REMEDI  
BLDG.com

A Klean Chemistry

PROBIOTIC CLEANING SYSTEMS

## PRODUCT INFO

One gallon makes 40 quarts of ready-to-use solution.

For use on tile, toilets, urinals, sinks and countertops. Used in community centers, industrial kitchens, restaurants, hospitals, schools, locker rooms, auto dealerships, day care, retirement and health care facilities.

Dissolves & prevents scale build-up commonly seen in restrooms, including hard water deposits and urine crystals. Continued use will permanently eliminate urine build-up and odors. Not a mask or cover-up. Odor elimination by means of complete bacterial & enzyme dissolution and digestion of organic matter.

## What is Remedi?

Derived from Bioremediation - this highly effective line of products containing specialized, friendly bacteria and enzymes, can truly be referred to as Probiotics for industrial, commercial and residential environments. Our integrated chemistry of ecologically focused ingredients accelerate the emulsification and dissolution of targeted soils and pollutants.

- Going beyond green & sustainability, these products support the rapid return of our environments to their natural state
- Unique blends that target specific soils & pollutants, including long-chain & short-chain hydrocarbons
- Improves air quality; reduces hydrogen sulfide, indoor air-pollution & other foul odors, while enhancing healthy BOD, COD levels
- Continued environmental benefits throughout drains, sewer system networks and water tables

## DIRECTIONS FOR USE

Shake gently before use (unless you are using the Remedi Automatic Dispensing System).

### Dilutions:

- Quart Sprayer: 1 ounce per quart of water.
- Per Gallon: 4 ounces for each gallon of water.

Consult your Remedi Representative about our Automatic Dispensing System.

### Instructions:

Add diluted directions.

Apply with a hand-held, garden or backpack sprayer.

Spray surface and wipe with a clean, absorbent towel.

For demanding conditions; a light after-spray may be applied at the end of the day. This final application in and around urinals or on surrounding floors will continue to clean and deodorize.
