

ENVIRONMENTAL POLICY

Geo-Con Products Pty Ltd is suppliers of laboratory and field test equipment to the civil engineering industry throughout Australia.

We are committed to a policy of providing high quality products and services in a manner which will protect and improve the environment for all of our activities..

We will work closely with our clients, contractors, the community, industry and external agencies to establish the procedures by which we can make a positive contribution towards innovative and cost-effective environmental outcomes.

Responsible management of environmental issues is an essential part of achieving our business objectives.

Accordingly, we are committed to conducting our activities in ways which will:

- Continually improve our awareness and management of environmental risks and avoid, reduce and prevent pollution.
- Fulfil with compliance obligations.
- Promote waste minimisation and energy management.

Geo Con Products through its management and staff will ensure its operations comply with this policy by developing, implementing and maintaining an Environmental Management System based on ISO 14001:2015.

The Environmental Management System will:

- Set a clear policy direction for environmental issues and objectives.
- Establish systems for auditing monitoring and reporting performance.
- Identify and promptly resolve any non-conformances and document any necessary procedural changes.

This policy shall be reviewed on an annual basis.
