### MATERIAL

[Solid Surface](#)

## Highlights

### DIMENSIONS

1.8 m L

Measuring 1.8 metres in length and with water depth of 500 millimetres, the Purescape 171 freestanding tub is generous enough to offer people standing 6 feet and taller a comfortable soak.

Made from a proprietary solid surface composite, its ergonomic shape – with high backrest on either end, a discreet overflow slot and a wide, rounded rim – enables easy ins and outs. Aquatica's contemporary take on the classic slipper tub comes in graphite black or crisp white.
