

*Leading Manufacturer & Exporter of  
High Quality Brass Components*

*The Mark of Performance*

Electrical &  
Earthing Accessories

Brass Fasteners

Brass Cable Glands

Precision Turned Components

**KAIZEN**  
**METALS INDIA**

## Profile..

We introduce ourselves as manufacturers and exporters of Ferrous and Non-Ferrous precious metals component.

Since Three decades KAIZEN Group has witnessed as well as implemented the engineering technologies whatever came across the past commercial phase, up to the best of the best. In this 25 years of industries, many wonders has been created towards the globalization of business & thankfully world becomes so small for overseas business trade & opportunities, with the blessings of information & technology revolution.

Our culture, mindset and attitude enables us to compete successfully in the world market place. We at KAIZEN believe that the search for excellence is a continuous process and our achievements are purely milestones in the long journey.

Terms of engineers check and report at every stage of the manufacturing process. Our semi automatic production plant is engineered to respond to the customer's command. Our varied product cater to an ever - increasing spectrum of industries.

Now at KAIZEN, We think this is the right time to convert our opportunities into the business by sharing our Culture, Ideas & techniques by joining free hands towards the growth, success & innovation of new techniques.

KAIZEN Group welcomes all business proposals from worldwide in form of Joint Ventures, Agencies, tie-up technologies, partnerships & in whatever way best, for the organizations towards the new achievements, enlargement & innovation.

We also welcome all inquires interested in selling & distributing our precious products into their specific region by becoming our associates or agents.

We take liberty to approach you with a request to kindly let us know your valued inquiries along with samples, drawing, or detailed sketch with quantity requirements so as to enable us to quote our rock bottom rates and enter into long lasting business relationship with your esteemed firm for our mutual benefit

## Products Range..

- ▲ Brass Neutral Links
- ▲ Brass Cable Glands
- ▲ Brass IP-68 Cable Glands
- ▲ Brass Earthing Accessories
- ▲ Brass Transformer Components
- ▲ Brass Fuse Parts
- ▲ Brass Split Bolt Connectors
- ▲ Brass Terminal Blocks
- ▲ Brass Terminal & Strips
- ▲ Brass Sanitary Parts
- ▲ Brass Lock Nuts
- ▲ Brass Plug, Pins & Socket
- ▲ Brass Turned Components
- ▲ Brass Energy Meter Parts
- ▲ Sheet Cutting Parts
- ▲ Brass Anchors
- ▲ Fsteners Products
- ▲ Brass Inserts
- ▲ Brass Electronics Components
- ▲ Brass Telecommunication Products
- ▲ Brass Switchgear Components

## Competitive Edge

Our Competence Quality Assurance team is highly capable of providing an integrated quality assurance by following strict quality checking at every stage; right from incoming raw material to final dispatch, keeping up-to-date records of quality standards & following those quality standards up to the advanced level. Quality equipments are timely calibrated ensuring proper controls. Vendors reports are verified periodically form external sources as per quality plans. In process stage inspection is controlled by following Statistical Measuring techniques like Variance analysis, SPC, X-Chart, R-Chart, trends etc., 100% Visual checking is carried out to ensure 100% visual defect free products.

### **Timely Delivery :**

Implementation of Effective Inventory strategies like JIT (Kanban) & Safety Stocks enable us provide timely deliveries, reducing ordering cost & handling cost to Customers.

### **Rational Pricing :**

### **Our Pricing Policy has following attractive features :**

- ▲ Free Quote
- ▲ Simple & effective Transparent Pricing Structure
- ▲ Special Price for Long Run Contract Manufacturing on Mass
- ▲ Quick Quote

