# K9Grass®

by ForeverLawn®

AirGrid 3 is engineered and produced by ForeverLawn® to maximize air and water flow in ForeverLawn patented K9Grass® system. It is specifically designed for use over concrete and other hard, impermeable surfaces. The interlocking grid provides a stable, flat, extremely drainable, strong surface over which the K9Grass is installed. The innovative design has minimal contact with the surface allowing maximum air and liquid flow. AirGrid 3 is another proprietary technological advancement by ForeverLawn, showing once again that we are not just ahead of the curve, we are defining it.

Available exclusively from ForeverLawn.
