

## Summary of Lion Traditional Benefits

On the chart below, you'll see what your plan pays for specific services. You may be responsible for a facility fee, clinic charge or similar fee or charge (in addition to any professional fees) if your office visit or service is provided at a location that qualifies as a hospital department or a satellite building of a hospital.

## The Pennsylvania State University – Faculty & Staff

Effective: 01/01/2024

	Non-Preferred Brand - 70% coinsurance, \$100 maximum			
Prescription Drug OOP (plan will pay 100%	\$2,000 individual			
coverage once the out of pocket is reached)	\$8,000 family			

- (1) Your group's benefit period is based on a Contract Year. The Contract Year is a consecutive 12-month period beginning on your employer's effective date. Contact your employer to determine the effective date applicable to your program.
- (2) The Network Total Maximum Out-of-Pocket (TMOOP) is mandated by the federal government. TMOOP must include deductible, coinsurance, copays, prescription drug cost share and any qualified medical expense. For plan year 2024 the in-network Individual TMOOP amount is \$9,450 and the in-network Family TMOOP amount is \$18,900.

b) Services must be performed by a BS approved telemedicine provider through Well360 Virtual Medicine via MyHighmark.

- (4) Treatment includes coverage for the correction of a physical or medical problem associated with infertility. Infertility drug therapy may or may not be covered depending on your group's prescription drug program.
- (5) BS Medical Management & Policy (MM&P) must be contacted prior to a planned inpatient admission or within 48 hours of an emergency or maternity-related inpatient admission. Be sure to verify that your provider is contacting MM&P for precertification. If not, you are responsible for contacting MM&P. If this does not occur and it is later determined that all or part of the inpatient stay was not medically necessary or appropriate, you will be responsible for payment of any costs not covered.
- (6) Prescriptions are covered as long as they are listed on the prescription drug formulary applicable to your plan. To obtain a prescription medication that is not included on this formulary, your provider must complete the 'Prescription Drug Medication Request Form' and return it to the Pharmacy Affairs Department for clinical review. Under the mandatory generic provision, you are responsible for the payment differential when a generic drug is available, and you or your provider specifies a brand name drug. Your payment is the price difference between the brand name drug and the generic drug in addition to the brand name drug copayment or coinsurance amounts, which may apply.
- (7) Preventive medications defined by the Affordable Care Act are medications that can be offered at no cost. Examples include bowel preparation, breast cancer primary prevention, contraceptives, fluoride, HIV Prep generics, low dose generic statins (age based), tobacco cessation and vaccines.