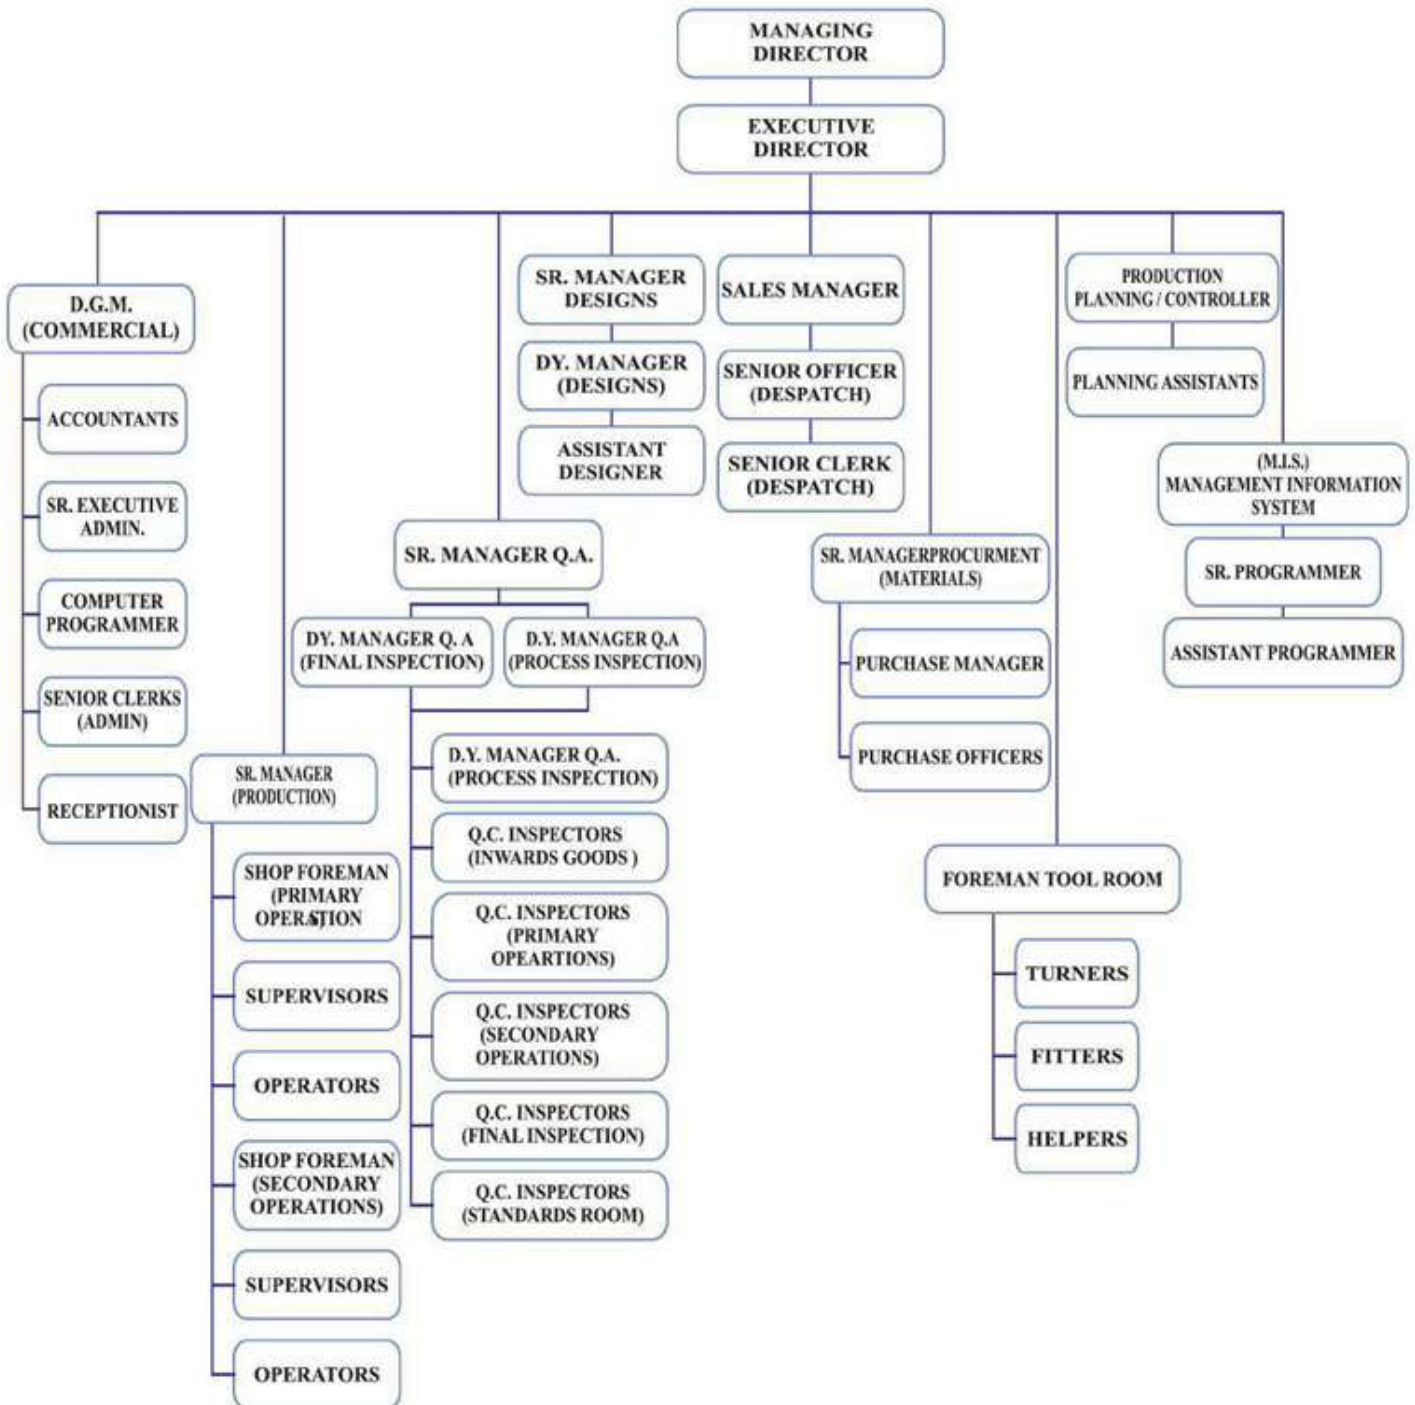

### **Skilled Engineering :**

Our Skilled Engineers thrive to improve the Yield of manufacturing resources thus increasing the overall productivity. Engineering department is responsible for Process establishment and continuous improvement for the products and is responsible for related documentation and responsible for keeping the master samples. As such we are manufacturer of Custom products; Our Engineering Department, do aid our customers in re-design the products to make it more cost effective with value engineering techniques.

Our Comprehensive Understanding & knowledge towards the application & criticality of components especially in brass metal, makes us stand firm in competitive market of business. Advance Techniques, latest machineries, our policy of continuous upgrading our technology, process & system means us to get invited to more business, infact royal business.

