List of GnuPG Signing Keys

To guarantee the authenticity of software created by the GnuPG project and g10 code GmbH, all released versions come with an OpenPGP signature in a separate file. The public keys to verify them are available at

https://gnupg.org/signature_key.asc

and their fingerprints are as follows:

```
pub   brainpoolP256r1 2021-10-15 [SC] [expires: 2029-12-31]
