State-of-the-art bathroom solutions from Aquatica

Aquatica bathtubs are synonymous with quality, performance and style. Thanks to the innovative approach of its designers, supported by heavy investment in research and development and combined with cutting-edge technology used in the production, Aquatica offers partners a wide selection of products that are unique, functional and durable.

Aquatica bathtubs are produced using only the highest quality materials, such as AquaTex – a solid surface composite material developed by the company itself which allows creating state-of-the-art bathroomware with superior quality, luxurious feel and lifetime use.

Aquatica offers a wide selection of bathroom styles, from freestanding stone resin baths to complex therapy hydromassage baths. The range of products also includes high quality bathroom accessories for completing the bathroom design.

Aquatica's business model is based primarily on customer satisfaction, by aiming to give clients the possibility to build the bathroom of their dreams. The personalisation in terms of selection of colours, materials and technology allows creating your own exclusive bathtub in just few clicks.

Italian-based manufacturing combined with sourcing of components from other European suppliers allows for exceptional quality control and reduced lead times for projects located in Europe, UK and even the US. Aquatica bathtubs have up to 25 years manufacturer warranty – a promise of the highest quality and durability.

Aquatica has adopted a truly international approach, offering its products to customers around the world. Experienced and highly qualified staff provide help and technical assistance to ensure the highest level of customer satisfaction.