## Brass Spacers

## Brass Anchors

## Brass Fasteners

## Brass Inserts

## Brass Neutral Links

## Brass Terminal Blocks

## Brass Cable Glands

## Brass Precision Components

## Brass Customized Parts

## Brass Pins

## Grounding & Earthing Accessories

## Brass Line Tap

## Brass Fuse Parts

## Brass Switch Geare Parts

## Brass Transformes Parts

## Brass Forging Parts

## Brass Terminal & Strips

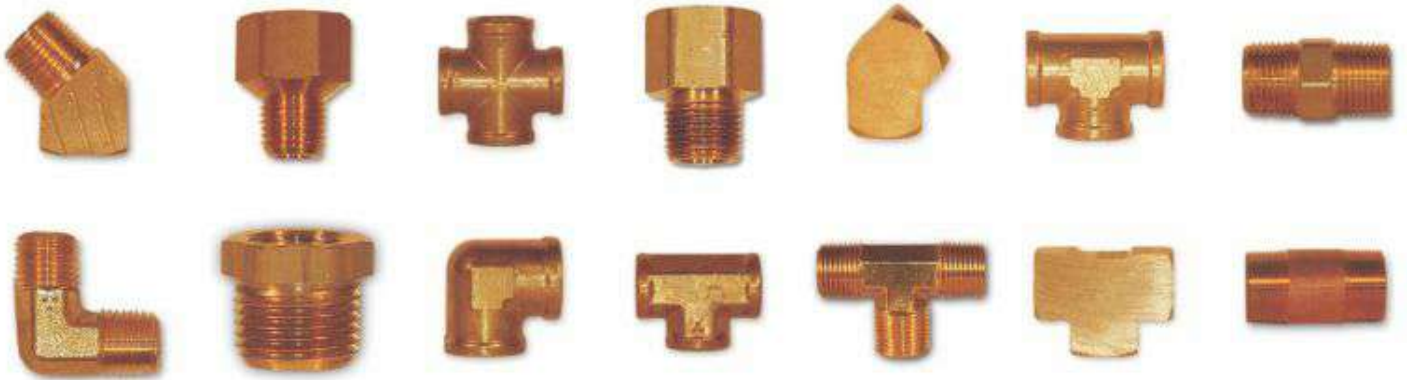

## Brass Electrical Parts

## Brass Electronic Parts

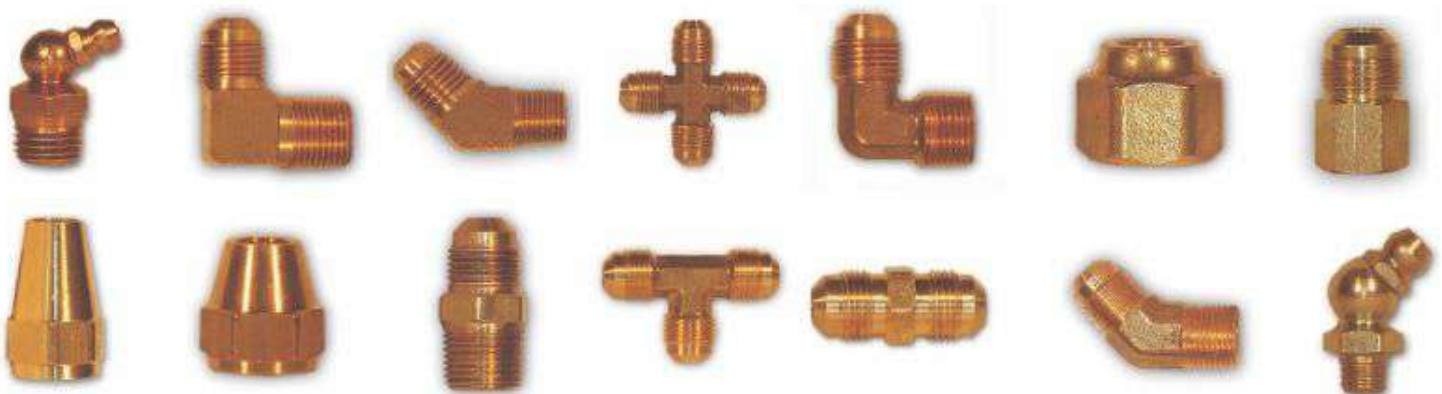

## Brass Pipe Fittings

## Brass Compression Fittings

## Brass Flare Fittings

## Brass Hose Barbs & Fittings

## Brass Chrome Plated Fittings

## Brass Turned Parts

## Brass PPR Fittings

## Copper, Bronze and Gun Metal Casting Parts

## Brass Sanitary Fittings

## Brass Sheet Cutting

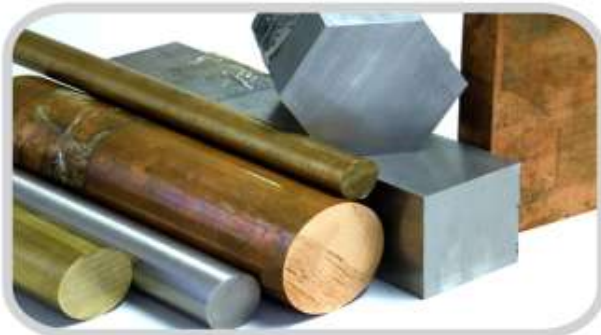

## Brass Hardware

## Brass Decorative Parts

## Brass Extrusion Rods, Billets & Ingots

## HOW TO REDUCE COSTS & PURCHASE MORE ECONOMICALLY

WHAT	HOW	WHY
QUANTITY	Check Annual Requirements and Supplier	With an annual contact the supplier Can minimize tooling setup costs. Greater flexible for the most Economical Method of Manufacturing Is allowed.
OVER AND UNDER RUNS	Ordering exact qualities increases costs	Allowance must be made for overage in Production which must be prorated in The quoted price.
DELIVERY	Allow sufficient lead time for normal Planning. Provide your supplier with The best forecast.	Quick deliveries involve premium material and Labor costs. A longer / better forecast permits More economical manufacturing runs.
PACKAGING	If special packaging, labeling or bar coding Is required, advise the supplier of this when The request for pricing is made.	Unusual packaging requirements are expensive due to special material and labor if advised in advance a Supplier may be able To provide alternative. Less expansive packaging.
MATERIAL	Design and application permitting specify Standard sizes of free machining grades.	Standard sizes cost less and are more readily available Free machining material (Brass) yields greater Production improved finish and closer tolerance.
TOLERANCES	Specify no closer tolerance then absolutely Functionally necessary.	If required, supplier of precision machined products Can and will make the parts with close tolerance. However higher Costs can be expected the closer the Tolerance Requirements.
INTERNAL DIAMETERS	Hole diameters should be specified to the Maximum allowed limits.	Suppliers of precision machined products stock Standard drills and reamers. Special internal diameters Can be produced but with the expansive special Tooling.
THREADS	Specify standard threads as far as possible Line UNC, UNF, OSO Metric, BSP (G) NPT NPTF, BSW, BA etc. Also for internal threads Keep sort lengths if possible.	Special threads require special tools and gauges. Closer fits may require additional operations. Full threads are harder to tap.
GAUGES AND GAUGING EQUIPMENT	Wherever possible part design should avoid The need for special gauges.	Special gauges and gauging equipment add to part Costs. Customers may supply special gauges to Eliminate additional costs.
FINISH	Clearly specify surface finish no closer Then necessary to meet function Requirements.	Finer surface finish may require special tooling, Slower cycle time or additional second operation And special handling and packaging methods.
