale of strongly agree to strongly disagree. The total numbers of participants were, 3 Females including 5 males with age group averaging 66 and above.

## **Results and graphs**

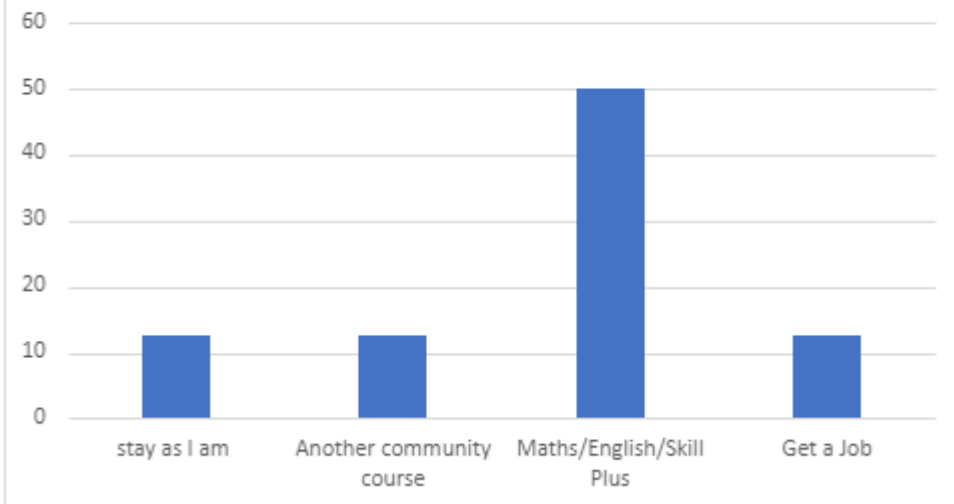

The result was purely reflected about how they felt about the course and its impact towards their lives. As a matter of fact, this survey can be used as evidence to conduct and improve various classes in the future by the Folkestone Nepalese Community Centre (FNCC). Majority of the feedback received were positive about the course and they way it was conducted. However below are the graphs for visual representation and better understanding of the survey that was undertaken.

## Course Evaluation

## Future Plans

## **Conclusion**

Through this study, we have gained valuable insights into the studying habits and preferences of our beneficiaries. Several trends and patterns have emerged from the data collected, shedding light on the diverse ways individuals approach their study routines. This highlights that the beneficiaries are not only engaged physically but also enjoying the concept and teaching methods, and the teaching personal provided by the Folkestone Nepalese Community Centre (FNCC). His expertise in the subject matter has helped the beneficiaries to learn and experience the course in very pleasant environments. However, 90% of the of the answers on the betterment of improvement of course has very similar answer, i.e. they would appreciate a long duration of course in near future.
