

EVERYBODY

1. Seems like everybody is singing in a band,
And everybody's got an angle or a plan,
And everybody's trying to make some kind of deal,
But everybody knows
That everybody wants a love that's real.

2. And everybody wants to dance upon the moon,
And it seems like everybody's trying to live in a cartoon,
But there ain't nobody knows just how you feel,
But everybody knows
That everybody wants a love that's real.

Chorus >> Love been waiting on... you been hiding behind
All that junk in your worried mind.
When you open your arms, you're taking a chance
To join in the dance.

3. But when everybody seems to know what's wrong with you,
And when everybody wants to tell you what to do,
(And) It seems like everybody's always trying to make things harder,
Well, everybody knows
A real love takes you just the way you are. >> **Instrumental Break**

Chorus >> Love been waiting on... you been hiding behind
All that junk in your worried mind.
When you open your arms, you're taking a chance
To join in the dance.

4. But when everybody seems to know what's wrong with you,
And when everybody wants to tell you what to do,
(And) It seems like everybody's always trying to make things harder,
Love will hold you close,
'Cause, everybody knows
A real love takes you just the way you are.