QUALITY	Be as detailed as possible with the Quality requirements. Specify which Characteristics are of greatest Importance to products performance.	This will allow the supplier to focus on what is important and to follow parallel or compatible quality procedures.

## Quality Policy..

Our Prime Focus is the satisfaction of our Honorable Customers & our Prime Motto is to meet customers' requirements effectively & creating values for all, our customers & our Company & to Society.

We at KAIZEN are committed to manufacture & deliver consistently, quality engineering brass components and services to the customer. We at KAIZEN are committed to pursue Excellency through continuous improvement in all areas of business processes and to distinguish ourselves by the quality, delivery & cost efficiency of our products & services, with the total Involvement of our employees. We at KAIZEN thrive to understand and fulfill, with quick response the changing needs of the customer time to time. We at KAIZEN are committed to adopt & Implement Latest World Standards, Techniques & systems for ensuring Total Quality Control.

This policy shall form the basis of establishing and reviewing the Quality Objectives and shall be communicated across the organization. The policy will be reviewed to align with business direction and to comply with all the requirements of the Quality Management Standard.

### TRAINING POLICY

KAIZEN group believe in enhancing human resources assets value for continual improvement in product quality. Periodic training is provided to all employees to make things Easier, Faster & cost effective. Periodic measurement of employees' skills & capabilities are tested with relation to Matrix Skill & competence skills. In house as well as training from professional bodies are organized.

### HEALTH AND SAFETY POLICY

Health & Safety of all the employees is utmost importance at **KAIZEN METALS INDIA**. We aims to eliminate, control or reduce the workplace hazards & associated risk of illness or injuries to the employees, Customers, Contractors & all those who might be affected by our business activities.

#### With regard to Health & Safety, we aim to achieve the following Objectives:

We recognize & comply with the requirements of all relevant Legal, Statutory & other Provisions and will provide a safe working environment, safe work equipment and safe methods of work to all our employees. We are committed to ensuring the safety of our employees, customers and everyone else affected by Our business' activities. Will provide appropriate financial and physical resources necessary to achieve these aims.

Provide sufficient information, instruction, training and supervision to enable all Employees to identify, minimize and manage hazards and to contribute positively to Safety at work. All employees are responsible for taking care of their own health and safety and that of the people they work with Chief Executive officer will be ultimately responsibility for health and safety in the business.

This policy will be regularly reviewed and revised to ensure that it remains both relevant and Appropriate to the organization, our people and stakeholders.
