

INTERNSHIP INFORMATION

WVTM 13 recognizes that a good internship program can add practical experience to the education a student gains in college or graduate school; therefore, the station has established a Paid Internship Program in which students may work one semester, get paid and if needed earn academic credit. There are a variety of internship opportunities available year-round to students currently enrolled in trade/tech schools as well as college juniors and seniors. Interns will be closely supervised and critiqued in order to maximize the learning experience.

INTERNSHIP AREAS

Internship opportunities are available in the following areas. Hours may vary depending on the assignment and student schedule. Descriptions are located at www.wvtm13.com.

- **Newsroom**
