

MASTER SERIES HIGH PEAK FRAME TENT

The Master Series High Peak Frame Tent combines the ease and speedy installation of the standard Master Series Frame Tent system with the elegant appearance and design of a high peak tent. Just like the standard tent, the Master Series High Peak is made with fewer pieces of hardware and a tensioned valance for a smooth, tight appearance. The high peak and sloping curves catch attention, while the frame itself can be interchanged with other Master Series Frame Tents and even the Classic Series Frame Tent systems.

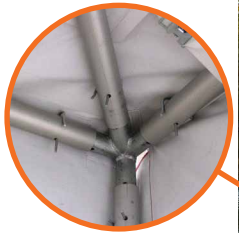

Easy Setup • Freestanding Supports • Custom Printing Available
